EP1.2:

208 DATA CLEARINGHOUSE

U.S. Environmental Protection Agency

Water Planning Division

May 1980

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

DATE: MAY 6 1980

SUBJECT: 208 Data Clearinghouse

FROM: Merna Hurd, Director
Water Planning Division (WH-554)

Perry Wozz
for

TO: Regional Water Division Directors
ATTN: WQM Coordinators

INFORMATION MEMORANDUM: INFO 80-72

The 208 Data Clearinghouse was originated to aid local agencies in obtaining technical reports of other agencies that may contain applicable solutions toward plan completion and implementation. This issue of the Clearinghouse incorporates the four previous editions as well as all new materials received since their publication.

The format for the Clearinghouse is similar to prior issues. It includes approximately forty subjects reviewing all aspects of Water Quality Management. The subjects range from actual work plans of local agencies and non point source BMPs, to public participation. The subjects are broken down into separate entries which are categorized and numbered. Each entry includes bibliographic information describing the document and its content, the name of the agency which produced the document, and frequently a brief abstract describing the content. In order to obtain any of the material in the 208 Data Clearinghouse, contact the agency that produced the document. There is a list of all state and local agencies, with their mailing addresses in an appendix of the Clearinghouse.

In order to keep our records current, we would appreciate being notified when new technical reports are produced. This can be done by sending a copy of its bibliography and a short indication of its contents to:

208 Data Clearinghouse
US Environmental Protection Agency
WH-554
401 M St., SW
Washington, DC 20460

Your contributions are greatly appreciated and may provide other agencies with knowledge and experience necessary for successful implementation of projects. Through the cooperation of all state and local 208 agencies the 208 Data Clearinghouse can accomplish its goal as a beneficial source of technology transfer.

cc: Public Participation Coordinators
Regional Project Officers
NPS Coordinators

RECEIVED
JAN 10 1907

DEAR MR. [Name]

I have the honor to acknowledge the receipt of your letter of the 7th inst.

and in reply to inform you that the same has been forwarded to the proper authorities.

Very respectfully,
[Signature]

I have the honor to acknowledge the receipt of your letter of the 7th inst. and in reply to inform you that the same has been forwarded to the proper authorities.

I have the honor to acknowledge the receipt of your letter of the 7th inst. and in reply to inform you that the same has been forwarded to the proper authorities.

I have the honor to acknowledge the receipt of your letter of the 7th inst. and in reply to inform you that the same has been forwarded to the proper authorities.

I have the honor to acknowledge the receipt of your letter of the 7th inst. and in reply to inform you that the same has been forwarded to the proper authorities.

I have the honor to acknowledge the receipt of your letter of the 7th inst. and in reply to inform you that the same has been forwarded to the proper authorities.

Very respectfully,
[Signature]

I have the honor to acknowledge the receipt of your letter of the 7th inst. and in reply to inform you that the same has been forwarded to the proper authorities.

I. AGRICULTURE

- 1.1 "Agriculture Runoff Control Manual," Washoe Council of Governments, April 1978.
- 1.2 "Appendix E: Agricultural Nonpoint Source Analysis," Dane County Regional Planning Commission, 1978, 64 pages, \$2.00
- 1.3 "Agricultural Water Quality Management Plan," Rogue Valley Council of Governments, 1978.
- 1.4 "Agricultural Loading Data," Delaware Valley Regional Planning Council, Chester Betz, Engineering, May 1977.
- 1.5 "Agricultural Land and Preservation Issues in the OCPC 208 Area," Old Colony Planning Commission, Examines several aspects of the agricultural land use issue and reviews the prospects for the future; reviews current trends and briefly examines some factors influencing the trends; evaluates the "Farmland Assessment Act," and reviews several alternative approaches to preserving farmland.
- 1.6 "Agricultural Non-point Source Pollution in GLS Region V, A Background Report," Chase-Mogdis Inc., Genessee, Lapeer and Shiawassee-Region V Planning and Development Commission, April 1978.
- 1.7 "Agricultural Non-point Sources of Pollution-Background Information and BMP Approach," Delaware Valley Regional Planning Commission, Chester Betz May 1979.
- 1.8 "LU-12 The Agricultural Future," Salt Lake Council of Governments, July 1977, 75 pages.
- 1.9 "Agricultural Runoff Management Plan," Alabama Water Improvement Commission.
- 1.10 "Agricultural Nonpoint Source Element (draft), State Water Quality Management Plan," Florida Department of Environmental Regulation, January 1979.
- 1.11 "An Agricultural Nonpoint Source Pollution Management Plan," Montana Department of Health Environmental Sciences.
- 1.12 "Agricultural Nonpoint Pollution Management Plan for West Central Indiana," West Central Indiana Economic Development District, Incorporated.
- 1.13 "Agriculture and Water Quality," Flathead Project, 135 pages.
- 1.14 "Agricultural Runoff," Kansas Department of Health and Environment.
- 1.15 "Agricultural Pollution Sources," Greater Egypt Regional Planning and Development Commission, March 1978, 36 pages.
- 1.16 "Agricultural Runoff Pollutant Loadings," Technical Memoranda, Southwestern Pennsylvania Regional Planning Commission.
- 1.17 "Agriculture and Water Quality," Flathead 208 Project, 135 pages.
- 1.18 "Agricultural Land and Preservation Issues in the OCPC 208 Area," Old Colony Planning Council. Examines several aspects of the agricultural land use issue and reviews current trends and briefly examines some factors influencing the trends; evaluates the "Farmland Assessment Act," and reviews several alternative approaches to preserving farmlands.

- 1.19 "Agricultural NPS Loadings, #204," Area Planning Board of Palm Beach County.
- 1.20 "Agriculture" State of Tennessee Department of Public Health, limited copies.
- 1.21 "Agricultural BMP Report," Baltimore Regional Planning Council.
- 1.22 "Agriculture Land Use," Blue Ribbons of the Big Sky Country Areawide Planning Organization.
- 1.23 "Agriculture Study," Blue Ribbons of the Big Sky Country, Areawide Planning Organization.
- 1.24 "The Effect of Agricultural Activity on Groundwater Quality near Millsboro, Delaware," Coastal Sussex Water Quality Program, August 1977.
- 1.25 "Agricultural Runoff in the North South Basin," Boston Metropolitan Area Planning Council, January 1976.
- 1.26 "Agricultural Practices and Non-Point Sources," Maricopa Association of Governments, Boyle Engineering for U.S. Army Corps of Engineers, March 1977. The first section of this report presents information developed in the review on agricultural practices, including the following: agricultural areas, cropping trends, Central Arizona Project, water use, irrigation districts, existing canal system, irrigation practices, treated effluent as irrigation water. The second section examines nonpoint sources of pollution-storm drain system, solid waste disposal, feed lots, dairies, sand and gravel operations.
- 1.27 "Assessment of Irrigated Agriculture as a Nonpoint Source-Range-land Grazing Mineral Extraction," Central Arizona Association of Governments.
- 1.28 "Best Management Practices for Irrigated Agriculture in the Larimer-Weld Region, Colorado Analysis and Recommendations," Larimer-Weld Regional Council of Governments, April 1978.
- 1.29 "Agriculture," Best Management Practices Report, Illinois Environment Protection Agency, October 1977.
- 1.30 "1969 Census of Agriculture, by County," Rappahannock Area Development Commission.
- 1.31 "Census of Agriculture," Michigan Area Council of Governments, 1976.
- 1.32 "Compilation of Information Pertaining to Pollutants in Runoff from Agricultural Land," South Eastern Council of Governments, October 1977, 99 pages, \$3.00.
- 1.33 "Computer Data Supplement to the Agricultural Nonpoint Pollution Management Plan," West Central Indiana Economic Development District, Inc.
- 1.34 "Conservative Treatment, Alternatives for Cropland Technical Guide Section 111-B," Rappahannock Area Development Commission, July 1973.
- 1.35 "Construction, Agriculture, and Sedimentation," Boston Metropolitan Area Planning Council, June 1977.
- 1.36 "Control of Water Pollution from Cropland - Vol. 1," 6 District Council of Governments.

- 1.37 "Outline the Most Effective Agricultural Best Management Practices That Will Result in Reduced Nonpoint Pollution," Controlling Pollution from Cropland, Lewis and Clark Regional Council Development.
- 1.38 "Control of Water Pollution from Cropland," Volume 1, Environmental Protection Agency, Washington, DC, Rappahannock Area Development commission.
- 1.39 "Control of Water Pollution From Cropland," Kansas Department of Health and Environment, (fact sheet).
- 1.40 "Costs for Applying Recommended Management Practices on Agriculture Land," Southeast Michigan Council of Governments, April 1978, 55 pages. This report contains cost estimates for implementation of agricultural best management practices developed by SEMCOG to control nonpoint sources of pollution in Southeast Michigan. The report describes best management practices in relation to water quality protection and quantifies, for each county in the SEMCOG region, the practices needed to protect water quality. Six types of agricultural nonpoint source pollution are briefly characterized for each county: sediment from surface erosion, cropland, sediment from wind erosion, nutrients from fertilizers, toxins from pesticides, nutrients and pathogens from animal wastes, and sediment from stream-banks.
- 1.41 "Cropland Sedimentation in Southeast Michigan: Methodology for Identifying Potential Problem Areas," Southeast Michigan Council of Governments. This report documents the procedures developed by the Southeast Michigan Council of Governments to identify potential cropland sedimentation problem areas at a regional and watershed level, in the analysis of nonpoint sources of pollution in Southeast Michigan. The Methodology for estimating sedimentation potential represents a modification of existing analytical techniques. Technical data is presented which documents the findings and illustrates the application of the planning approach described here. The report presents background information relating to current agricultural enterprises and management practices as these affect sedimentation. The material presented reflects the participation of agricultural experts in the region, March 1978, 72 pages.
- 1.42 "Current Agricultural Practices Inventory and Review - Non-Metro Area Working Paper," Maricopa Association of Governments, Boyle Engineering Corporation. The purpose of this report is to inventory and describe nonpoint sources of pollution in order to determine the extent of pollution they may exhibit. The nonpoint sources emphasized are: individual industrial and household treatment facilities, urban runoff, solid waste disposal areas, sand and gravel operations, stream modifications and water diversions, the Palo Verde Nuclear Generating Station evaporation ponds, and cattle grazing, October 1977.

- 1.43 "Delineation of Specific Priority Areas on Rural Lands," Southeast Michigan Council of Governments, July 1979.
- 1.44 "Statewide Agriculture Water Quality Management Program for the Control of Sediment and Animal Wastes," Maryland Water Resources Administration.
- 1.45 "Dryland Agriculture," Washington Department of Ecology, March 1979, 24 pages.
- 1.46 "Dryland Agriculture Water Quality Management Plan," September 1979.
- 1.47 "Agricultural Management: Evaluation of Agriculturally Related Diffuse Sources," Best Management Practices BMP's, Clark County 208, January 1978. Identifies pollutant sources related to agricultural practices and develops corrective measures.
- 1.48 "Existing Water Quality Management for Agricultural Activities," Delaware Valley Regional Planning Council, Chester Betz Engineering, May 1977.
- 1.49 "Farm Practices and Environmental Effects- A Literature Review," Extensive bibliography included, 1978, 108 pages. Vermont Department of Environmental Water Resources, this report reviews past research conducted to assess the environmental impacts of selected farm practices that are likely to pollute surface or subsurface waters. Evaluation includes cropping practices, commercial fertilizer application, pesticides application, farm animal management, manure storage and application, and erosion control. The role of agriculture in water pollution is compared to other land uses.
- 1.50 "Farm Water Quality Management Manual," Snohomish County Planning Department, September 1977, 57 pages.
- 1.51 "Agriculture Illinois EPA Staff Critique of the Problem Assessment Report," Illinois Environmental Protection Agency, May 1977.
- 1.52 "Agriculture Implementation of Best Management Practices," Illinois Environmental Protection Agency, February 1978.
- 1.53 "Irrigation and Water Quality Management," Kansas Department of Health and Environment.
- 1.54 "Irrigated Agriculture," Washington Department of Ecology, March 1979, 25 pages.
- 1.55 "Irrigated Agriculture Water Quality Management Plan," Washington Department of Ecology, January 1979, 53 pages.
- 1.56 "Irrigated Agriculture Waste Treatment Management Plan," Ada and Canyon Counties, Idaho. Ada Planning Association, \$5.00.
- 1.57 "Agriculture Nonpoint Pollution Report," Land Use Projection to the Year 2000 (with map) Population Projection to the Year 2000, Atlantic County Planning Division, October 1978.
- 1.58 "Legal Authority for Agricultural Pollution Abatement Program in Ohio," Toledo Metropolitan Area Council of Governments January 1976.
- 1.59 "Management Program for Agriculture Runoff," Northeast Michigan Council of Governments, January 1978.

- 1.60 "Mass Balance Analysis-Agricultural Runoff," Area Planning Board of Palm Beach County, #304.
- 1.61 "A Method for Assessing Rural Nonpoint Sources and it's Application in Control and Management," Ohio-Kentucky-Indiana Regional Council of Governments, September 1975, 66 pages. Topics include: estimates of the quantity and quality of rural runoff, computations of runoff, surface erosion, sediment yield, nutrient and organic matter loadings as well as sediment nutrient and organic matter concentrations.
- 1.62 "Methods and Practices for Controlling Water Pollution from Agricultural Nonpoint Sources," Rappahannock Area Development Commission, Environmental Protection Agency, Washington DC.
- 1.63 "Modelling in Coastal Sussex County for Nonpoint Source Pollution," Coastal Sussex Water Quality Program. Topics include using the ARM model for simulating agricultural and urban land.
- 1.64 "Nebraska Interim Plan for Agricultural Nonpoint Pollution Control," Nebraska Natural Resources Commission, September 1978.
- 1.65 "Nonpoint Sources of Pollution-Non-Metro Area (working paper)," Maricopa Association of Governments, Boyle Engineering, October 1977. This report contains an inventory and review of existing agricultural practices in the non-metro portion of Maricopa County. Agricultural practices are identified and described. A discussion is presented in this report identifying and describing agricultural practices related to: location, irrigation canal delivery systems, the location and number of acres in cropland, practices in the use and chemicals, and groundwater and surface waters in agricultural areas.
- 1.66 "Nonpoint Source Inventory," East Central Michigan Planning and Development Region, June 1977, 588 pages. Topics include agricultural sources.
- 1.67 "Non-Metro Current Agricultural Practices - Inventory and Review (working paper)," Maricopa Association of Governments, Boyle Engineering Corporation, November 1977. Agricultural practices in the non-metro portion of Maricopa County are identified and described, as they relate to location, irrigation canal delivery systems, location and number of acres in cropland, practices in the use and application of fertilizers and chemicals, and groundwater and surface water in agricultural areas.
- 1.68 "Volume V-a and b-Nonpoint Source control," Southwestern Illinois Planning Commission. Documents nonpoint source research and analysis activities during initial planning program which support plan recommendations. (V-a Agricultural Runoff, V-b Urban stormwater runoff, on-site sewage disposal, mineral extraction, construction erosion).
- 1.69 "Nonpoint Source Bullentin, Agriculture and Rangeland Overview Report," Pima Association of Government, Tasks 5321 and 5327, Lyman Amburgy and D. Helms, Univeristy of Arizona, Water Resources Research Center, December 1977.

- 1.70 "Nonpoint Source Management - A Manual of Reference Management Practices for Agricultural Activities," Florida Department of Environmental Regulation, Bureau of Water Analysis Nonpoint Source Management Section, Florida Department of Environmental Regulation.
- 1.71 "An Overview of Agricultural and Rural Nonpoint Water Pollution in the Southeastern United States," Rappahannock Area Development Commission, May 1-2, 1975.
- 1.72 "Pesticide Losses from Agriculture Land," Delaware Valley Regional Planning Council, Chester Betz, Engineers, May 1977.
- 1.73 "Pesticide Use Survey," Illinois Environmental Protection Agency, July 1977.
- 1.74 "Pollution Sources: Agriculture Appendix B-2," Greater Egypt Regional Planning and Development Commission, November 1978, 115 pages.
- 1.75 "Preliminary Identification of Literature, Models, and Data for Evaluating Rural Nonpoint Nutrient, Sediment and Pathogen Sources," July 1977, 224 pages. A preliminary review of literature related to agricultural sources and transport of sediment, nutrients and pathogens completed by the University of Minnesota Agricultural Engineering Department and the Agricultural Research Service. United States Department of Agriculture. Mechanisms and data needs necessary to evaluate rural nutrient, sediment and pathogen stream and lake loadings are identified. Previously completed studies on loadings occurring in rural areas are identified and analyzed.
- 1.76 "Preventive and Corrective Measures for Controlling Agriculture Pollution," Northeastern Illinois Planning Commission, September 1977.
- 1.77 "Preliminary Assessment of Water Quality and Rural Nonpoint Source Pollution in Bear Creek Basin: Jackson County, Oregon, April 1977," Rogue Valley Council of Governments, April 1977, 180 pages.
- 1.78 "Problem Assessment Report," Illinois Environmental Protection Agency, May 1977. Contains the findings of the subcommittees of the Agricultural Task Force.
- 1.79 "Ranking of Agricultural Water Quality Problems," Ohio-Kentucky-Indiana Regional Council of Governments, 1979.
- 1.80 "Review of Effects of Water Availability on Agriculture Output," Ventura Regional County Sanitation District.
- 1.81 "Runoff from Agricultural Operations," Region I (New England), April 24, 1976.
- 1.82 "Rural Wastewater Management in New Mexico Environmental Improvement Agency, Stephen R. Flanc and Associates, Inc., Lee Wilson and Associates, Sutien, Thayer and Brown, APC, Mimbres and Associates, Inc., January 1978, 300 pages.
- 1.83 "Rural Nonpoint Runoff Problems/Analysis," Erie and Niagara Counties Regional Planning Board, December 1977, 174 pages.
- 1.84 "Rural Sewage," Greater Egypt Regional Planning and Development Commission, April 1978, 36 pages.

- 1.85 "Rural Nonpoint Runoff Problems/ Analysis," Erie and Niagara Counties Regional Planning Board, January 1979, 176 pages.
- 1.86 "Rural and Natural Land Use Loadings," East Central Florida Regional Planning Council.
- 1.87 "Sampling Results Agricultural Site," Alabama Regional Planning Council, October 1977.
- 1.88 "The Selection and Implementation of Best Management Practices for Agricultural Pollution Abatement," Tri-County Regional Planning Commission, February 1977.
- 1.89 "South Dakota Department of Agriculture, Division of Conservation," Chapter 5, South Dakota Department of Environmental Protection.
- 1.90 "South Dakota Agricultural Statistics, Crop and Live Stock Reporting Service, 1975," 6 District Council of Governments.
- 1.91 "A State Water Quality Plan for Controlling Agricultural Pollution," Vermont Department of Environmental Water Resources, Final 208 Plan for Controlling Agricultural Nonpoint Source Pollution in Vermont, 1978, 22 pages. The plan designates the most critical watersheds, identifies conservation practices which should be cost shared to obtain water quality objectives, and designates a management agency to administer the program.
- 1.92 "State of the Art of Water Pollution Control," Volume 4: Rural Stormwater Runoff, Southeast Wisconsin Regional Planning Council, December 1976, 50 pages.
- 1.93 "Stream Classification and Agricultural Facilities Planning for the City of Pueblo," Pueblo Regional Planning Commission, October 1976.
- 1.94 "Summary Report Spray Irrigation Seminar," Region I (New England), January 12, 1977.
- 1.95 "Summary of Agricultural Task Force Water Quality Plan Recommendations," Illinois Environmental Protection Agency, March 1978.
- 1.96 "Summary of 1976 Agricultural Inventory," Northeastern Illinois Planning Commission, June 1977.
- 1.97 "Summary of the Agriculture Task Force Problem Assessment Report," Illinois Environmental Protection Agency, May 1977. Contains summary prepared by Agency.
- 1.98 "A Survey of Farm Practices in the Winooski River Valley, 1978, Vermont Department of Environmental Water Resources, this report documents the extent of agricultural land management practices in the Winooski River Valley. Recommended practices and estimated costs are given, as well as programs and institutions available to assist with nonpoint source pollution. 29 pages.
- 1.99 "Technical Appendix: Aroostook-Prestile Areawide Water Quality Plan," Northern Maine Regional Planning Commission, July 1977, 98 pages. Topics include: The historical trends of land use: soil erosion: cropland erosion and its effect on fisheries: pesticides: agricultural chemicals: and timber 13 harvesting best management practices.

- 1.100 "Toward Clean Water: Alternatives for Action, Volume 1, Draft Environmental Impact Assessment, 1977. Chapter 9: Local Environmental Management Programs," Old Colony Planning Council, Points out the alternatives to lakes management wetlands and flood-plain protection, earth removal preservation of agricultural land, natural areas protection, and pesticide programs (non-agriculturally related).
- 1.101 "Urban and Agricultural NPS Target Abatement Levels #205," Area Planning Board of Palm Beach County.
- 1.102 "Urban and Agricultural Non-point Waste Loads to the Truckee River," Washoe Council of Governments, December 1977.
- 1.103 "Virginia Agricultural Statistics, Bulletin No. 40," Rappahannock Area Development Commission, July 1975.
- 1.104 "Water Quality Impacts of Irrigated Agriculture-Larimer and Weld Counties, Colorado," Larimer-Weld Regional Council of Governments, April 1977, \$15.00.
- 1.105 "Water Quality - Agriculture," Arkansas Department of Pollution Control and Ecology.
- 1.106 "Water Quality Management Plan for Agriculture," North Carolina Department of Natural Resources and Community Development.
- 1.107 "Water Quality Effects Associated with Irrigation in Kansas," Kansas Department of Health and Environment.
- 1.108 "Water Quality Management Planning R.V.C.O.G., Water Quality and Rural Nonpoint Sources of Pollution a Preliminary Assessment 1977," Rogue Valley Council of Governments.
- 1.109 "Water Quality Impacts of Irrigated Agriculture (Executive Summary)," Larimer-Weld Regional Council of Governments, April 1977, 65 pages, \$6.00.
- 1.110 "WQ and Rural Nonpoint Source Pollution," Rogue Valley Council of Governments, July 1977, 180 pages.
- 1.111 "Test Watershed Monitoring and Sampling Program," Fox Valley Water Quality Planning Agency, February 1978, 300 pages. Topics include: Study of two rural nonfarm, two agricultural, and five urban test watersheds.
- 1.112 "208 Update for Agriculture," Illinois Environmental Protection Agency.
- 1.113 "Supplement to Agriculture, Package 1 Management Practices," Minnesota Pollution Control Agency, August 1979.

II. ALTERNATIVES

- | | |
|---|---|
| <p>2.1 "Acceptability/Adaptability Analysis Summary for Management Alternatives," Area Planning Board Palm Beach County, No. 120.</p> <p>2.2 "Alternatives to Sewers," Region I (New England), December 3, 1976.</p> <p>2.3 "Alternative Treatment Methods, Land of - Sky RC," Land-of-Sky Regional Council, October 1976, 36 pages.</p> <p>2.4 "Alternative Treatment Methods," Land-of- Sky Regional Council, October 1976, 36 pages.</p> <p>2.5 "Alternatives Land Use Comparison and Analysis #503," Area Planning Board of Palm Beach County.</p> <p>2.6 "Alternatives to Ocean Dumping Annual Report," State New Jersey Department of Environmental Protection, October 1978, Chapter 5.</p> <p>2.7 "Alternative Areawide Plans," Arkansas-Texas Council of Governments, March 1978, 40 pages.</p> <p>2.8 "Alternative Systems Configuration," Arkansas Council Governments, August 1977, 18 pages.</p> <p>2.9 "Alternative Growth Management Techniques," New Castle County Areawide Waste Treatment Management Agency, May 1975.</p> <p>2.10 "Pollution Control Options," Arkansas-Texas Council of Governments, August 1977, 284 pages.</p> <p>2.11 "208 Water Quality Management Report on Alternatives for Burlington, Camden, and Gloucester Counties, New Jersey," Delaware Valley Regional Planning Commission, November 1977, 130 pages.</p> | <p>2.12 "208 Water Quality Management report on alternatives for Mercer County, New Jersey," Delaware Valley Regional Planning Council, 1977, 100 pages.</p> <p>2.13 "Alternative Control Strategies Killeen-Temple 208 Program," Central Texas Council of Governments, May 1978, 496 pages.</p> <p>2.14 "Alternative Management Plans," Weber River Water Quality Planning Council.</p> <p>2.15 "Alternative Futures for the Delaware Valley, Year 2000 Report No. 4," Delaware Valley Regional Planning Commission, September 1976.</p> <p>2.16 "Alternative Environmental Futures Process WP 10.02-1," Delaware Valley Regional Planning Council, September 1976.</p> <p>2.17 "Alternative Futures for the Delaware Valley," Delaware Valley Regional Planning Commission, Delaware Valley RPC, November 1976.</p> <p>2.18 "The Alternative Environmental Futures Process in Southeastern Pennsylvania," Delaware Valley Regional Planning Commission, November 1976.</p> <p>2.19 "Alternative Clean Water Plan," West Michigan Regional Planning Commission, Vol. I, Muskegon River Basin, Vol. II, Northern Lower Michigan River Basins Vol. III, Kalamazoo River Basin, Vol. IV, Grand River Basin, Appendix A, Nonpoint Control Measures, Appendix B, Mgmt. |---|---|

- 2.20 "E-1: Alternative Wastewater Management Evaluation Criteria," Indian Nations Council of Governments, EPA Plan Elements 8,9,16, January 1978, Criteria developed by NHPQ to quantify and measure effects are presented with an explanation of how each factor will be used to assess technical alternatives.
- 2.21 "Alternate Management Plans," Weber River Water Quality Planning Council.
- 2.22 "Alternative Environmental Futures," Delaware Valley Regional Planning Commission, Chester Betz Engineers, July 8, 1975.
- 2.23 "T-9: Alternative Approaches for the Protection of Water Quality in Bird Creek and the Verdigris River," EPA Plan Elements 8 & 9, February 1978, Indian Nations Council of Governments, this paper identifies some opportunities for solving the water quality problem in Bird Creek. It identifies the fact that there is some doubt as to the ability of the Verdigris River below the Bird Creek confluence to maintain a minimum dissolved oxygen level even with advanced treatment upstream on Bird Creek. Alternatives are described such as reuse of water from the northside plant at the proposed Black Fox Nuclear Power Plant and the conveyance and treatment of northside wastewater at the Haikey Creek Plant with discharge to the Arkansas River. The paper merely identifies opportunities and summarizes the costs.
- 2.24 "Alternative Management System," Houston-Galveston Area Council, November 1977.
- 2.25 "Alternative Technical Subplans and Map Supplement," Houston-Galveston Area Council, December 1977.
- 2.26 "Alternative Procedures and Methods of Controlling Nonpoint Source Pollution," Association of Central Oklahoma Governments, September 7, 1977.
- 2.27 "Alternative Management Program," Association of Central Oklahoma Governments, August 8, 1977.
- 2.28 "Alternative Regional Water Quality Management Systems for the Chattanooga "208" Region," Chattanooga Area Regional Council of Governments, February 1977, 65 pages.
- 2.29 "Alternative Controls for Water Quality Problems at Selected Solid Waste Disposal Sites," Chattanooga Area Regional Council of Governments, April 1977, 106 pages.
- 2.30 "Alternative Growth Management Techniques," New Castle County Areawide Waste Treatment Mgmt. Agency, May 1975.
- 2.31 "M-2: Alternative Water Quality Management Arrangement," Erling Helland Assoc., EPA Plan Element 15, January 1978, Indian Nations Council of Governments, this report presents a discussion of options, examples of institutional arrangements in other areas and presents for discussion three alternative institutional arrangements for the INCOG 208 Planning Area. Addendum No. 1, part of the report adds two alternatives for a total of five to be evaluated.
- 2.32 "Alternatives for Intermunicipal Agreements Regarding Wastewater Treatment (Westboro and Shrewsbury)," Central Mass Regional Planning Commission, April 1977.

- 2.33 "Alternative Areawide and Nonpoint Source Plans Subsequent to Preliminary Screening," South Alabama Regional Planning Commission, October 1977.
- 2.34 "Alternatives for Small Wastewater Treatment Systems - Cost/Effectiveness Analysis," EPA Technology Transfer Seminar Publication.
- 2.35 "Alternatives for Small Wastewater Treatment Systems - Pressure Sewers/Vacuum Sewers," EPA Technology Transfer Seminar Publication.
- 2.36 "Alternatives for Small Wastewater Treatment Systems - On-site Disposal/Septage Treatment and Disposal," EPA Technology Transfer Seminar Publication.
- 2.37 "Alternative Growth Futures," Cape Code Planning & Economic Development Commission, 1976.
- 2.38 "Alternative Structural and Nonstructural Tactics," East Central Michigan Planning & Development Region, September 1977, 471 pages.
- 2.39 "Alternative Structural and Nonstructural Plans and their Consequences," East Central Michigan Planning and Development Region, March 1978, 492 pages.
- 2.40 "Alternative Control Strategies for Point and Nonpoint Dischargers," Coastal Bend Council of Governments, October 1977, Chapters I - VIII.
- 2.41 "An Analysis of Anticipated Plans and Alternative Waste Handling Procedures," Southeastern Regional Planning and Economic Development Commission, March 1976, 36 pages.
- 2.42 "City of Phoenix Phase II A - Metropolitan Phoenix - 1978 Development and Evaluation Large Array Alternatives," Maricopa Association of Governments, Greeley and Hansen, March 1979.
- 2.43 "City of Phoenix 91st Ave. Wastewater Treatment Plant - Plant Expansion Facility Plan Interim Report No. 1 - Cross Array Liquid Stream Alternatives," Maricopa Assoc. of Governments, Greeley and Hansen/John Carollo Engineers June 1979.
- 2.44 "City of Phoenix 91st Ave. Wastewater Treatment Plant - Plant Expansion Facility Plan Interim Report No. 1 Cross Array Liquid Stream Alternatives Detailed Cost Supplement," Maricopa Assoc. of Governments, Greeley and Hansen/John Carollo Engineers, June 1979.
- 2.45 "Analysis of Initial Areawide Alternatives," First Tennessee-Virginia Development District, June 1977, 41 pages, this report examined the impact of each alternative on existing structure, the tax/cost impact of each alternative, and the basic steps required to implement each alternative.
- 2.46 "Appendix B: Analysis of Management Alternatives Phase II and III Report," Michigan Area Council of Governments, 1978.

- 2.47 "T-18: Analysis of the Impact of Population and Infiltration/Inflow on Cost-Effective Waste Water Management Alternatives," EPA Plan Elements 8 and 9, Indian Nations Council of Governments, March 1978. A focal point of 208 planning is the developing of cost-effective alternatives for municipal wastewater management. The costs associated with these alternatives are a function of wastewater flows and loadings which are influenced by the projected population to be served and the quantity of wastewater associated with infiltration/inflow (I/I). Three levels of population growth were developed to determine the sensitivity of treatment costs to various service area populations. I/I flows were derived for the major service areas and the costs of various I/I management techniques were estimated to determine the most cost-effective strategies. The purpose of this working paper is to present the results of the analysis among population levels and I/I management strategies in terms of cost-effectiveness
- 2.48 "Analysis of Alternative Management Plans for Publicly-Owned Treatment Works," Alabama Regional Planning Commission, December 1977.
- 2.49 "Analysis of Alternative Management plans (Areawide and Nonpoint Sources)," South Alabama Regional Planning Commission, November 1977.
- 2.50 "Analysis of Alternatives for Disposal of Residual Wastes," Coastal Sussex Water Quality Program, April 1977.
- 2.51 "An Approach for Evaluating Management System Alternatives," Atlanta Regional Commission, April 1978.
- 2.52 "Areawide Infiltration/Inflow Analysis-Appendix 3," Maricopa Association of Governments. John Carollo Engineers. March 1978. This report describes the areawide infiltration/inflow (I/I) analysis conducted to identify the existence of excessive I/I in each sewer system tributary to each of eight wastewater treatment plants located in the Phoenix Metropolitan Area: Avondale, Chandler, Gilbert, Litchfield Park, Luke Air Force Base, Mesa, Phoenix, and Tolleson. It was determined that the total annual I/I rate in each sewer system was not excessive.

- 2.80 "Development of Alternative Management, Systems and Evaluation Criteria," South Carolina Appalachian Council of Governments, February 1977.
- 2.81 "Develop and Screen Alternative Areawide Strategies," South/Eastern Council of Governments, October 1977, 81 pages, \$3.00.
- 2.82 "Discussion of Alternative Development Evaluation Approach," Delaware Valley Regional Planning Commission, Chester Betz, Engineers, March 1977.
- 2.83 "Eastside Sub-regional Alternatives," Maricopa Association of Governments, Ferguson, Morris, and Simpson/Stevens Thompson and Runyan for the Corps of Engineers, Phoenix Urban Study, April 1978. This report documents the steps involved in the development of alternative plans for the eastside, following is a summary of the process. The small array was preliminary in nature and in only enough detail to generate general costs and benefits. More detailed analysis required look at the individual elements or components of the alternatives. This "Sub-regional screening" involved:
1. Evaluation and selection of conventional treatment sites alternatives.
 2. Evaluation and selection of land treatment site alternatives.
 3. Comparison of land treatment at the selected land sites against conventional treatment at the selected conventional sites.
 4. Evaluation of major reuse options.
 5. Evaluation of sludge management alternatives.
- The various elements of the sub-regional screening are described in Chapters III, IV and V. Next, the existing collection system was analyzed to determine existing

system capacities and flow routing schemes to optimize use of the existing system and identify system deficiencies. Based on this analysis and discussions with community staffs, alternative collection systems layouts were developed for the eastside.

Finally, the alternatives were built up again. Complete eastside plans, including collection, treatment, reuse and sludge management were developed by combining the preferred elements identified in the sub-regional screening and the sub-regional collection systems. These plans were preliminarily evaluated by the Corps and its consultants, but the selection of the preferred plans will be made by the advisory groups and communities. The sub-regional plans are described in Chapter VII.

2.84 "Eastside Wastewater Management Alternatives; Which Do You Prefer?," Maricopa Association of Governments 208 Program, May 1978. This brochure describes the wastewater alternatives for the eastside in simple language and includes recommendations for preferred eastside alternatives from the 208 Advisory Groups.

2.85 "Environmental Evaluation of Alternative Strategies," South Alabama Regional Planning Council, February 1978.

2.86 "Environmental Evaluation of Residual Waste Management Alternatives on an Areawide Level of Analysis, Draft Memorandum No. 5," Maricopa Association of Governments, Arthur Beard Engineers/Camp, Dresser, and McKee for Maricopa Association of Governments, the draft report provides an environmental assessment of sludge management alternatives for the processing and disposal of

wastewater sludge solids from the 91st Avenue and the 23rd Avenue Wastewater treatment facilities. The text assesses site limitations specific to the 91st Avenue and the 23rd Avenue treatment plants and to the alternative landfill sites under consideration. In addition, the text provides a discussion of appropriate mitigation measures.

2.87 "Environmental Consequences and Alternatives of Residual Disposal Systems-Overview Report," Pima Association of Government, Task 5323, Volume 1, Text Volume II, Appendices, October 1977.

2.88 "Element 29: Report-Environmental Assessment," East-West Gateway coordinating Council, April 1978. Will describe the future environment without the proposed project environment factors involved in each alternatives.

2.89 "Environmental Impact Matrices." EPA Plan Element 16, March 1978, Indian Nations Council of Governments, eight packages of 24 inch by 36 inch sheets are provided for eight different subbasins. The matrices display in a visual fashion the environmental impacts of the alternatives presented in T-11. A limited number of copies are available.

2.90 "Task 501 - Environmental Assessment," Southeast Arkansas Regional Planning Commission, to assess the environmental impacts of the various alternative plans.

- 2.91 "Element 29: Report - Environmental Assessment," West-West Gateway Coordinating Committee, April 1978. Will describe the future environment without the proposed project and environmental factors involved in each alternative. Also, the environmental effects of the proposed plan and the steps necessary to minimize adverse effects will be presented.
- 2.92 "E-3: Environmental Impact Assessment of Alternative Wastewater Management Plans," EPA Plan Element 16, Indian Nations Council of Governments, March 1978. This paper describes the development of the environmental impact matrices described above. Descriptive phrases are used in place of numerical rankings to articulate the nature of environmental impacts in the matrices. The paper contains a brief explanation of the descriptive phrases used to evaluate the alternatives.
- 2.93 "Environmental Evaluation of Interceptor Patterns," (Draft), Memorandum No. 6, Maricopa Association of Governments, Arthur Beard Engineers/Camp, Dresser, and McKee, May 1978. The purpose of this memorandum is to describe the environmental impacts resulting from interceptor alignments associated with Westside Alternative Wastewater Management schemes as identified by the Phoenix 201 Facilities Consultant. Data are presented in both narrative and tabular form. Where necessary, maps and figures accompany the narrative.
- 2.94 "Environmental Evaluation of Westside Alternatives, Draft Memorandum No. 4," 208 Phoenix, Arthur Beard Engineers/Camp, Dresser, and McKee, March 1978. The objective of this report is to document the environmental impacts associated with alternative siting concepts the wastewater treatment facilities that have been identified of defined by the Phoenix 201 Facilities Consultant. The impacts discussed herein deal specifically with sites identified for the treatment of wastewater prior to disposal or reuse and with more areawide considerations regarding such disposal or reuse. Alternative interceptor routes within the various "action" alternatives will be described and assessed in Memorandum No. 6.

- 2.131 "Metropolitan Phoenix Facility Plan - 1978 - Evaluation of Alternate Plans, First Draft," Maricopa Association of Governments.
- 2.132 "Moose Hill Reservoir, Leicester, Mass.: The Total Cost of a Proposed Surface Water Supply-- Alternative Sources of Water and Water Demand Projections, September 1977.
- 2.133 "Task 401 - Municipal Treatment Alternatives," Southeast Arkansas Regional Planning Commission, 201 facility plans for White Hall and Pine Bluff Arkansas Identification of possible alternatives for other municipalities.
- 2.134 "Municipal Wastewater: Potential Reuse Options," Maricopa Association of Governments, Boyle Engineering Corporation for the Corps of Engineers, Phoenix Urban Study, June 1977, this report examines various means of disposing and using wastewater. The options include: energy production, turf irrigation, recreation, agricultural irrigation, industrial water cooling, industrial processing water, fish and wildlife enhancement, ground water recharge, domestic re-use, gas production.
- 2.135 "Non-Structural solutions of Wastewater Disposal A.N.C.O.," Old Colony Planning Council, 1976. Defines the subsurface disposal problems, methods of treatment available, ultimate disposal alternatives, efficiencies of the systems, and capital and operating cost.
- 2.136 "Overview of Technical Alternatives," Coastal Sussex Water Quality Program, September 1977.
- 2.137 "Oxnard Plain Alternative Water Supply Study - Final Report," Ventura Regional County Sanitation District.
- 2.138 "Part B - Approach to Non-structural Alternatives," Southwestern Pennsylvania Regional Planning Commission, Technical Memoranda.
- 2.139 "Element 7 - Phase II Work Plan," East West Gateway Coordinating Council, October 1976. Specifies the work to be undertaken during the second phase of the 208 work plan. Phase II consist of data collection and the development of the first round of alternatives.
- 2.140 "Element 17 - Phase II Work Plan," East-West Gateway Coordinating Council, April 1977. Describes the revised work order of what elements are to be done in phase III where the final alternatives will be developed.

- 2.141 "Element 18 - Phase II Alternative Selection Report," East-West Gateway Coordinating Committee, April 1977. Serves as a status report on the program to date; it enables review and comment by agencies and jurisdictions participating in the planning process. It is a summary of all work done by project staff and consultants, including problem identification, development of alternative solutions, and utilizing comments received from workshops. The report presents recommendations for further in-depth study in Phase III of the 208 planning process in the areas of point source, nonpoint source and management/institutional.
- 2.142 "Element 23 - Phase III Final Alternative Analysis Report," East-West Gateway Coordinating Council, October 1977. This is a summary of the stream based on computer modeling of point sources and nonpoint sources.
- 2.143 "Element 14 - Phase II Interim Report and Recommendation," East-West Gateway Coordinating Committee, February 1977. A comprehensive summary of all major alternatives and recommendations developed under Phase II of the St. Louis area 208 areawide wastewater management study. Includes abridged except from Elements 8, 9, 10 and 11, 12, 13 reports. appendices to this study contains the final population and land use projections in 5 year increments through the year 2000, to be used with the population and land use sections. Tabular outputs for wastewater flow projections, projected raw wastewater loads, treatment plant stream loadings for each structure alternative and a detailed presentation of preliminary point source structural control cost are given to aid in dealing with the report's municipal and industrial point source discussion.
- 2.144 "Phase III Interim Report - Area-wide Alternative Plans," Northwestern Indiana Regional Planning Commission.
- 2.145 "Element 21 - Phase III Final Alternative Analysis Report: Non-point Source Report," West Gateway Coordinating Committee. 4 Volumes. October 1977. Based on the contents of task Memo 20A, 21A, Water Quality Evaluation Technical Supplement, This report details nonpoint source controls for three levels of water quality in the St. Louis area. Design criteria and costs are presented for each control measure.
- 2.146 "Physical Alternatives for Non-Point Sources," Chariton Valley Regional Services Agency.
- 2.147 "Point and Nonpoint Source Alternatives, Executive Summary," South Alabama Regional Planning Commission, July 1977.
- 2.148 "Possibilities for Water Conservation in the Atlanta Region," Atlanta Regional Commission, March 1976. Detailed water conservation strategies and how they could be applied in the Atlanta Region.
- 2.149 "Potential Alternatives for Water Quality Management Area 4, Greenville Creek/Middle still water River, Darke/Miami Counties." Miami Valley Regional Planning Commission.

- 2.150 "Potential Alternatives for Water Quality Management Area 3, Upper Still Water River," Miami Valley Regional Planning Commission.
- 2.151 "Potential Alternatives for Water Quality Management Areas 1-2-28 Mississinawa River/Wabash River/Mile Creek, Darke County," Miami Valley Regional Planning Commission.
- 2.152 "Potential Alternatives for Water Quality Management Areas 6-7-8-9, Upper Twin Creek-Serun Mile Creek-four Mile Creek-Whitewater Lower Twin Creek Areas," Miami Valley Regional Planning Commission.
- 2.153 "Potential Alternatives for Water Quality Management Areas 25-26-27-29," Miami Valley Regional Planning Commission.
- 2.154 "Potential Alternatives for Water Quality Management Areas 5-10-11-12-13-14-15-16-24," Miami Valley Regional Planning Commission.
- 2.155 "Potential Reuse Options for Wastewater Effluent and Residual Solids," Maricopa Association of Governments, Boyle Engineering Corporation for the Corps of Engineers, Phoenix Urban Study, June 1977. This final report presents the various practical reuse options and suggests considerations as to their individual feasibility for application in the Phoenix Urban area. Each reuse options is also individually discussed as it related to quantity and quality and their resultant changes. In addition there are also discussions of Arizona water rights, effluent ownership, and existing and future reuse agreements.
- 2.156 "Potential Reuse Options for Municipal Wastewater Effluent and Residual Solids Draft," Phoenix Urban Study, November 1976. This report presents various reuse option and examines their feasibility for application in the Phoenix urban area. Reuse options are individually discussed as they relate to quantity and quality and their resultant changes. Also, there are discussions of effluent ownership, Arizona water rights, and existing and future reuse agreements.
- 2.157 "Preliminary Wastewater Treatment and Reuse Alternatives, Summary Report," Phoenix Urban Study, Ferguson, Morris and Simpson/Stevens, Thompson, and Runyan for the Corps of Engineers, April 1977, this report describes and evaluates 20 collection and treatment alternatives and possible reuse options for the treatment effluent. Alternative were developed and reviewed relative to:
1. Native drainage basins in the area.
 2. Projected population growth.
 3. Existing community service area.
 4. Extent of the resisting sewerage systems through 1980, and
 5. Potential re-use area.

- 2.201 "Summary of Environmental Evaluation of Residual Waste Management Alternatives, Memorandum No. 10," Maricopa Association of Governments, Arthur Beard Engineers/Camp, Dresser, and McKee, July 1978.
- 2.202 "Summary of Alternatives-Merrinack River Crossing Corridor Planning Study-Northern Middlesex Area Commission," November 1978.

- 2.203 "Summary of Comments and Applications for Alternative TM Management Systems, #118," Area Planning Board of Palm Beach County.
- 2.204 "T-6: A Summary of Preliminary Wastewater Management Alternatives," EPA Plan Elements 8 & 9, Indian Nations Council of Governments, January 1978. This paper contains a summary of the alternative wastewater management strategies to be evaluated as a part of the INCOG 208 Planning effort. Strategies are for the technical solutions.
- 2.205 "Summary of Environmental Evaluation of Residual Waste Management Alternatives, Draft Memorandum No. 10," Maricopa Association of Governments, Arthur Beard Engineers/Camp, Dresser, and McKee, May 1978. This report summarizes Environmental Evaluation of Residual Waste Management Alternatives, Draft Memorandum No. 5.
- 2.206 "Tampa Bay Water Quality Management Alternatives Analysis," Tampa Bay Regional Planning Commission.
- 2.207 "Technical Alternatives for On-Site Waste Treatment and Disposal," Toledo Metropolitan Area Council of Governments, September 1976.
- 2.208 "Technical Areawide Alternatives, #219," Area Planning Board of Palm Beach County.
- 2.209 "Technical Subplans," Lower Rio Grande Valley Regional Development Commission. Topics include instream Water Quality under alternative discharge levels, alternative solutions, costs.
- 2.210 "Teton County Proposed Comprehensive Plan, Implementation Alternatives, and Water Quality Management Plan," Teton County 208 Planning Agency, January 1977 and March 1977.
- 2.211 "Teton County Growth and Development Alternatives," Teton County 208 Planning Agency, May 1976. A background report for the Teton County Comprehensive Plan and Implementation Program and the Teton County Water Quality Management Program, Livingston and Associates.
- 2.212 "Toward Clean Water: Alternatives for Action, Volume 1, Draft Environmental Impact Assessment, Chapter 6: Urban Runoff/Construction and Development," Old Colony Planning Council, 1977. Discuss alternatives to controlling urban runoff in Brockton, controlling urban runoff in other urbanized areas, and adopting preventive measures for future development.
- 2.213 "Toward Clean Water: Alternatives for Action, Volume 1, Draft Environmental Impact Assessment, Chapter 4: Municipal Wastewater Disposal," Old Colony Planning Council, 1977. Identifies treatment works alternatives capable of solving existing wastewater quality problems and capable of meeting anticipated municipal and industrial waste treatment needs of the area over a twenty-year period.

- 2.214 "Toward Clean Water: Alternatives for Action, Volume 1, Draft Environmental Impact Assessment, Chapter 8: Residuals Management, Old Colony Planning Council, 1977. Identifies alternatives to control the disposition of all residual waste generated and the disposal of pollutants on land or in subsurface excavations in OCPC 208 area which could affect water quality and are intended to provide for eventual compliance with the Resource Conservation and Recovery Act.
- 2.215 "Transcripts of March 1, 1978, 208 Lobbying Forum," EPA Plan Element 17, Indian Nations Council of Governments, March 1978. Contains transcripts of presentations made by citizens of the INCOG area during the evening of March 1, 1978 and containing their comments, questions, and/or recommendations pertaining to the 208 alternatives presented to date.
- 2.216 "Transportation Corridors/Water Quality Implementation Alternatives," Alaska Department of Environmental Conservation, July 1978, 15 pages and appendices. Draft for public review of partial plan to reduce sedimentation from transportation.
- 2.217 "Uintah-South Weber 201 Facilities Planning Area, Municipal Alternatives," Weber River Water Quality Planning Council.
- 2.218 "Upper Ogden Valley 201 Facilities Planning Area, Municipal Alternatives," Weber River Water Quality Planning Council.
- 2.219 "Verdigris River Evaluation: Alternative Wastewater Management Strategies for the Lower Bird Creek and Verdigris River Basins," Volume I, Indian Nations Council of Governments, Gates Engineering and Associates, May 1979.
- 2.220 "Verdigris River Evaluation: Alternative Wastewater Management Strategies for the Lower Bird Creek and Verdigris River Basins," Volume II, Indian Nations Council of Governments, Gates Engineering and Associates, May 1979.
- 2.221 "Wastewater Treatment Alternatives, Conventional Treatment Progress Report," Maricopa Association of Governments, Ferguson, Morris, and Simpson/Stevens, Thompson, and Runyan, for the U.S. Army Corps of Engineers, Phoenix Urban Study, February 1977. This plan examines alternatives for collecting, conventionally treating (treatment plant), and reusing wastewater in the Study Area together with a strategy for implementing that plan. The steps used for developing alternatives are: 1. Define in detail the work to be done. 2. Define the evaluation criteria. 3. Inventory and assess existing management agencies, and develop alternative management systems. 4. Develop non-structural controls. 5. Develop an array conventional treatment alternatives. 6. Suggest a preferred areawide plan.

- 2.223 "Waste Treatment Alternatives," Rogue Valley Council of Governments, 1978.
- 2.224 "T-11: Wastewater Management Alternatives Costs and Water Quality," Indian Nations council of Governments, EPA Plan Elements 8 & 9, February 1978. The purpose of this working paper is to summarize the costs of the alternative wastewater technical strategies developed for the INCOG 208 Study Area. Costs of achieving four levels of water quality are displayed. Level one is defined by the achievement of dissolved oxygen concentrations greater than 5 and the maximum unionized ammonia nitrogen concentration less than .02 milligrams per liter. Level two is defined by a dissolved oxygen content greater than 5 milligrams per liter without regard to ammonia toxicity. Level three is the achievement of the dissolved oxygen content of at least 2 milligrams per liter in the stream. A fourth category is displayed in those cases where land application is used and there is no discharge. Costs are presented on a basis of cost per population equivalent per year. The costs include O & M costs and constructions costs. the costs include all costs including the federal share.

- 4.13 "Capitol Improvements Procedural Manual," Macon-Bibb County Planning and Zoning Commission, May, 1976.
- 4.14 "Cash Flows Analyses," (#127) Area Planning Board of Palm Beach County.

- 4.15 "Compilation of Financial, Institutional, Legal and Management Information," Delaware Valley Regional Planning Commission, March, 1977.
- 4.16 "T-22 Concepts for User Charge and Industrial Cost Recovery Systems," (EPA Plan Elements 13, 14, & 15), Indian Nations Council of Governments, April, 1978. This report presents EPA approved concepts for user charges and industrial cost recovery (ICR). The user charge and ICR systems were designed by Congress to achieve utility-like management of publicly-owned treatment works. That is, communities are to develop the capacity to finance their own treatment works expansion rather than forever depend on the Federal Government to meet their needs. The 1977 amendments, as well as the 1972 Act, were designed to meet the backlog of waste treatment needs and not the growth needs of communities. Funds are not provided for new growth and it is unlikely funds will be provided for this purpose in the future.
- 4.17 "Considerations in the Development of a Public Cost Evaluation Model," Pikes Peak Area Council of Governments, John Ryan, Co. and Earthe Associates, December, 1974.
- 4.18 "Identifying Constraints and Deficiencies in Existing Management and Fiscal Programs," Coastal Sussex Water Quality Program, August, 1977.
- 4.19 "Control Strategies, Costs and Impacts for Nonpoint Sources," Houston-Galveston Area Council, July, 1977.
- 4.20 "Cost and Financial Analysis/Strategy," Erie-Niagara Regional Planning Board, January, 1979, 207 pgs.
- 4.21 "Cost of Water Treatment by Land Applications," Rappahanock Area Development Commission, USEPA, Washington, D.C.
- 4.22 "Cost and Water Quality Impact Assessment of Year 2000 Sketch Plans," Delaware Valley Regional Planning Council, August, 1976.
- 4.23 "Costs and Benefits of Areawide Waste Treatment Management, Vols. I and II," US EPA, Region I.
- 4.24 "Cost and Effectiveness of Nonstructural Management Practices for Reduction of Pollution From Nonpoint Regional Planning Council, May, 1977.
- 4.25 "Cost and Financial Analysis/Strategy," Erie and Niagara Counties Regional Planning Board, February, 1978, 227 pgs.
- 4.26 "Effectiveness Evaluations of Point and Nonpoint Source Control Needs," East Central Florida Regional Planning Council.

- 4.27 "Costs for Applying Recommended Management Practices in Agricultural Land," Southeast Michigan Council of Governments, April, 1978, 55 pgs. This report contains cost estimates for implementation of agricultural best management practices developed by SEMCOG to control nonpoint sources of pollution in SE Michigan. The report describes BMPs in relation to water quality protection and quantifies, for each county in the SEMCOG region, the practices needed to protect water quality. Six types of agricultural nonpoint source pollution are briefly characterized for each county: sediment from surface erosion on cropland, sediment from wind erosion; nutrients from fertilizers; toxins from pesticides; nutrients and pathogens from animal wastes; and sediment from streambanks.
- 4.28 "T-3: Cost Functions For Wastewater Management Options," (EPA Plan Elements 8 & 9), Indian Nations Council of Governments, January, 1978. An important element in any 208 planning process is the ability to analyze the cost of a vast variety of alternatives. This document contains cost curves for the various components of wastewater systems. These costs will be the basis for calculating the cost impact sector of the alternatives evaluation.
- 4.29 "Costs Relationships for Solid Handling Systems, Working Paper 2," Pikes Peak Area Council of Governments, Nelson, Haley, Patterson, Quirk, Inc.
- 4.30 "Current Financial Analysis," Pikes Peak Area Council of Governments, Nelson, Haley, Patterson, and Quirk, Inc., May, 1975.
- 4.31 "Data File on Financial Practices and Capabilities #112," Area Planning Board of Palm Beach County.
- 4.32 "Detailed Discussion of Cost Comparisons Memorandum," Washington Council of Governments, March, 1978. A COG memorandum describing cost comparisons for the point source control strategies. This includes the assumptions and methods used.
- 4.33 "T-13: Documentation of Cost Estimating Procedures For Physical Wastewater Management Alternatives," (EPA Plan Elements 8 & 9), Indian Nations Council of Governments, March, 1978, 30,000 pgs. The costs presented in these working papers represent the total cost per capita for all components of wastewater management. This includes treatment plan construction, infiltration/inflow correction, inflow management, interceptor construction, pump station construction, and operations/maintenance of these systems.

- 4.34 "Energy Impacts of Wastewater Treatment in Metropolitan Washington," Washington Council of Governments, February, 1978. An identification of the energy costs of meeting water quality standards through wastewater treatment at the major municipal facilities, and the relative importance of wastewater treatment energy inputs in the region's total "energy balance."
- 4.35 "Estimated Costs of Treating Industrial Discharges," Association of Bay Area Governments, October, 1977, \$1.00. Municipal/industrial dischargers management plan-tech memo.

- 4.130 "Work Element 210 - Present and Potential Financial Resources," West Florida Regional Planning Commission, August, 1977.

- 4.131 "Working Paper III: Preliminary Draft - Fiscal Analysis Background," New Castle County Areawide Waste Treatment Management Planning Agency, February, 1975.
- 4.132 "Financial and Economic Analysis, Fiscal Recommendations," (Technical Report), Hawaii Department of Health, November, 1978, 54 pgs. Criteria, methods, issues, alternatives.
- 4.133 "Unit Costs of Selected Water Quality Control Components," (Technical Report), Hawaii Department of Health, April, 1978, 440 pgs. Topics include collection sewers, interceptor sewers and pump stations, cesspools, erosion control, solid waste management, and septic tanks.
- 4.134 "Economic and Financial Background Analysis," (Parts I - V), Hawaii Department of Health, May, 1978, 440 pgs.
- 4.135 "Municipal Sewerage and Household Waste Disposal Costs," Hawaii Department of Health, October, 1978, 32 pgs. Excess capacity costs, conversion of cesspools to sewer system.

V. CONSERVATION

- 5.1 "Water Conservation and Wastewater Reuse," TCCHD, EPA Plan Element 14, Indian Nations Council of Governments, Joelee Normand and Gary D. Woodruff, January 1978.
This report considers (1) physical flow limiting devices (2) successive use of wastewater in industry and municipalities (3) a variety of pricing policies and management techniques designed to eliminate unnecessary water usage.
- 5.2 "Opportunities for Water Conservation," Old Colony Planning Council, 1977. Discusses the types of water-savings fixtures in existence and the cost and local availability of the fixtures, examines the institutional and legal changes which might be necessary to encourage or to require water conservation, and reviews the opportunities for water conservation as an alternative to supplying constantly increasing amounts of water to meet constantly increasing levels of demand.
- 5.3 "Determination of priorities for Conservation Plans (highly erosive areas)," Southwestern Illinois, Metropolitan and Regional Planning Commission, August 1978, 21 pages.
- 5.4 "A Study of the Potential for Wastewater Reuse in the Cimarron Hills Area," El Paso County, Colorado, Pikes Peak Area Council of Governments, G. L. Williams and Partners, LTD. (PPACG), July 1976.
- 5.5 "Facility Plan for Wastewater Reuse in the Upper Monument Creek Area," El Paso County, Colorado (Draft), Pikes Peak Area Council of Governments, Nelson, Haley, Patterson and Quirk, Incorporated.
- 5.6 "Wastewater Reuse Potential, Working Paper 4," Pikes Peak Area Council of Governments, Nelson Haley, Patterson and Quirk, Incorporated.
- 5.7 "Water Conservation Conference Proceedings," Atlanta Regional Commission, November 1977. Transcripts of presentations at a conference, also the resolution and policies that are adopted by Atlanta Regional Commission, in November 1977.
- 5.8 "Conservation District and 208 Water Quality Management," U.S. Environmental Protection Agency, 6 District Council of Governments.
- 5.9 "Water Conservation Position Paper," Atlanta Regional Commission, November 1977, January 1978. Policies that have been adopted by the Atlanta Regional Commission Board.
- 5.10 "Water Conservation," Chester Petz, Engineers, Delaware Valley Regional Planning Commission, November 1975.
- 5.11 "Opportunities for Water Conservation," (New England), Region I, April 1977.
- 5.12 "Water Conservation, Reuse and Supply, San Francisco Bay Region," Association of Bay Area Governments, J.B. Gilbert and Associates, 252 pages, \$5.00.
- 5.13 "Water Conservation Strategies," Task 6350/6360 Draft, Army Corps of Engineers, Pima Associates of Governments, February 1978.
- 5.14 "Water Conservation and Reuse: Policy Framework for Los Angeles and Orange Counties Water Reuse Study," Volume 6, Southern California Association of Governments.

- 5.15 "Effects of Water Conservation Upon Wastewater Treatment," Municipal/Industrial Dischargers Management Plan Tech memo, Association of Bay Area Governments, November 1977, \$1.00.
- 5.16 "T-21: Recycle/Reuse Opportunities," C-E Tec/NHPQ, EPA Plan Elements 8 and 9, Indian Nations Council of Governments, April 1978. This report presents opportunities for wastewater reuse which include:
- . on-site recycling
 - . direct potable use
 - . dual distribution systems
 - . aquatic wildlife propagation
 - . recreational lakes/ponds
 - . irrigation of agricultural land.
- 5.17 "A description of the present system for managing water resource activities in Washoe County and the Truckee River Basin portion of Storey County," Washoe Council of Governments, May 1977.
- 5.18 "Natural Resources and Growth the limits and Opportunities," (New England) Region April 25, 1977.
- 5.19 "Existing Water Use and Quality," Southwestern Pennsylvania Regional Planning Commission.
- 5.20 "Water Use Information for Pima County Arizona," Task 6320, Draft, Army Corps of Engineers, Pima Association of Government, February 1978.
- 5.21 "The Availability and Use of Water in Georgia," Georgia Geological Survey, Bulletin No. 65, Macon-Bibb County Planning and Zoning Commission, 1956.
- 5.22 "Natural Resources of the Region," Southwest Florida Regional Planning Commission, (a) location and climate, (b) land resources, (c) water resources, (d) vegetation and wildlife, (e) wetlands.
- 5.23 "Water Resources of the ACOG Region," Association of Central Oklahoma Governments, February 22, 1977.
- 5.24 "Present and Future Water Resources Utilization," Weber River Water Quality Planning Council.
- 5.25 "Summary of Environmental and Historical Preservation Assessments," Denver Regional Council of Governments, 1977.
- 5.26 "Your Hip Pocket Guide to Resource Conservation," Flathead Drainage/208 Project Planning Organization, 5 pages.
- 5.27 "Sixth District 701 Housing and Natural Resources Plan," Sixth District Council of Governments, 1977.
- 5.28 "Appendix 6, Volume A - Water Resources," Hampton Roads Water Quality Agency.
- 5.29 "Appendix 6, Volume B - Water Resources," Hampton Roads Water Quality Agency.
- 5.30 "Water Resources Data for Georgia-1971," Department of Interior, Geological Survey, Macon-Bibb County Planning and Zoning Commission, 1972.
- 5.31 "Water Resources Data Availability," (New England), Region I, October 10, 1975.
- 5.32 "Plan for Development of the Land and Water Resources of the Southeast River Basins," Macon-Bibb County Planning and Zoning Commission, 1963.
- 5.33 "Assessment of the Availability Utilization, and Contamination of Water Resources in New Castle County, Delaware," New Castle County Area-wide Waste Treatment Management Agency, April 1977.

- 5.34 "Water Resources Development by the U.S. Army Corps of Engineers in Georgia," Macon-Bibb County Planning and Zoning Commission, January 1973.
- 5.35 "Water Resources Report," inventory Genesee-Lapeer-Shiawassee Planning and Development Commission, Genesee-Lapeer-Shiawassee Staff, March 1978.
- 5.36 "Background and Large Array of Water Resources," Task 6370, Draft, Army Corps of Engineers, Pima Association of Governments, September 1977.
- 5.37 "Ubiquitous Resources-Position Paper #2," New Castle County Areawide Waste Treatment Management Planning Agency, February 1976.
- 5.38 "Natural Resources and Growth: The Limits and Opportunities," Southern Rockingham Regional Planning District Commission, April 1977, 118 Pages.
- 5.39 "Site-Specific Natural Resources," New Castle County Areawide Waste Treatment Management Planning Agency, September 1975.
- 5.40 "Public Water Supplies in Georgia," Department of Natural Resources Interoffice memo, Macon-Bibb County Planning and Zoning Commission.
- 5.41 "The Hows of WOW (Watch Our Wastewater)," Marrcopa Association of Governments, November 1978. Topics include: Water supply.
- 5.42 "Water Availability in Kansas," (fact sheet), Kansas Department of Health and Environment.
- 5.43 "Public Water Supply in The Toledo Metropolitan Area Council of Governments, " TMACOG, March 1976.
- 5.44 "SR-5 Water Supply and Use, Status and Outlook in Salt Lake County," Salt Lake Council of Governments, July 1977 (reprint), 43 pages.
- 5.45 "Water Supply and Water Use," (New England), Region I, February 19, 1976.
- 5.46 "Impact of Conservative Parameters and Toxics," Indian Nations Council of Governments, Hydro-Science, Incorporated, July 1979.
- 5.47 "San Francisco Bay Shellfish: An Assessment of the Potential for Commercial and Recreational Harvesting," Water Quality Special Studies Reports, Association of Bay Area Governments, Jones and Stokes Associates, Incorporated, July 1977, \$5.00.
- 5.48 "A Survey of Prevention Measures and Contingency Planning for Oil and Hazardous Material Spills in the San Fransisco Bay Area," Association of Bay Area Governments, Gina Arthus, July 1977, \$5.00.

VI. CONSTRUCTION

- 6.1 "Best Management Practices for Construction and Urban Storm Water Nonpoint Sources," Central Midland Regional Planning Commission.
- 6.2 "Construction Nonpoint Sources of Pollution - Background Information and BMP Approach," Delaware Valley Regional Planning Commission, Chester Betz, Engineers, May 1977.
- 6.3 "Construction Nonpoint Pollution Plan," West Central Indian Economic Development District, Incorporated.
- 6.4 "Construction," Section E, Chapter 5, South Dakota Department of Environmental Protection.
- 6.5 "Construction Activities, Package III Program Options," Minnesota Pollution Control Agency, July 1979, 24 pages.
- 6.6 "Construction Site Runoff," Northeast Michigan Council of Governments, February 1978.
- 6.7 "Construction and Water Quality," Municipality of Metro Seattle, 1977, 120 pages. A guide to recommended construction practices for the control of erosion and sedimentation towards improving water quality.
- 6.8 "Construction, Agriculture and Sedimentation," Boston Metropolitan Area Planning Council, June 1977.
- 6.9 "Five-year Construction Grant Priority List," Southeastern Regional Planning and Economic Development Commission, March 1976, 8 pages.
- 6.10 "Evaluation of Construction Activities in the Appalachian Region," South Carolina Appalachian Council of Governments, April 1978.
- 6.11 "Intercommunity Trunkline Analysis," Southern Kennebec Valley Regional Planning Commission, August 1976, 62 pages.
- 6.12 "Evaluation of Point Sources and the Construction Grants Priority System," South Eastern Council of Governments, May 1977, 70 pages, \$2.00.
- 6.13 "Facility Plan for Arlie, Montana," Flathead Drainage 208 Project Planning Organization, March 1977, 85 pages.
- 6.14 "Facility Plan for Hot Springs, Montana," Flathead Drainage 208 Project Planning Organization, March 1977, 83 pages.
- 6.15 "Facility Plan and Related Studies for the Community of Polson, Montana," Flathead Drainage 208 Project Planning Organization, 180 Pages.
- 6.16 "Facility Plan for Swan Lake, Montana," Flathead Drainage 208 Project Planning Organization, April 1977, 70 pages.
- 6.17 "Facility Plan and Related Studies for the Community of Ronan, Montana," Flathead Drainage 208 Project Planning Organization, 182 pages.
- 6.18 "Facilities Plans for Charlo, Montana," Flathead Drainage 208 Project Planning Organization, August 1976, 54 pages.

- 6.19 "Facility Plan for Lakeside, Montana," Flathead Drainage 208 Project Planning Organization, April 1977, 89 pages.
- 6.20 "Facility Plan for Improvement of the St. Ignatius Montana Wastewater Treatment Facilities Flathead Drainage 208 Project Planning Organization, December 1977, 140 pages.
- 6.21 "Five year Construction Grant Priority List," (New England), Region I, March 18, 1976.
- 6.22 "Implementation Requirements," Central Texas Council of Governments, September 1978, 222 pages.
- 6.23 "Inventory of Existing Federal, State, and Local Regulatory Program," Construction Erosion, Illinois Environmental Protection Agency, April 1978.
- 6.24 "Minor Sources of Pollution in Genesee-Lapeer-Shiawassee Region V: Chloride Application, Construction, Mining, and Road Side Erosion-A Background Paper," Region V Planning and Development Commission Chase, Magdis, Incorporated, April 1978.
- 6.25 "99th Avenue Interceptor System Facility Plan," Maricopa Association of Governments, July 1979. Topics include construction.
- 6.26 "Nonpoint Source Control Programs for Construction and Urban Stormwater; Appendix A: Model Sediment Control Ordinance; Appendix B: Model Storm Drainage Ordinance and Stormwater Management Handbook," Central Midland Regional Planning Commission.
- 6.27 "Nonpoint Source Management - A Manual of Reference Management Practices for Construction Activities," Florida Department of Environmental Regulation Bureau of Water Analysis, Nonpoint Source Management Section.
- 6.28 "Nonpoint Source Control Guidance Construction Activities," U.S., Environmental Protection Agency, 6th District Council of Governments, December 1976.
- 6.29 "Nonpoint Source Controls-Construction Activities," Illinois, Environmental Protection Agency, August 1977. Contains literature review prepared by IIEQ.
- 6.30 "Chapter IX, 208 Plan Implementation," Berkeley, Charleston, Dorchester, Council of Governments.
- 6.31 "Planning and Engineering Criteria," Ohio-Kentucky-Indiana Regional Council, December 1975.
- 6.32 "Pollution Related to Construction," Illinois, EPA, September 1978.
- 6.33 "Processes Procedures and Methods to Central Pollution Resulting from all Construction Activities," EPA, 6th District Council of Governments, October 1973.
- 6.34 "Status Summary, Volume I, Potential cation No. 301-3, Nebraska Natural Resources Commission, February 1977.
- 6.35 "Status Summary of Potential Projects," Publication No. 301, Nebraska Natural Resources Commission, March 1964.
- 6.36 "Summary of Preconstruction Planning and Engineering," #125, Area Planning Board of Palm Beach County.

- 6.37 "South Dakota Municipal Construction Grants Project Priority List," Section E, Chapter 10, South Dakota Department of Environmental Protection Agency.
- 6.38 "A Summary of the Regional Growth and Development Plan for the Denver Region - Towards the Year 2000," Denver Regional Council of Governments, 1978.
- 6.39 "Wastewater Treatment Project Priority System for Federal Construction Grants," (Fiscal Year 1977) Five County Association of Governments.
- 6.40 "Water Pollution from Construction Activities," 6th District Council of Governments, Dalton-Dalton-Little-Newport.
- 6.41 "Water Quality Management Plan for Construction," North Carolina Department of Natural Resources and Community Development.

VII DRAFT AND FINAL PLANS

- 7.159 "District #4 Water Quality Management Plan," District #4 Council of Governments, September 1978.
- 7.160 "Revised Work Plan," District #4 Council of Governments, 1978.
- 7.161 "208 Report, Municipal Wastewater Treatment for an Eastgate Development and Transportation Agency Areawide Water Quality Plan," Volume 1, Eastgate Development and Transportation Agency.
- 7.162 "208 Report, Areawide Waste Treatment Management Plan for Mahoning and Trumbull Counties," Volume II, Eastgate Development and Transportation Agency.
- 7.163 "208 Planning Base Report," Eastgate Development and Transportation Agency, April 1976.
- 7.164 "An Appendix to the 208 Planning Base Report," Eastgate Development and Transportation Agency, April 1976.
- 7.165 "208 Environmental Glossary," Eastgate Development and Transportation Agency, November 1975.
- 7.166 "Transcript - Final 208 Public Hearing," Eastgate Development and Transportation Agency, May 1977.
- 7.167 "208 Procedural Manual (PERT)," Eastgate Development and Transportation Agency, March 1976.
- 7.168 "Element 7 - Phase II Work Plan," East-West Gateway Coordinating Committee, October 1976. Specifies the work to be undertaken during the second phase of the 208 work plan. Phase II consists of two principal activities, data collection and the development of the first round of alternatives. Therefore, Element 7 involves identification of data sources and needs, and design of methodology for data collection. It details work tasks, staff assignments, schedules, and budget estimates.
- 7.169 "Element 17 - Phase III Work Plan," East-West Gateway Coordinating Committee, April 1977. Describes the revised work order of what elements are to be done in Phase III, where the final alternatives will be developed. The purpose and outputs of each step in this phase are reported. Responsibilities are assigned, methodology is discussed and completion dates are indicated.

- 7.170 "Element 20, 21: Task Report, A - Final Water Quality Evaluation Criteria," East-West Gateway Coordinating Committee, May 1977. Indicates the definition of and need for water quality objectives, criteria, and standards, and the roles and limitations of the Environmental Protection Agency, the State, and EWGCC in establishing each of these. EWGCC's approach to establishing criteria is explained, with three classes of alternatives outlined. Stream classifications for the EWGCC 208 study area, taken from the proposed Missouri Water Quality standards publication are included.
- 7.171 "Element 22 - Phase III Final Alternative Analysis Report: Residual Waste Report," East-West Gateway Coordinating Committee, November 1977. This report identifies regional sludge processing centers for each county. A cost effective analysis determined the processing center's location and size. Diagrams on the different levels of sludge treatment and disposal systems and tables on the capital cost, operation and maintenance of the plants are also included.
- 7.172 "Element 23 - Phase III Final Alternative Analysis Report," East-West Gateway Coordinating Committee, October 1977. This is a summary of the stream quality based on computer modeling of point sources and non-point sources. Detailed charts on stream quality by varying levels, future water quality of stream segments with significant pollution sources based upon water quality simulation and analysis of pollution loads, and annual pollutant load by constituent table are also included.
- 7.173 "Element 24 - Phase III Summary Report," East-West Gateway Coordinating Committee, November 1977. This report was used, as a workshop material for the Phase III workshop held in November, 1977, to explain designated management agencies, point source alternatives, nonpoint source alternatives, and management/institutional issues. Detailed maps of the watersheds, costs, and preliminary environmental assessments of the alternatives are listed.
- 7.174 "EWGCC 208 Planning Agency Program Profile," East-West Gateway Coordinating Committee, October 1976. Gives a brief description, study overview and schedule dates for reports on priority water quality problems. The water quality problems are broken up and discussed under three headings: point source discharges, septic tanks, and storm runoff. Information on the grant award from the Environmental Protection Agency for EWGCC to study these problems is also given.
- 7.175 "EWGCC 208 Request for Proposal," East-West Gateway Coordinating Committee, August 1975. Indicates what is to be required from consultants working with EWGCC on the 208 Wastewater Treatment Management study. The project scope, work program, budget, and time factors are estimated. Proposal content requiring qualified environmental planning and engineering firms and EWGCC evaluation criteria are presented. EPA regulations, the 208 organizational structure, and cost summary sheets are contained in the appendix.

- 7.176 "Public Hearing Record," East-West Gateway Coordinating Committee, January 1975. Details the hearing conducted by the Missouri Department of Natural Resources to decide whether or not to designate the St. Louis area counties located in Missouri as a 208 Region, and EWGCC as the responsible 208 Planning Agency.
- 7.177 "Statement of Coordination Prepared by EWGCC and Southwestern Illinois Regional and Metropolitan Planning Commission (SIMAPC)," East-West Gateway Coordinating Committee, December 1974. This document defines the differing roles of EWGCC and SIMAPC; where EWGCC was designated as the 208 Agency for the Missouri portion of its region, SIMAPC took over the 208 process for the Illinois side of the St. Louis region (Madison, Monroe and St. Clair Counties). Coordination, relationships and those activities which are to be jointly addressed are described.
- 7.178 "Water Quality Management Plan, Errata and Comments," Eastern Upper Peninsula Regional Planning Development Commission, May, 1978, \$12.00.
- 7.179 "Water Quality Management Plan," Eastern Upper Peninsula Regional Planning and Development Commission, April 1978, \$5.00.
- 7.180 "Executive Summary Report," Erie and Niagara Regional Planning Board, March 1978, 105 pages.
- 7.181 "Review Draft Executive Summary," First Tennessee-Virginia Development District, May 1978, 32 pages. A summary of outputs to accomplish the programs detailed in the full plan report.
- 7.182 "Final Report on Residual Waste Management Program," First Tennessee-Virginia Development District, May 1978, 27 pages. This report compiles, revises, supplements, and incorporates all previous program products dealing with the residual waste management program.
- 7.183 "Final Report on Environmental Assessment," First Tennessee-Virginia Development District, May 1978, 30 pages.
- 7.184 "Executive Summary," First Tennessee-Virginia Development District, December 1978, 30 pages.
- 7.185 "208 Water Quality Management Plan," First Tennessee-Virginia Development District, December 1978.
- 7.186 "Status of Planning for New Facilities," First Tennessee-Virginia Development District, July 1977, 22 pages. This report summarizes the "201" Facilities Planning efforts within the area and also industrial planning relative to wastewater treatment or pretreatment is addressed.
- 7.187 "Final Report on Municipal Treatment Works Program," First Tennessee-Virginia Development District, May 1978, 60 pages. A detailed report on the recommended treatment works program for the study area and a summarization of the evaluation process which was used to identify the recommended plan.

- 7.188 "Final Report on Industrial Treatment Works Program," First Tennessee-Virginia Development District, May 1978, 34 pages. A Compilation of all previous data dealing with the proposed industrial point source wastewater treatment program. Topics include: industrial dischargers to surface waters, industrial dischargers to municipal systems, and Tennessee Valley Authority Facilities.
- 7.189 "Final Draft 208 Water Quality Management Plan," First Tennessee-Virginia Development District, June 1978. A report culminating the initial two-year planning program and presenting the final recommendations of local government and the general public.

- 7.224 "Wastewater Management, Lane County Interim Facilities Report, Lane County Council of Governments, August 1976.
- 7.225 "Dexter-Lowell Facilities Plan (Draft)," Lane Council of Governments, September 1976.
- 7.226 "Southwest Virginia 208 Plan," Lenowisco Planning District Commission. The plan is the summation of nearly three years of intense technical work to ascertain the extent of water quality problems caused by nonpoint pollution sources. The plan includes results from the extensive monitoring program conducted during the course of the study and an assessment of the total problems. Recommendations are made in both technical terms and also with respect to management of nonpoint sources.
- 7.227 "Southwest Virginia 208 Plan, Summary Report," Lenowisco Planning District Commission. This report is a general assessment of the conclusions and recommendations of the Southwest Virginia 208 plan. It is intended to be brief and highly readable and understandable by the broad spectrum of the public.
- 7.228 "An Inventory of existing Water Quality Management Agencies," Lewis and Clark Regional Council for Development. Presents a general description of the Federal Water Control Act of 1972 as it relates to planning required of states.
- 7.229 "Interim Report Number 1:," Lewis and Clark Regional Council for Development, July 1977. General public given an understanding of the framework from which the 208 plan was developed. Description of the environmental, social, and economic setting of the Lewis and Clark planning area.
- 7.230 "Interim Report. #2, Lewis and Clark Regional Council of Development. January 1978. Inventory and analysis of point source discharges and includes the municipal waste treatment facility needs over the next 20 years. Nonpoint sources of pollution.
- 7.231 "Interim Report Number 3," Lewis and Clark Regional Council for Development January 1978. Identifies the agencies or comments: units that are to be responsible for the implementation of the 208 plan.
- 7.232 "Five year 208 Strategy and First Work Plan," Lower Rio Grande Regional Development Commission, Merle Derdall, March 1, 1979, 45 pages.

- 7.235 "Water and Wastewater Technical Report, Plan of Study, Appendix C," Maricopa Association of Governments, 208 Water Quality Management Program-Phoenix, Arizona, August 1975. Compilation of: "A Report on Infiltration/Inflow Problem and Identification of Sewer Systems: "A Program for Identification of Nonpoint Sources of Groundwater Pollution" "Wastewater Facilities Inventory" "Water Supply Systems" "Wastewater Management Status" "Wastewater Management Planning Requirements".
- 7.236 "208 Water Quality Management Program, Revised Work Plan," Maricopa Association of Governments, 208 Program, March 1978. This work plan includes revisions made to accommodate the ongoing Phoenix 201 study.

- 7.237 "Summary of Evaluation of Westside Alternatives, Draft Memorandum No. 9," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, April 1978. This report summarized Environmental Evaluation of Westside Alternatives, Draft Memorandum No. 4.
- 7.238 "Existing Environmental Setting, Memorandum No. 1," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, April 1978. This report includes the comments of local governments on the revised draft.
- 7.239 "Future Environmental Setting, Draft Memorandum No. 2," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, February 1978. The purpose of this report is to describe the future baseline environmental setting of the Phoenix Metropolitan Study area without the addition of any new municipally owned or operated wastewater treatment facilities. Data is presented in five year increments for the planning period 1980 to 2000. Emphasis is on a broad areawide, descriptive and narrative presentation. Where necessary, maps, figures and tables accompany the text.
- 7.240 "Future Environmental Setting Revised Memorandum No. 2," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, March 1978. This report includes 208 Advisory Group comments of the initial draft.
- 7.241 "Future Environmental Setting, Final Memorandum No. 2," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, April 1978. This report includes the comments of the local governments had on the revised draft.
- 7.242 "Summary of Existing Environmental Setting, Draft Memorandum No. 7," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, January 1978. This report summarizes Existing Environmental Setting, Draft Memorandum No. 1.
- 7.243 "Summary of Existing Environmental Setting Revised Memorandum No. 7," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, March 1978). This report summarizes Existing Environmental Setting, Re-draft Memorandum No. 1.
- 7.244 "Summary of Existing Environmental Setting, Memorandum No. 7," Arthur Beard, Engineers/Camp, Dresser, and McKee, April 1978. This report summarizes Existing Environmental Setting, Memorandum No. 1.
- 7.245 "Summary of Future Environmental Setting, Draft Memorandum No. 8," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, February 1978. This report summarizes Future Environmental Setting, Draft Memorandum No. 2.
- 7.246 "Summary of Future Environmental Setting, Revised Memorandum No. 8," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, March 1978. This report summarizes Future Environmental Setting, Revised Memorandum No. 2.
- 7.247 "Summary of Future Environmental Setting, Memorandum No. 8," Maricopa Association of Governments, Arthur Beard, Engineers/Camp, Dresser, and McKee, April 1978. This report summarizes Future Environmental Setting, Memorandum No. 2.

- 7.248 "Environmental Inventory, Draft Report," Maricopa Association of Governments, Dames and Moore, October 1977. The study area for this environmental report is all of Maricopa County, excluding the Metro-Phoenix area. Many of the environmental issues existing in rural Maricopa County involved in agricultural businesses with a source for environmental reference, and serve as a foundation on which can be constructed an environmental assessment of non-point pollution sources. Non-point pollution sources in rural Maricopa County influence water quality, water quantity, land use, and natural Biological Systems. Background for these and related environmental issues are presented in this report.
- 7.249 "Draft Work Plan," Maricopa Association of Governments, July 1976. Report develops a plan for the collection, conventional treatment and reuse of wastewater. Also an acceptable management strategy for implementing the plan.
- 7.250 "Areawide Waste Treatment Management Planning Program," Maricopa Association of Governments. Provides a framework for the MAG Water Quality Management program. Included: program management, coordination with other water quality management and resource planning programs, public involvement, land use, socio-economic, and environmental planning, water quality management water, supply plan adoption and state responsibilities.

- 7.329 "Working Papers," Northwest Michigan Regional Planning and Development, Series of papers dealing with: Public Participation, Problem Identification, Agriculture and Areawide Water Quality Planning. Agriculture Water Quality Planning, Goals and Policies for the Clean Water Program, Forest Water Quality Management. Plan A Approval. Inland Lake Management Options: Land Use Inventory: Population Projections. Transient Populations Projections, Land Use Projections. Economic Projections. et. al.
- 7.330 "Surface Water Quality Assessment," Ocean County Planning Board, 1978. Documents implementation of areawide surface water quality monitoring program. Analyzes monitoring data and relates water quality to land use for consideration in preparing the Area-wide Plan. Draft report available late summer.
- 7.331 "The Regulatory Program Associated with Areawide Water Quality Management in Ocean County, New Jersey," Ocean County Planning Board, Draft Report, April 1978, 51 pages. Focuses upon a discussion of the component ingredients of a County-based regulatory program for water quality management which would match with the existing frameworks of the State and Federal programs.

- 7.332 "Implementation of an Areawide Water Quality Management Program in Ocean County, New Jersey," Draft Report, Ocean County Planning Board, January 1978, 66 pages. The report focuses on the steps and ingredients which contributed to the institution of a continuing water quality management program for Ocean County. Recommendations are offered regarding the 1978 Work Program and Budget, and designation of management agencies.
- 7.333 "Toward Clean Water: A Program for Action, Old Colony Planning Council, 1978. Incorporates the comments received in Volumes 1 and 2 of Toward Clean Water: Alternatives for Action, includes chapters with recommendations for individual communities and regional, state and federal agencies, and constitutes the Final Environmental Impact Statement on the plan's recommendations.
- 7.334 "Toward Clean Water" Alternatives for Action, Volume 1, Draft Environmental Impact Assessment," Old Colony Planning Council. Outlines the present quality of the waters, the sources of pollution and alternative means of restoring and maintaining water quality including the environmental, social and fiscal impact of these alternatives.

- 8.118 "Section 208 Nonpoint Source Emissions Analysis," Central Massachusetts Regional Planning Commission, August 1977.
- 8.119 "Section 208 Areawide Nonpoint Source Emissions Analysis," Central Massachusetts Regional Planning Commission, September 1976.
- 8.120 "Results of Routine Run, Theodore N-pt Sampling and Fairhope Land-fill sampling," South Alabama Regional Planning Commission, October 1976.
- 8.121 "Restoration and Maintenance of High Quality Water," Greater Egypt Regional Planning and Development Commission, February 1978, 80 pages.
- 8.122 "Relationships Between Nonpoint Conditions and Water Quality," Chariton Valley Regional Services Agency.
- 8.123 "Preliminary Suggested Strategy for Controlling Nonpoint Source Pollution," Central Massachusetts Regional Planning Commission, April 1977.
- 8.124 "Preliminary Report of Potential Nonpoint Sources in the Lakes Region," Lakes Region Planning Commission, April 1976.
- 8.125 "An Overview of Nonpoint Source Pollution in the Ten Town 208 Area," Androscoggin Valley Regional Planning Commission. Nonpoint source pollution, recommending additional technical and institutional mechanisms for controlling or alleviating currently uncontrolled nonpoint sources. In place sources-solid waste sites, salt storage, sludge, septage and manure disposal, on site subsurface disposal systems and petroleum and gas storage. Related sources - agriculture, forestry, mining and extraction, construction and pesticides usage.
- 8.126 "Nonpoint Sources Working Paper," Brevard County Planning and Zoning Department, February 1978, 153 pages. Topics include: Summary of key findings and recommendations, analysis methodology discussion, analysis of alternative in priority segments.

- 8.127 "Nonpoint Sources Water Quality Study," 4 Volumes, June 1977. Southern Maine Regional Planning Commission. Topics include: Sub-surface sewage disposal, septage and treatment plant sludge disposal, solid and liquid waste disposal, and erosion, sedimentation and runoff, roadsalt application, oil storage and handling.
- 8.128 "Nonpoint Sources Report," Lower Rio Grand Valley Development Commission. Topics include: Assessment of rainfall runoff sources of pollution, nonpoint sources strategies.
- 8.129 "Nonpoint Source Pollution Potential and Control Measures (final)," Maricopa Association of Governments, Boyle Engineering Corporation for the Corps of Engineers, November 1977. This report includes an evaluation which describes the nature and extent of nonpoint sources of pollution (part II, phase 1, task 6). It includes discussion on the pollution potential from each of the nonpoint sources, effects on the receiving waters, potential for violation of EPA Interim Primary Drinking Water Regulations, and prevention of other beneficial use of the receiving water.
- 8.130 "Nonpoint Source Control Technologies and Cost Effectiveness," Androscoggin Valley Regional Planning Commission. Each nonpoint source category identified in the document, "An Overview of Nonpoint Source Pollution," was discussed in this report. The report, in table form, identified the available technologies that can be applied to control nonpoint sources of pollution and discusses their cost-effectiveness and current application in the 208 area.
- 8.131 "Nonpoint Source Pollution," Southern Kennebec Valley Regional Planning Commission, March 1976.
- 8.132 "Nonpoint Source Control Plan for the Indian National Council of Governments 208 Study Area with Appendix (separate volume) containing ordinances and regulations," TCCHD, EPA Plan Elements 10 and 12, Indian Nations Council of Governments, February 1978.
- 8.133 "Nonpoint Source Assessment, Draft Summary Rt. #6," Alabama Regional Planning Commission, September 1977.
- 8.134 "Nonpoint Sources-By Type, Location and Quantity," Central Mass Regional Planning Commission, March 1977.
- 8.135 "Nonpoint Sources," Alabama Regional Planning Commission, July 1977.
- 8.136 "Nonpoint Sources," Berkshire County Regional Planning Commission, November 1976.
- 8.137 "Nonpoint Pollution/Water Quality Analysis," Mississippi-Arkansas-Tennessee Council of Governments, Memphis Delta Development District, May 1977.
- 8.138 "Nonpoint Pollution from Land Disposal Sites," Alabama Regional Planning Commission, July 1977.
- 8.139 "Nonpoint Estimation Analysis for Critical Urban Areas," Central Massachusetts Regional Planning Commission, February 1977.
- 8.140 "Nonpoint Source Pollution in Coastal Sussex County," Coastal Sussex Water Quality Program, November 1977. Topics include nonpoint source pollution from urban and agricultural sources: land use data, silvacultural activities: industrial activities.

- 8.141 "Methodology for Ranking of Nonpoint Pollution Sources," Southeastern Regional Planning and Economic Development Commission, March 1977, 32 pages.
- 8.142 "Measures to Control Nonpoint Source Pollution," Central Massachusetts Regional Planning Commission, March 1977.
- 8.143 "Inventory of Point and Nonpoint Discharges in Summit, Wasatch and Utah Counties in the State of Utah," Mountainland Association of Governments, February 1976.
- 8.144 "Initial Quantification of Nonpoint Sources for Berkshire 208 Study," Berkshire County Regional Planning Commission, February 1976.
- 8.145 "Identification, Evaluation and Control of Nonpoint Source Pollution: A State-of-the-Art Literature Review," Mountainland Association of Governments, September 1975.
- 8.146 "Evaluation of Continuous Nonpoint Sources in the Planning Area," New Castle County Area-wide Waste Treatment Management Planning Agency, December 1975.
- 8.147 "Critical Nonpoint Source Pollution Areas," Central Massachusetts Regional Planning Commission, February 1977.
- 8.148 "Control of Water Pollution from Nonpoint Sources," Lakes Region Planning Commission, August 1977.
- 8.149 "Compendium: Nonpoint Source Control Measures," Maricopa Association of Governments, Boyle Engineering Corporation for the U.S. Army Corps of engineers, February 1977. This report examines both structural and non-structural methods which have been successful in controlling nonpoint sources of pollution. Controls relating to the following subjects are included: Regulations, Agricultural croplands, feedlots, sanitary landfill, construction, storm drains, sand and gravel operations.
- 8.150 "Assessment of Nonpoint Source Pollution for the Indian Nations Council of Governments 208 Study Area," TCCHD, EPA Plan Element 4, Indian Nations Council of Governments, Gary D. Woodruff and Dr. Jerry G. Cleveland, February 1978. This is the final edited version of an earlier report. It contains the final assessment of the nonpoint source pollution problems in the INCOG study area and includes a map locating the principal nonpoint source pollution problem.
- 8.151 "An Assessment of Nonpoint Source Pollution Management Agencies," Atlanta Regional Commission, December 1977. Existing agencies which are involved in the management of runoff from construction also describes the Georgia Soil Erosion and Sedimentation Act of 1975 and current implementation of the Act in the Atlanta Region.
- 8.152 "Nonpoint Source Inventory," Southern Tier Regional Planning and Development Commission. December 1977, 90 pages. Presents an overview in as much detail as the data allowed of the nonpoint source related problems within the 208 area.

- 8.153 "Water Quality Assessment," North-west Michigan Regional Planning and Development Commission. The report contains by county a nonpoint source inventory (agriculture, solid waste sites, extractive sites, storm water runoff areas), a point source inventory, description of wastewater treatment plants, violatory, lake physical data, and topic status of lakes greater than 50 acres.
- 8.154 "Element 21: Task Memo d - Nonpoint source Structural Control Measures," East-west Gateway Coordinating Committee, June 1977. A discussion of the control of urban runoff from combined sewer areas and the levels of treatment require are presented: Diagrams of the three levels of effectiveness are also included.
- 8.155 "Element 21: Task Report f - Nonpoint Source Subplans," East-West Gateway Coordinating Committee, June 1977. Based on the contents of technical memos 21d and 21e, this report integrates the structural and nonstructural controls for nonpoint source pollution in the St. Louis area. A description of the control program, tables on how the controls would be effectuated, information on who would enforce them, and maps of the areas are included.
- 8.156 "Element 21: Task Memo e - Nonpoint Source Nonstructural Control Measures," East-west Gateway Coordinating Committee, June 1977. Details those nonpoint problems and accompanying non-structural control measures that must be substantively addressed as part of the final planning effort. Nonpoint sources are classified and specific controls are recommended.
- 8.157 "Water Quality Factors and Nonpoint Source Loading Model for Spruce Creek Watershed (technical report)," Volusia County Council of Governments.
- 8.158 "Preliminary Suggested Strategy for Controlling Nonpoint Source Pollution," Region I (New England).
- 8.159 "Initial Quantification of Nonpoint Sources," Region I (New England), February 1976.
- 8.160 "Nonpoint Source by Type Location and Quantity," Region I (New England), March 1977.
- 8.161 "Critical Nonpoint Source Pollution," Region I, (New England), February 1, 1977. Identify critical pollutants and areas, those which are keeping parts of their region from reaching swimmable, fishable goals.
- 8.162 "Measures to Control Nonpoint Source Pollution," Region I (New England), March 1, 1977. Significant control measures are described in which they are most applicable.
- 8.163 "Methodology for Ranking of Nonpoint Pollution," Region I (New England), March 18, 1977.
- 8.164 "Nonpoint Source Control Strategies," Region I (New England). March 18, 1977.

- 9.46 "Regional Goals for Planned Growth, Toledo Metropolitan Area Council of Governments, October 1976.
- 9.47 "Regional Development Policy Plan, Volume 3: Goals, Objectives, Policies, and Implementation Programs," Indiana Heartland Coordinating Council.
- 9.48 "Small Areas Forecasts: Policies, Forecast and Evaluation," Southeast Michigan Council of Governments, March 1978, 182 pages.
- 9.49 "Surface Water Quality Standards and Goals for Effluent Dominated Streams (Working Paper)," Maricopa Association of Governments, Ferguson, Morris, and Simpson/Stevens, Thompson, and Runyan for the Corps of Engineers, February 1978. The purpose of this report is to assist the Water Quality by identifying some of the problems that exist and decisions which must be made relative to establishing standards for the Salt River from the Granite Reef Dam to its confluence with the Gila River and the Gila River from the confluence to Painted Rock Reservoir. Included in the report is a discussion of: Existing and proposed uses for various river segments. Suggested surface water quality standards required to support those uses and the resultant wastewater treatment plant effluent quality. The effluent quality that would be required along these river segments to meet the 1977, 1983, and 1985 goals of PL 92-500. The requirements under PL 92-500 for receiving exemptions to the 1983 and 1985 goals.
- 9.50 "A Summary of Goals, Objectives, policies, and Program for New Castle County, New Castle County Areawide Waste Treatment Management Agency.
- 9.51 "Three Year Regional Goal and Program Statement - 1973-76," Association of Bay Area Governments, September 1973.

- 9.52 "Element 19: Task Memo f - Updated Future Land Use for Computer Model," East-West Gateway Coordinating Committee, May 1977. Describes the final land use data and the proper format for its inclusion in the computer models. The methodology used in analyzing total and segmented pollution loads is reported. Tables of input and output land use data and pollution build up rates are included.
- 9.53 "Water Quality Goals and Plan Selection Criteria," East Central Michigan Planning and Development Region, October 1977, 60 pages.

- 12.107 "Pretreatment of Industrial Wastes Discharged Municipal Sewer Systems," Association of Bay Area Governments, January 1977, \$1.00.
- 12.108 "Proposed Strategy for Pretreatment of Industrial Wastes Discharged to Municipal Sewer Systems," Association of Bay Area Governments, March 1977, \$1.00.
- 12.109 "A Proposal for a Feasibility Study for Composting Domestic and Industrial (Paper) Sludge," Montachusett-Nashua Areawide Water Quality Management Commission, 1976, 24 pages.
- 12.110 "Proposed Methodology for Handling Industrial Waste," Delaware Valley Regional Planning Commission, Chester Betz Engineers, July 1974.
- 12.111 "Public Law 92-500 and EWGCC Activities," East-West Gateway Coordinating Committee, March 1975. This synthesis of general information summarizes the results of an EWGCC preliminary study of the St. Louis 208 area, determines the degree of urbanization and industrial concentration, as well as the water quality problems that exist. Statements detailing EWGCC's qualifications in assessing the water quality problems as a 208 agency are included. Information on the 208 program in general is also given.
- 12.112 "Pueblo Memorial Airport Industrial Study," Pueblo Regional Planning Commission, November 1974.
- 12.113 "Re-evaluation of the Industrial Sludge Interceptor," Ventura Regional County Sanitation District.
- 12.114 "Report Upon Industrial Cost Recovery System," Region I (New England), January 1977.
- 12.115 "Refuse Power Plant Technology. State of the Art Review," Nassau-Suffolk Regional Planning Board, December 1977.
- 12.116 "Revised "A" Industries Employment Forecasts," Delaware Valley Regional Planning Commission, Louis Berger and Associates, Inc., 1977.
- 12.117 "Reuse of Industrial and Municipal Wastewater Discharges," Delaware Valley Regional Planning Commission, Chester Betz Engineers, August 1976.
- 12.118 "Screening Procedure to Determine Industries with Significant Municipal Impact ('A' Industries)," Delaware Valley Regional Planning Commission, Chester Betz Engineers, September 1976.
- 12.119 "A Review of Industrial Waste Treatment," Southeastern Regional Planning and Economic Development Commission, December 1975, 90 pages.
- 12.120 "Sampling Data for Municipal Industries--BPT/BAT," Macon-Bibb County Planning and Zoning Commission.
- 12.121 "Significant Discrete Industrial Dischargers," Municipal/Industrial Dischargers Management Plan - tech memo, Association of Bay Area Governments, January 1977, \$1.00.
- 12.122 "Small Area Industrial Forecast," Delaware Valley Regional Planning Commission, Chester Betz Engineers, November 1976.
- 12.123 "Solid Waste Report: Industrial Residual Disposal," Genesee-Lapeer-Shiawassee Region 5 Planning and Development Commission, July 1977.

- 12.124 "Status of Industrial Wastewater Treatment," First Tennessee-Virginia Development District, July 1977, 33 pages. A report summarizing the industrial waste treatment situation in the study area, including those industries that discharge to surface streams and to municipal treatment works.
- 12.125 "Toward Clean Water: A Program for Action," Old Colony Planning Council, 1978. Discusses industrial wastewater disposal within the recommended community actions (Chapters 1-10).
- 12.126 "Toward Clean Water: Alternatives for Action, Volume 1, Draft Environmental Impact Assessment, (1977), Chapter 5: Industrial Wastewater Disposal," Old Colony Planning Council. Discusses four industrial wastewater discharge alternatives: 1) wastewater treatment and disposal by on-site subsurface systems, 2) continued discharge under the NPDES Permit System, 3) wastewater treatment and disposal by tying into a municipal wastewater collection and treatment system, 4) discharge to a surface water body for new industries with installation of facilities capable of testing treatment of effluent.

- 12.128 "User Charge and Industrial Cost Recovery Information," East Central Florida Regional Planning Council.
- 12.129 "User Charge/Industrial Cost Recovery - A Case Study," New Castle County Areawide Waste Treatment Management Agency, August 1977.
- 12.130 "Users Charge and Industrial Cost Recovery Systems, Phase II Fiscal Analysis Interim Report," New Castle County Areawide Waste Treatment Management Agency, June 1976.
- 12.131 "Wastewater Treatment and Reuse: Interim Report No. 1," Clark County 208 Agency, December 1977. Summarizes existing and planned municipal and industrial treatment facilities in Clark County; projects wastewater flows and loads to the year 2000; and assesses the adequacy of existing and planned facilities to accommodate the projected flows and loads.
- 12.132 "The Water Pollution Potential of Inland Industrial Waste Disposal Systems," Western Michigan Shoreline Regional Planning Commission, October 1978.
- 12.133 "Water Uses in the St. Louis Region," East-West Gateway Coordinating Council. A brief description of the water quality required to meet each type of water use, i.e., industrial, domestic, recreational, aesthetic, fishing and transportation water needs.
- XIII. INVENTORY AND SAMPLING
- 13.1 "Water Quality Inventory," Southern Tier Regional Planning and Development Commission, April 1977, 128 pages. Presents detailed information on the water quality problems of the 208 area.
- 13.2 "Environmental Inventory, Preliminary Draft," Maricopa Association of Governments, Dames and Moore for the U.S. Army Corps of Engineers, Phoenix Urban Study, October 1976. This report is a basic inventory, examining separately the various physical, social, biological components which are encompassed in the 208 study area.

- 13.3 "Inventory of Existing Information and Sources," Erie and Niagara Counties Regional Planning Board, October 1978, 254 pages.
- 13.4 "Environmental Inventory," Erie and Niagara Counties Regional Planning Board, October 1978, 208 pages.
- 13.5 "Inventory of Area's Present Wastewater Systems," Northwestern Indiana Regional Planning Commission, November 1976.
- 13.6 "Water Supply and Conveyance Facilities Inventory," Southern Tier Regional Planning and Development Commission, October 1976, 106 pages. Provides detailed information on water supply and conveyance facilities in the 208 area.
- 13.7 "Inventory of Existing Wastewater Management Agencies," Maricopa Association of Governments, Ferguson, Morris and Simpson/Stevens, Thompson, and Runyan for the Corps of Engineers, Phoenix Urban Study, February 1977. This report describes the existing wastewater management agencies, their legal authorities, financial capabilities, wastewater management activities and plans, and internal organization. Laws (Federal, State, County, municipal) and statutes affecting management agencies are also included.
- 13.8 "Inventory and Data Collectum," Ohio-Kentucky-Indiana Regional Council of Governments, September 1975.
- 13.9 "Inventory and Analysis of Available Point Source Information," Southeastern Council of Governments, February 1977, 108 pages, \$5.00.
- 13.10 "Inventory of Available Point Source Information," Southeastern Council of Governments, May 1977, 63 pages, \$3.00.
- 13.11 "Inventory of Conditions Affecting Nonpoint Source Pollution," Chariton Valley Regional Services Agency.
- 13.12 "Inventory of Methods and Nonpoint Conditions in the Chariton Valley," Chariton Valley Regional Services Agency.
- 13.13 "Inventory and Performance - Existing Wastewater Treatment Systems Areawide - Appendix 2," Maricopa Association of Governments, John Carollo Engineers, March 1978. This report includes an inventory and performance record of the following wastewater treatment plants: Avondale WWTP, Chandler WWTP, Gilbert WWTP, Mesa WWTP, Litchfield Park WWTP, Luke Air Force Base WWTP, and Tolleson WWTP. Included is an inventory of the following existing westside sewerage systems: Avon/Goodyear, Glendale, Litchfield Park, Peoria, Phoenix/Glendale, Sun City, Tolleson, and Youngtown.
- 13.14 "Stream Reach Inventory," Blue Ribbons of the Big Sky Country Areawide Planning Organization.
- 13.15 "Six-County Nonpoint Source Inventory," Baltimore Regional Planning Council.
- 13.16 "Environmental Inventory," East Central Michigan Planning and Development Region, November 1976, 107 pages.
- 13.17 "WQ Inventory and Environmental WQ Relationships," East Central Michigan Planning and Development Region, February 1977, 310 pages.

- 13.18 "Inventory and Analysis of Non-Structural Approaches to Waste Treatment Management," East Central Florida Regional Planning Council.
- 13.19 "Baseline Inventory of Critical Natural Areas," Coastal Sussex Water Quality Program, July 1977.
- 13.20 "Inventory of Existing Water Quality Management and Fiscal Programs," Coastal Sussex Water Quality Program, July 1977.
- 13.21 "Windham Wetlands Reports, An Inventory and Evaluation," Southern Rockingham Regional Planning District Commission, May 1976, 155 pages.
- 13.22 "Organizational Inventory," Technical Report - Volume II, Metroplan, June 1977, 125 pages.
- 13.23 "Inventory and Performance - 91st Avenue WWTP and 23rd Avenue WWTP - Appendix I," Maricopa Association of Governments, John Carollo Engineers, March 1978. In this first draft, Appendix I, each existing wastewater treatment system is reported in separate parts.
- 13.24 "Inventory Report," Eastgate Development and Transportation Agency, July 1975.
- 13.25 "Inventory of Municipal Treatment Facilities," First Tennessee-Virginia Development District, July 1977, 54 pages. A summarization of available information on the municipal wastewater facilities in the FT-VDD "208" study area.
- 13.26 "Inventory and Mapping of Detailed Land Use of New Castle County, Del.," New Castle County Areawide Waste Treatment Management Planning Agency, July 1975.
- 13.27 "Environmental and Land Use Inventory," Southern Tier Regional Planning and Development Commission, November 1976, 304 pages. Presents detailed information on existing land use and environmental characteristics of the 208 area.
- 13.28 "Task 103 - Base Studies - Subtask (C) - Environmental Inventory," Southeast Arkansas Regional Planning Commission. To provide a base environmental inventory of Jefferson County to be used during the evaluation and assessment of proposed 208 plans.
- 13.29 "208 Project Inventory of Existing Resources," Triangle J Council of Governments, March 1976, 1100 pages.
- 13.30 "Water Quality Inventory York County," Region I (New England), June 1976.
- 13.31 "Inventory of Nonpoint Pollution Sources," Region I (New England), May 1976.
- 13.32 "Inventory of Suspected Nonpoint and Urban Runoff Pollution Sources," Region I (New England), March 18, 1976.
- 13.33 "Inventory of Local Regulatory Controls Pertinent to Water Quality," Region I (New England), December 18, 1975.
- 13.34 "Point Source Inventory," South Carolina Department of Health and Environmental Control, December 21, 1978.
- 13.35 "Natural Features Inventory," Pima Association of Governments, Task 4303, Pima County Planning and Zoning Department, May 1977.
- 13.36 "Cultural Inventory Baseline Report," Pima Association of Governments, Task 4302, City of Tucson Planning Department, Pima County Planning and Zoning Department, June 1977.

- 13.37 "Water Quality Management 1978 Vol. 11," Alaska Department of Environmental Conservation. A preliminary inventory of point and nonpoint sources of pollution showing location and types.
- 13.38 "208 Inventory Water Quality Management Planning Working Paper, Legal and Institutional Inventory and Analysis for Control of Soil Erosion and Sedimentation," Chapter 7, State of New Jersey Department of Environmental Protection, November 1978.
- 13.39 "Inventory of Existing Dischargers Northeast 208 Study Area, Task 4.1," Chapter 5, State of New Jersey Department of Environmental Protection, January 1978.
- 13.40 "Inventory and Project Water Resources and Utilization," West Michigan Regional Planning Commission.
- 13.41 "Inventory of Environmental Data Sources," Northwest Colorado Council of Governments.
- 13.42 "An Inventory of Surface Water Quality in Eagle, Grand, Jackson, Pitkin, Routt and Summit Counties, Colorado," Northwest Colorado Council of Governments.
- 13.43 "Inventory and Evaluation of Nonpoint and Intermittent Point Source Controls," Miami Valley Regional Planning Commission.
- 13.44 "Inventory and Evaluation of Point Source Structural and Nonstructural Controls," Miami Valley Regional Planning Commission.
- 13.45 "1978 Kansas Water Quality Inventory Report," Kansas Department of Health and Environment
- 13.46 "Inventory of Sludge Disposal Facilities and Forecast of Sludge Volumes," Northwestern Indiana Regional Planning Commission, October 1976.
- 13.47 "Inventory of Existing Wastewater Regulations and Fiscal Controls," Northwestern Indiana Regional Planning Commission.
- 13.48 "Phase I Interim Report - Inventories and Forecasts/Projections," Northwestern Indiana Regional Planning Commission.
- 13.49 "Inventory of Agricultural Waste Sources and Other Existing Nonpoint Sources of Pollution," Northwestern Indiana Regional Planning Commission, March 1977.
- 13.50 "Environmental Inventory," Erie and Niagara Counties Regional Planning Board, December 1977, 208 pages.
- 13.51 "Inventory of Existing Information and Sources," Erie and Niagara Counties Regional Planning Board, December 1977, 254 pages.
- 13.52 "Water Quality Data Inventory, Bibliographies and Tables," Central Massachusetts Regional Planning Commission, January 1976.
- 13.53 "Aquatic Life and Water Uses in the Washington Metropolitan Area," Washington Council of Governments, May 1978. An inventory of the aquatic life and the human water uses in the region.
- 13.54 "An Inventory of Sludge Handling in the Washington Area," Washington Council of Governments, May 1977. A description of the existing sludge handling capability in the region and plans for future operations.
- 13.55 "Inventory of Nonpoint and Intermittent Point Sources," State of New Jersey Department of Environmental Protection.

- 13.56 "Inventory of Existing Discharges," State of New Jersey Department of Environmental Protection.
- 13.57 "Vol. I. Environmental Inventory," Southwestern Illinois Planning Commission. Describes the physical, hydrologic, developmental, socio-economic, cultural and ecological characteristics of the area.
- 13.58 "Organizational Inventory," Metro plan, 1978.
- 13.59 "Inventory of Existing Federal, State and Local Legislation Dealing with Waste Treatment Management," Rhode Island Statewide Planning Program.
- 13.60 "Summary of the Rhode Island Environmental Inventory," Rhode Island Statewide Planning Program.
- 13.61 "Inventory and Analysis of State, Local and Regional Growth Policies," Rhode Island Statewide Planning Program.
- 13.62 "Inventory Report on Marinas," Rhode Island Statewide Planning Program.
- 13.63 "Inventory Report on Urban Runoff," Rhode Island Statewide Planning Program.
- 13.64 "Inventory Report of Subsurface Waste Disposal Systems," Rhode Island Statewide Planning Program.
- 13.65 "Inventory Report of Municipal Wastewater Treatment Facilities," Rhode Island Statewide Planning Program.
- 13.66 "Technical Memorandum - Inventory of Point Sources of Pollution," Rhode Island Statewide Planning Program.
- 13.67 "Industrial Waste Inventory," Rhode Island Statewide Planning Program.
- 13.68 "Inventory of Financial Capabilities," Rhode Island Statewide Planning Program.
- 13.69 "Report on Inventory of Existing Municipal Facilities," Mid-America Regional Council.
- 13.70 "Report on Inventory of Existing Industrial Treatment Facilities," Mid-America Regional Council.
- 13.71 "Report on Inventory of Present Water Quality," Mid-America Regional Council.
- 13.72 "Nonpoint Source Discharge Inventory," Pueblo Regional Planning Commission, 208 Consultant Report, Dumeger, John M. (dba Hydro Engineers), December 1976.
- 13.73 "Biological Inventory of Pueblo County Waterways," Pueblo Regional Planning Commission, 208 Consultant Report, Linam, Jay H.; Osborn, Neal L.; and Seilheimer, Jack A. (University of Southern Colorado), December 1976.
- 13.74 "Interim Report - Biological Inventory of Pueblo County Waterways," Pueblo Regional Planning Commission, 208 Consultant Report, Linam, Jay H.; Osborn, Neal L.; and Seilheimer, Jack A. (University of Southern Colorado), July 15, 1976.
- 13.75 "Inventory of Potential and Existing Water Quality Management and Planning Agencies," Pueblo Regional Planning Commission, 208 Consultant Report, Lyon, Collins and Company, Inc., December 1975.

- 13.76 "Phase 1: Inventory and Strategy Report on Environmental, Land Use and Related Sections of Section 208 Areawide Wastewater Treatment Management Planning Program," Pueblo Regional Planning Commission, 208 Consultant Report, Rahenkamp, Sachs, Wells and Associates, February 1976.
- 13.77 "Point Source Inventory: Domestic Wastewater Point Source Inventory; Industrial Wastewater Point Source Inventory, City of Pueblo Stormwater and Combined Sewer Discharge on the Arkansas River and Fountain Creek," Pueblo Regional Planning Commission, Sellards and Griggs, Inc., 208 Consultant Report, January 1975.
- 13.78 "Inventory and Evaluation Surface and Subsurface Disposal Alternatives," Region I (New England).
- 13.79 "Inventory Existing and 5-Year Projected Industrial Discharges," Region I (New England).
- 13.80 "Boston Harbor Mystic and Neponset Basins Inventory and Evaluation of Public Wastewater," Region I (New England), June 17, 1977.

XIV. INSTITUTIONAL

14.1 "Air Impacts of Wastewater Treatment in Metropolitan Washington," Washington Council of Governments, March 1978. An analysis of the impacts on the air quality of the region of the options considered in the 208 Areawide Water Quality Management Plan.

14.2 "Alternative Institutional Plans," East Central Michigan Planning and Development Region, October 1977, 165 pages.

14.3 "Alternative Subarea Institutional and Financial Plans," First Tennessee-Virginia Development District, May 1978, 43 pages. This report discusses for each "201" facilities planning area or combination of subareas several management alternatives for implementing that portion of the "208" plan which is assigned to each subarea. The management alternatives include the institutional and financial aspects of plan implementation.

14.4 "Alternative Institutional Arrangements, Task 602," Southeast Arkansas Regional Planning Commission. To develop alternating management plans to implement the technical alternatives. Current and potential sources of revenue to implement the water quality management program will be identified and described.

14.5 "Alternative Institutional Arrangements for Water Quality Planning and Management in Region II," Region 2 Planning Commission, Public Administration Service, September 1977, reprinted May 1978.

14.6 "Analyze Environmental Constraints," West Michigan Regional Planning Commission, Work Element 26.

14.7 "Analysis and Evaluation of Existing Local Agreements Dealing With Water Quality," Southeastern Regional Planning and Economic Development Commission, March 1976, 27 pages.

14.8 "Analysis of Municipal Wastewater Collection Systems," Coastal Sussex Water Quality Program, January 1977.

14.9 "Analysis of Existing Municipal Wastewater Treatment Systems," Coastal Sussex Water Quality Program, January 1977.

14.10 "Analysis of Existing Institutional Arrangement," Delaware Valley Regional Planning Commission, (WP-7.02-1), March 1977.

14.11 "Analysis of Existing Private and Institutional Wastewater Collection and Treatment Systems," Coastal Sussex Water Quality Program, January 1977.

14.12 "Analysis of Existing Water Quality Management Institutions in the Chattanooga "208" Region," Chattanooga Area Regional Council of Governments, March 1977, 82 pages.

14.13 "Assessment of Existing Wastewater Management Systems," Maricopa Association of Governments, Ferguson, Morris and Simpson/Stevens, Thompson, and Runyan for Corps of Engineers, Phoenix Urban Study, February 1977. This assessment report examines Phoenix area government's involvement in certain aspects of waste treatment management including planning, financial, regulation, operation and maintenance, inter-governmental, and applicability. Also, included is a review of PL 92-500, Section 208 and its applicability to the Phoenix Study Area.

- 14.16 "Base Studies," Region VI Planning and Development Commission.
- 14.17 "Burnt Bridge Creek Drainage Management," Regional Planning Council of Governments, June 1977.
- 14.18 "Continuing Monitoring Program for Areawide Waste Treatment Management Plan," West Alabama Planning and Development Council, June 1977.
- 14.19 "Criteria For Selection of Area-wide Management Plan," First Tennessee-Virginia Development District, July 1977, 12 pages. Identification of the technical and institutional criteria and procedure for the selection of the final plan.
- 14.20 "Criteria for Evaluation Management Arrangements," Indian Nations Council of Governments, Erling Helland Associates, EPA Plan Element 15, January 1978. This working paper describes guidelines for areawide wastewater management agencies, application of guidelines, and worksheets for determination of major responsibilities for 208 management activities. Also included are examples of criteria as developed by other planning agencies. Criteria for the INCOG area water quality management system are presented. Also presented are various tables and matrices reviewing existing agencies; their powers and use thereof; and showing interagency relationships. These are presented as an appendix to M-1.
- 14.21 "Criteria and Rating Procedures for Evaluating Alternative Institutional Fiscal Arrangements in the Assignment of Water Quality Management Functions," Delaware Valley Regional Planning Commission, Government Studies and Systems, May 1977.
- 14.22 "Data Access-Supplement to Users Manual," Nebraska Natural Resources Commission, Nebraska Natural Resources Information System, January 1979.
- 14.23 "Decision Process Analysis," First Tennessee-Virginia Development District, October 1976, 30 pages. Definition of the decision making process and the framework of coordination through which each item requiring a decision will pass.
- 14.24 "Denver Metropolitan Region Environmental Assessment," Denver Regional Council of Governments, 1978.
- 14.25 "Description of Local Government Programs," Baltimore Regional Planning Council.

- 14.35 "Environmental Conditions," West Michigan Regional Planning Commission, Work Element 25.
- 14.36 "Evaluation Criteria for Alternative Institutional Arrangements for Municipal and Industrial Wastewater Residual Processing and Disposal," Delaware Valley Regional Planning Commission, Chester Betz Engineers, draft, March 1977.
- 14.37 "Evaluation of Existing Facilities and Development of Future Operation Strategy," Indian Nations Council of Governments, EEC, EPA Plan Elements 8, 9, 13, 14, and 15, March 1978. Using operational and/or design models for each secondary treatment facility in the planning area, the plants were evaluated in regard to expected effluent BOD for various quantities of waste. Comparison of the expected performance and currently observed effluent data enabled formulation of possible operational and/or design changes which could aid in attaining the required effluent quality. The general insufficiency of existing records on plant performance fostered the recommendation of a centralized monitoring and surveillance program to provide not only the data which is required to be reported to the regulatory agency but also information to guide the day-to-day operation of the treatment facility.
- 14.38 "Existing Water Quality Management System," Southeast Council of Governments, March 1977, 100 pages, \$5.00.

- 14.39 "Existing Water Quality Management and Planning Agencies," First Tennessee-Virginia Development District, December 1976. This report defines the nature and status of water quality agencies in the study area, including service areas, legal authority, responsibility and enforcement power of agencies in the area.

- 14.104 "Memorandum on Criteria for Selection of Areawide Plan," Mid-America Regional Council, Institutional and Financial Products.

- 14.105 "Memorandum on Previous Study Institutional Recommendations," Mid-America Regional Council, Institutional and Financial Products.
- 14.106 "Monitoring Implementation," East-West Gateway Coordinating Committee, Element 28, January 1978. These memos describe monitoring programs and techniques which should be used in the areas of water quality, land use, population change and distribution, and relevant institutional changes. Also included are recommendations for plan implementation including capital improvement programs and financing plans for structural control measures.
- 14.107 "Municipal Facilities," Berkshire County Regional Planning Commission, November 1976.
- 14.108 "New Castle County Automated Environmental Resource (AERI) System," New Castle Areawide Waste Treatment Management Planning Commission, December 1975.
- 14.109 "Nonpoint Sources Pollution Regulations Summarized Report," Maricopa Association of Governments, Boyle Engineering for Corps of Engineers, Phoenix Urban Study, February 1977. The local, state, federal, and Indian regulations affecting nonpoint sources of pollution which are reviewed in this report include: storm water deterioration and control, land use, solid disposal, production and use of pesticides and herbicides, air quality control, construction operations, and street cleaning. Related regulatory information for each nonpoint source is also reviewed.
- 14.110 "Nonpoint Sources Pollution Regulations," Maricopa Association of Governments, Boyle Engineering Corporation for Corps of Engineers, Phoenix Urban Study, January 1977. This report is a compilation of the flood plain, land use, solid waste, disposal, feed lot and manure, littering, air pollution control, and pesticide and herbicide control regulations for Scottsdale, Paradise Valley, Phoenix, Mesa, Chandler, Gilbert, Glendale, Tempe, Buckeye, Arizona Department of Health Services, Environmental Protection Agency, and the Arizona Board of Pesticide Control Board.
- 14.111 "Nonsewered Areas Wastewater Disposal Problems," Southern Kennebec Valley Regional Planning Commission, January 1977, 155 pages. Topics include institutional and financial alternatives.

- XXI. MODELING
- 21.1 "Application and Calibration of the Dynamic Estuary Model (DEM), Mobile Bay, Alabama," South Alabama Regional Planning Commission, January 1978.
- 21.2 "Application of the Call-Three Model to the Lower Fox River to Simulate Wasteload Allocations," Fox Valley Water Quality Planning Agency, February 1977, 300 pages (2 volumes). Topics include: engineering cost estimates to reach BAT levels.
- 21.3 "Computerized Land-Based Data Management System - Description and Instructions for Use," Greater Portland Council of Governments. Topics include computer modeling with IBM 370 computer.
- 21.4 "Consequences of a No-Action Alternative On Urban Nonpoint Pollution in Southeast Michigan," Southeast Michigan Council of Governments, February 1978, 49 pages. This report contains estimates of the increases in pollutant loadings due to urban nonpoint sources from 1975 to 2000. A computerized runoff quality model, SEM-STORM, was used with extensive water quality sampling to provide the estimates.
- 21.5 "Development of Water Quality Modeling Approach for Lakes Region 208 Study," Lakes Region Planning Commission, September 1976.
- 21.6 "Future Lake and Stream Quality, 1977 to 1998," West Michigan Shoreline Regional Development Commission, July 1977, 194 pages.
- 21.7 "Hydrodynamics of Coastal Sussex County Estuaries," Coastal Sussex Water Quality Program, November 1977. Topics include modeling.
- 21.8 "Literature Review and Analysis of Techniques for Identification and Evaluation of Nonpoint Sources of Pollutants," Greater Portland Council of Governments, January 1978. Subjects include modeling.
- 21.9 "Mathematical Water Quality Model of the Prove River through the Heber Valley, Utah," Mountainland Association of Governments, July 1976.
- 21.10 "Model Applications and Nutrient Budget Calculations," Lakes Region Planning Commission, February 1977.

- 21.11 "Modeling Analysis of Water Quality for the INCOG Planning Area," Indian Nations Council of Governments, Hydrosience, Environmental Protection Agency Plan Elements 6 and 7, March 1978. The purpose of this study is to develop methods to evaluate the waste assimilative characteristics of the rivers and streams within the planning area of the Indian Nations Council of Governments during summer periods of low flow. This purpose is accomplished through the use of two approaches: (1) a simplified allocation methodology utilizing charts, tables, and hand calculations, and (2) computerized mathematical models. The simplified methodology is to be used for the evaluation of shallow streams with only a few dischargers. The computer models are developed for several of the more complex water quality problem areas in the INCOG planning area. These approaches have been developed for use by the INCOG staff to determine the effect on streams of various waste treatment plant alternatives. The aim of this report is to document these approaches for analysis of water quality and to provide instructions for their application.
- 21.12 "Modeling Nonpoint Source Pollution in Coastal Sussex County," Coastal Sussex Water Quality Program, November 1977. Topics include using the ARM Model to simulate agricultural and urban land.
- 21.13 "Modeling Report," Lower Rio Grande Valley Development Commission.
- 21.14 "Report on Nonpoint Source Pollution," Greater Portland Council of Governments, January 1978. Topics include: land use loading functions, septic tanks,
- 21.15 "Sewer Analyzer Model," Regional Planning Council.
- 21.16 "Treatment Planning/Costing Model," Indian Nations Council of Governments, C-E Tec/NHPQ, Environmental Protection Agency Plan Elements 8 and 9, February 1978. The interrelationships among the technical elements essential to water quality management planning are described. The performance cost functions of alternatives to meet required levels of treatment were presented in paper No. T-1. This working paper (T-4) documents a model developed by C-E Tec/NHPQ called the Treatment Planning/Costing Model.
- 21.17 "Water Quality Modeling," North-eastern Illinois Planning Commission, May 15, 1976.
- 21.18 "Water Quality Modeling," Snohomish County Planning Department, December 1977, 236 pages.
- 21.19 "Water Quality Modeling and Analysis," Coastal Sussex Water Quality Program, November 1977.
- 21.20 "Water Quality Model for Coastal Sussex County," Coastal Sussex Water Quality Program, November 1976.
- 21.21 "Water Quality Modeling Needs," Berkshire County Regional Planning Commission, June 1976.
- 21.22 "Water Quality Modeling for the Lakes Region 208 Project," Lakes Region Planning Commission, October 1977.
- 21.23 "Water Quality Modeling Program," Indiana Heartland Coordinating Commission, June 1976, 43 pages.
- 21.24 "Water Quality and Quantity Simulation," Ohio-Kentucky-Indiana Regional Council of Governments, November 1975.

- 21.25 "Water Quality Report," Indiana Heartland Coordinating Commission, July 1977, 197 pages. Topics include modeling and sampling.
- 21.26 "Selected Techniques for Development Planning," New Castle County Areawide Waste Treatment Management and Planning Commission, June 1975.
- 21.27 "Data Variable Classifications, New Castle County," New Castle County Areawide Waste Treatment Management Planning Commission, July 1975.
- 21.28 "Capability Mapping as a Means of Improving Environmental Quality," New Castle County Areawide Waste Treatment Management Planning Commission, July 1977.
- 21.29 "Water Quality Modeling," Ark-Texas Council of Governments, December 1977, 54 pages.
- 21.30 "Water Quality Modeling - Hempstead Bay, Middle Bay, East Bay, South Oyster Bay, Long Island, New York," Nassau Suffolk Regional Planning Board.
- 21.31 "Modeling Studies, Interim Report, Series 2," Nassau Suffolk Regional Planning Board, September 1977.
- 21.32 "Memorandum: Progress in Developing Nitrogen Model and Assessment of Nitrogen Sources," Nassau Suffolk Regional Planning Board, September 1977.
- 21.33 "Preliminary: Recharge Model for Nassau and Suffolk Counties," Nassau Suffolk Regional Planning Board.
- 21.34 "A Recharge Model for Nassau and Suffolk Counties," Nassau Suffolk Regional Planning Board.
- 21.35 "Modeling Studies in the Long Island 208 Interim Report," Nassau Suffolk Regional Planning Board, July 1977.
- 21.36 "A Mathematical Water Quality Model for the Chemung River, NYS, Part III, User's Manual," Southern Tier Planning and Development Commission, November 1977, 111 pages. A guide to the study entitled "Pioneer,"
- 21.37 "A Mathetical Water Quality Model for the Chemung River, NYS, Part II, Model Theory and Application," Southern Tier Regional Planning and Development Commission, November 1977, 157 pages. Overview of the results of modeling as well as a detailed description of the Pioneer Code.
- 21.38 "A Mathematical Water Quality Model for the Chemung River, NYS, Part I," Southern Tier Regional Planning and Development Commission, November 1977, 30 pages. A layman's summary of a model, its assumptions and operations, as well as its applicability to the Chemung River Basin.
- 21.39 "User's Manual for the Chemung River Basin Groundwater Model and Associated Auxiliary Codes," Southern Tier Regional Planning and Development Commission, November 1977, 255 pages. Provides detailed instructions on how to set up, run and adjust the groundwater model.
- 21.40 "Groundwater Model Test Cases for the Chumung River Basin 208 Study Area, NYS," Southern Tier Regional Planning and Development Commission, November 1977, 27 pages. Presents results of several test cases run on the Southern Tier Regional groundwater model.

- 21.42 "Draft Model Pretreatment Ordinance," State of New Jersey Department of Environmental Protection.
- 21.43 "Urban Water Quality Modeling for Nonpoint Source Pollution (Phase I)," Illinois Environmental Protection Agency, April 1977.
- 21.44 "Urban Sub-basin Modeling Program," Volusia County Council of Governments.
- 21.45 "Summary of Surface Runoff Modeling Program," Association of Bay Area Governments, February 1977, \$2.00.
- 21.46 "An Assessment of Eutrophication in San Francisco Bay," Association of Bay Area Governments, A.J. Horne and S. McCormick, July 1977, \$5.00.
- 21.47 "Toxicants in San Francisco Bay and Estuary," Association of Bay Area Governments, Bodega Bay Institute of Pollution Ecology, August 1977, \$5.00.
- 21.48 "Characteristics of a Model Water Quality Management System to Meet Requirements of Public Law 92-500," Land of Sky Regional Council, Public Research and Management, Inc., August 1977, 9 pages.
- 21.49 "Water Quality Model," Miami Valley Regional Planning Commission.
- 21.50 "Identify the Critical Weather Conditions and Calibrate Model," Northwestern Indiana Regional Planning Commission, December 1976.
- 21.51 "Select Water Quality Model," Northwestern Indiana Regional Planning Commission, June 1976.
- 21.52 "Adaption of Data Base for Input to Computer Models SWMM Supplement," Northwestern Indiana Regional Planning Commissions, July 1976.
- 21.53 "Water Quality Modeling - Development and Background of the St. Louis 208 Region Water Quality Computer Model," Element 8, East-West Gateway Coordinating Commission, November 1976. A complete survey of work, background, and constraints that went into the development of the St. Louis area water quality computer model. This model takes projected land use and population data and simulates future water quality. The model can then be used to test alternatives, and thus helps develop effective control strategies. Technical aspects of the model and general philosophy, special problems and limitations are discussed in this report.
- 21.54 "Vol. III. Water Quality Assessment," Southwestern Illinois Planning Commission. Discusses program activities in the modeling effort (calibration, sampling program and output analysis).
- 21.55 "Further San Francisco Bay Modeling Results," Municipal/Industrial Dischargers Management Plan - Tech Memo, Association of Bay Area Governments, July 1977, \$2.00.

XXII. OPEN SPACE AND RECREATION

- 22.1 "Areas of Critical Environmental Concern Policy Guidelines," Open Space Planning, Association of Bay Area Governments, May 1976.
- 22.2 "Financing Open Space," Association of Bay Area Governments, 1973.
- 22.3 "How to Implement Open Space Plans for the San Francisco Bay Area," Association of Bay Area Governments, June 1973 (3 volumes). Vol. I: Summary of Implementation Programs and a Proposal for Governmental Organization. Vol. II: Regulation to Conserve Open Space. Vol. III: Acquisition, Taxation and Utility Regulation Affecting Open Space.
- 22.4 "Regional Open Space Plan, Phase II," Association of Bay Area Governments, 1972.

- 22.5 "Recreation and Open Space," Macon-Bibb County Planning and Zoning Commission, January 1974.
- 22.6 "Master Plan for Parks, Recreation and Open Space Macon-Bibb County, Georgia," Macon-Bibb County Planning and Zoning Commission, October 1975.
- 22.7 "Georgia State Comprehensive Outdoor Recreation Plan, 1972," Macon-Bibb County Planning and Zoning Commission, Georgia State University, Environmental Research Group for Georgia Department of Natural Resources, Division of Planning and Research, Narrative Plan, two volumes, December 1972.
- 22.8 "Recreation and Open Space," Macon-Bibb County Planning and Zoning Commission, March 1969.
- 22.9 "Short Range Program for Open Space Acquisition," Northern Middlesex Area Commission, 1972.
- 22.10 "Regional Recreation and Open Space and the Urban Cultural Park--A Report to the Governor's Urban Cultural Park Task Force," Northern Middlesex Area Commission, May 1974.
- 22.11 "Inventory of Historical Open Space and Recreational Assets of the Northern Middlesex Portion of the Middlesex Canal," Northern Middlesex Area Commission, October 1977.
- 22.12 "Open Space and Recreation Plan Summary," Northern Middlesex Area Commission, (MAP), September 1970.
- 22.13 "Recreation Core Study - Second Phase," Northern Middlesex Area Commission, June 1972.
- 22.14 "Recreation and Open Space, Volume 1 Inventory," Northern Middlesex Area Commission, February 1969.

- 22.15 "Preserving Open Space: An Illustration of the Use of Several Partical Acquisition Methods," Northern Middlesex Area Commis-sion, June 1970.
- 22.16 "Regional Goals and Objectives for Open Space and Recreation," Northern Middlesex Area Commis-sion, June 1970.
- 22.17 "Open Space and Recreation," Northern Middlesex Area Commis-sion, September 1970.

- 22.18 "Region III Regional Parks, Recreation, and Open Space Development Plan," Denver Regional Council of Governments, March 1977.

XXIII. PUBLIC PARTICIPATION

- 23.1 "Analysis of Public Hearings," #619-621, Area Planning Board of Palm Beach County.
- 23.2 "Aspen/Pitkin County Population Study-Prepared for the 208 Water Quality Program," Northwest Colorado Council of Governments.
- 23.3 "208 Areadide Water Quality Management Plan Summary," Land-of-Sky Regional Council, 1978, 12 pages with attached questionnaire.
- 23.4 "Areawide Water Quality Manage-ment Program, Section 208, Data Assessments, Segment Descrip-tions, Reports, Waste Source Analysis," Southwest Florida Regional Planning Commission, produced by Environmental Science and Engineering, Inc., \$18.50 per copy.
- 23.5 "208 Areawide Plan," Fifth Plan-nig District Commission, Roanoke Virginia, \$7.50.

- 23.6 "Summary of Participation Program and Adoption/Certification Pro-cess," Appendix 1, Vol. A-E, Hampton Roads Water Quality Agency.

- 23.7 "A Report on Cooperative Popula-tion Forecasting Procedures," Denver Regional Council of Govern-ments, February 1977.

- 23.8 "A Report on Citizen Participation in EDATA's 208 Planning Program," Eastgate Development and Transpor-tation Agency, June 1977.

- 23.9 "The Bellevue Experience: A Study of Social, Political and Environ-mental Action," Municipality of Metro Seattle, 1976, 80 pages. A case study of City of Bellevue efforts to establish a storm water utility highlighting the community participation problem encountered. (Also available in slide format.)

- 23.10 "Citizen Guide to Wastewater," Region I (New England).

- 23.11 "Canal Use Decisions Up to Public," Metropolitan Dade County, Florida.

- 23.12 "ABAG/Citizen Alliance Program Brochure: You Can be Heard...And You Can Help Others Speak Out, Too," Association of Bay Area Governments.

- 23.13 "Citizen Participation in Local Government: A Survey of Experience in the San Francisco Bay Area," Association of Bay Area Govern-ments, May 1975.

- 23.14 "Citizen Participation Program Capsule," Association of Bay Area Governments, October 1974.

- 23.15 "Citizen Participation in 208 Planning," Ventura Regional County Sanitation District.

- 23.16 "Citizen Participation," Lewis and Clark Regional Development Commission. Outlines the public participation program that was used throughout the 208 planning process in the Lewis and Clark region.
- 23.17 "Citizen Participation," Nassau Suffolk Regional Planning Board.
- 23.18 "Citizen Involvement in Environmental Management Planning," New Castle County Areawide Waste Treatment Management Planning Commission, March 1977.
- 23.19 "Citizen Involvement in Environmental Management Planning," New Castle County Areawide Waste Treatment Management Agency, March 1977.
- 23.20 "Citizen and Interest Groups and Government Organization," Toledo Metropolitan Area Council of Governments, June 1976.
- 23.21 "Citizen Involvement in OCPC Planning," Region I (New England), June 29, 1976.
- 23.23 "Citizen's Guide," Illinois Environmental Protection Agency. Contains a general overview of water pollution and its relationship to the 208 program.
- 23.23 "Citizen Participation," Region VI Planning and Development Commission.
- 23.24 "Citizen Participation in Water Quality Planning," East-West Gateway Coordinating Committee, December 1975. Describes the citizen participation function in 208 planning: objectives of the citizen participation aspect of the program, how the citizen will be formed, what the committee's role will be in the water quality planning process at EWGCC. An EWGCC 208 committee organization diagram is provided.
- 23.25 "Citizen and Technical Advisory Committees," Tampa Bay Regional Planning Commission, February 1978, 70 pages.
- 23.26 "Clean Water," Tampa Bay Regional Planning Commission, brochure.
- 23.27 "Clean Water for South Central Michigan: A Citizen's Guide," South-Central Michigan Planning Council, March 1976, 32 pages.
- 23.28 "Clean Water for South-Central Michigan, A Citizens' Guide, Part II: Study Findings and Management Plan," South-Central Michigan Planning Council, June 1978, 32 pages.
- 23.29 "Clean Water Horizons," Illinois Environmental Protection Agency, January 1979. Contains a summary of the 208 plan.
- 23.30 "Clean Water Planning in Illinois," Illinois Environmental Protection Agency, 1 page brochure.
- 23.31 "Clean Water Program Activities," Northeast Michigan Council of Governments, May 1978. Compilation of the Clean Water Program's quarterly activity reports, minutes from advisory meetings, news articles related to clean water, etc.
- 23.32 "Community Involvement in Solution of Water Quality Problems for Lake Fenwick, Forbes Creek and the Duwamish," Municipality of Metropolitan Seattle, January 1978, 60 pages. Summarization of activities and results of three community action projects by the University of Washington aimed at establishing a water quality consciousness and citizen action towards restoring or preserving local water bodies.
- 23.33 "208 Community Attitudes Survey," Pueblo Regional Planning Commission, Pueblo Area Council of Governments 208 Water Quality Program, February 1976.

- 23.34 "Cost of Public Participation in the New Castle County Areawide Waste Treatment Management Program," New Castle County Areawide Waste Treatment Management Agency, November 1975.
- 23.35 "The Detection and Estimation of Suspected Carcinogens and General Water Quality Parameters in the Surface Waters of the Northeast 208 Area," Chapter 3, State of New Jersey Department of Environmental Protection, September 1978.
- 23.36 "Division of State Planning and Community Affairs, Virginia," Rappahannock Area Development Commission, March 1975.
- 23.37 "Documentation of Public Participation," Northwestern Indiana Regional Planning Commission, December 1978.
- 23.38 "Dirty Words," East-West Gateway Coordinating Committee. Developed by EWGCC in coordination with the Southwestern Illinois Metropolitan and Regional Planning Commission (the designated 208 agency for the Illinois side of the St. Louis metropolitan region), these are a series of one-page mailings designed to acquaint citizens with terms and concepts dealing with water quality problems. Mailings were published once a month from January 1976 through March 1977, thus there were 15 volumes. Each volume contains illustrations and definitions of several key words in water quality.
- 23.39 "DRCOG Clean Water Plan," Denver Regional Council of Governments, July 1977.
- 23.40 "Documentation of Public Participation," Association of Central Oklahoma Governments.
- 23.41 "Element 5 - Phase I Workshop Materials," East-West Gateway Coordinating Committee, May 1976. 1) Regional Water Quality Profile - 208: This pamphlet contains a brief review of current and estimated future water pollution problems for the 208 study area. For each county, structural and nonstructural controls for these problems are discussed. 2) Water Uses in the St. Louis Region: A brief description of the water quality required to meet each type of water use, i.e., industrial, domestic, recreational, aesthetic, fishing and transportation water needs, are discussed.
- 23.42 "Element 6 - Phase I Workshop Report," East-West Gateway Coordinating Committee, July 1976. The first St. Louis area workshop, designed to give participants an active role in the 208 process, is described in this report. The process, format, arrangement, an analysis, and an evaluation of the workshop is given. Included in the appendices are the workshop invitation and attendance list, a copy of questionnaires and evaluation forms, and the responses to these also. Information given out at the workshop is included.
- 23.43 "Element 11 - Phase II Nonpoint Source Report," East-West Gateway Coordinating Committee, March 1977. Deals with the identification of and solutions to nonpoint source problems in the St. Louis 208 area. Problem constituents are identified, anticipated sources are estimated and pollution control strategies are developed. Discussion is on a region-wide and county-wide basis.

- 23.44 "Element 15 - Water Quality Profiles," East-West Gateway Coordinating Committee, February 1977. Assembled to assist 208 regional workshop participants in understanding and evaluating the 208 program. One profile for each county was developed (St. Louis City and County combined). Gives a physical description, problem analysis and discussion of point and nonpoint issues, regulatory practices and existing treatment agencies for the counties.
- 23.45 "Element 16 - Workshop II Report," East-West Gateway Coordinating Committee, February 1977. Describes and discusses the second series of workshops held in February 1977, which provided opportunity for public involvement in the 208 planning process. Information on workshop organization, format and workshop evaluations are included. Appendices indicate workshop participants, discussion points, and tabulated results on the evaluation of the alternatives and on results and comments concerning the workshop.
- 23.46 "Element 3 - Background Material, 208 Quality Management Plan," East-West Gateway Coordinating Committee, September 1976. Discusses background information that was generated to describe 208 study area, and the phase I steps necessary to undertake subsequent tasks in the water quality management project. Maps and mapping systems are included for information on land use, population, precipitation, and gauging and stream quality stations. Profiles on issues such as legal authority and public interest groups in the area are provided.
- 23.47 "Environmental Assessment," Northwestern Indiana Regional Planning Commission, March 20, 1978. Summary of NIRPC 208 water quality management plan.
- 23.48 "EWGCC Designating Application," East-West Gateway Coordinating Committee, December 1974. Application to the Governor of Missouri describing, proposing and giving reasons for establishing the Missouri portion of the St. Louis area as a 208 region, and for designating EWGCC as the designated 208 agency.
- 23.49 "Existing Environmental Data Base," Indian Nations Council of Governments, C-E Tec/NHPQ, Environmental Protection Agency Plan Element 3, February 1978. This report provides base line data on the existing environmental conditions of the INCOG 208 area. The report used the INCOG environmental inventory of existing conditions report as a base to build upon. Much of the data is very old and its applicability to existing conditions is suspect. Furthermore, much of the identified data needed to supplement any previous reports were not made available in a timely manner to be incorporated into this report.
- 23.50 "Final Report - Public Participation Program," Area Planning Board of Palm Beach County.
- 23.51 "Fish It, Swim It, Love It...208." Land of Sky Regional Council, Buncombe League of Women Voters, 1977. (1 sheet; 2-fold brochure)
- 23.52 "Flathead Drainage 208 Project for the Future of the Flathead Water Quality, Energy and Water Quality," Flathead 208 Project Planning Commission, 45 pages.

- 23.53 "Flood Warning and Community Action," Publication No. 403, Nebraska Natural Resources Commission, August 1969.
- 23.54 "French Broad River Week '78 - Get Your Feet Wet," Land of Sky Regional Council, 1978. (one sheet; 2-fold brochure)
- 23.55 "French Board Country - The River and the Forests," Land of Sky Regional Council, Asheville-Buncombe League of Women Voters, 1977. (one sheet; 3-fold brochure)
- 23.56 "Generation and Disposal of Sludge, Solid Waste and Controlled Industrial Wastes in the INCOG 208 Study Area," Indian Nations Council of Governments, TCCHD, Environmental Protection Agency Plan Element 11, March 1978. This output addresses requirements of INCOG Work Element VA21 and EPA Interim Output 11 pertaining to sewage sludge disposal in the 208 study. It additionally deals with the generation and disposal of controlled industrial (hazardous) wastes as well as solid waste in the Region. The current state of the art with regard to proper handling and disposal of these materials for insuring environmental protection during these operations, including monitoring procedures and other safeguards, is extensively discussed. Current handling and disposal practices and costs and recommendations for future disposal of sewage sludge are presented along with future generation rates for both sludge and solid waste. Authors: John J. Zima, Jr., Dennis Bergstrom, Debra Sanders and Gary D. Woodruff.
- 23.57 "Guideline for Public Participation in the 208 Planning Program," Berkshire County Regional Planning Commission, May 1976.
- 23.58 "Handbook for Public Involvement in 208 Planning," Atlanta Regional Commission, June 1977. Public participation in the 208 program.
- 23.59 "King County Water Quality Study - A Random Public Opinion Survey," Municipality of Metropolitan Seattle, October 1976, 37 pages. Approximately 1,000 randomly selected households in King County were interviewed for this survey, the purpose of which was to ascertain the public's attitude and awareness with respect to water quality issues in the area.
- 23.60 "Locational Controls for Water Quality for Communities in the Montachusett-Nashua 208 Area," Montachusett Regional Planning Commission, 1977, 31 pages.
- 23.61 "Manual for 208 Citizen Survey Interview," East-West Gateway Coordinating Council, April 1977. Developed as a guide for interviewers participating in EWGCC's 208 citizen survey, this manual explains how EWGCC will evaluate its success in making the public aware of the 208 program and in discovering needs and wants of citizens in regard to water pollution through the survey.
- 23.62 "The Metro Solution - A Study of the Origin and Development of Its Water Quality Enterprise - 1978," Municipality of Metropolitan Seattle, 1978, 40 pages. A synopsis of citizen committee formation and activities, general education/awareness efforts, community meetings, elected official participation and advisory council activities.
- 23.63 "Nondesignated 208 Study Areas, Areawide Water Quality Management Planning, Working Paper Element 5.5, Best Management Practices for New Jersey," Chapter 6, State of New Jersey Department of Environmental Protection, July 1978.

- 23.64 "Northeast 208 Areawide Water Quality Management Planning, Discussion Paper 7.2, Population Projections," Chapter 4, State of New Jersey Department of Environmental Protection, October 19, 1977.
- 23.65 "Organization Policies for 208 Areawide Citizens Committee and Organization Policies for 208 Areawide Policy/Committee," East-West Gateway Coordinating Council, February 1976. Discusses both committees, each established in January 1976. The responsibilities, organizational relationships, powers and memberships on each committee are described.
- 23.66 "PAG-208 Regional Values Analysis," Element 10, Pima Association of Governments, February 1978.
- 23.67 "PAG-208 Plan Public Participation," Element 10, Pima Association of Governments, July 1977.
- 23.68 "Procedure for PAG-208 Environmental Impact Assessment," Pima Association of Governments, Task 4310, October 1976.
- 23.69 "PAG-208 Plan Document," Pima Association of Governments, June 1978.
- 23.70 "208 People Participation Planning," East-West Gateway Coordinating Committee, March 1976. Directed towards the public who have little familiarity with 208 planning, this booklet explains the water quality problems that presently exist and can increase in the future if no planning is done. It explains the Federal Water Pollution Control Act (P.L. 92-500) and how EWGCC was granted funds by EPA to do a St. Louis region 208 study. EWGCC's active 208 public information and involvement programs are described. A form is provided for those who desire to take an active interest in the program.
- 23.71 "Public Hearings Proceedings: MACOG Proposed Water Quality Plan," Michigan Area Council of Governments, April 10-13, 1978.
- 23.72 "Appendix J: Public Hearings Comments Summary," Michigan Council of Governments, 1978.
- 23.73 "Public Hearing Record," East-West Gateway Coordinating Council, January 1975. Details the hearings conducted by the Missouri Department of Natural Resources to decide whether or not to designate the St. Louis area counties located in Missouri as a 208 region and EWGCC as the responsible 208 planning agency.
- 23.74 "Public Hearings and Resolutions of Support," Northeast Michigan Council of Governments, May 1978. Transcripts from the public hearings held on the 208 plan, resolutions of support for the plan received by the 208 program.
- 23.75 "Public Participation Report," Southern Tier Regional Planning and Development Commission, January 1978, 100 pages. Summarizes the public participation efforts that were associated with Southern Tier Commission's 208 program.
- 23.76 "Public Involvement," technical supplement, Columbia Regional Association of Governments.
- 23.77 "Book 1: The Issues and Implications of Water Quality Management; Book 2: A Discussion of Approach to Solving Water Quality Problems; Book 3: A Plan for Water Quality Management," Toledo Metropolitan Area Council of Governments. 208 public involvement booklets.
- 23.78 "Public Participation Summary," Toledo Metropolitan Area Council of Governments, January 1977.

- 23.79 "Public Involvement and Decision-Making Work Program," Pueblo Regional Planning Commission, Burkhard, Vicki J. et al., December 1975.
- 23.80 "Public Law 92-500," Kansas Department of Health and Environment, fact sheet.
- 23.81 "Public Law 92-500 and EWGCC Activities," East-West Gateway Coordinating Council, March 1975. This synthesis of general information summarizes the results of an EWGCC study of the St. Louis 208 area, determines the degree of urbanization and industrial concentration, as well as the water quality problems that exist.
- 23.82 "Public Opinion Survey Results Concerning Water Quality in Ada and Canyon Counties, Idaho," Volume 1 and 2, Ada Planning Association. Vol. 1 - \$3.00; Vol. 2 - \$6.00.
- 23.83 "Public Participation Summary for the Ada/Canyon 208 Program," Ada Planning Association, \$4.00.
- 23.84 "Public Participation Profile," Region I (New England), April 1976.
- 23.85 "208 Public Participation Summary for Bannock and Caribou Counties," Southeast Idaho Council of Governments.
- 23.86 "Public Participation Report," Genesee-Lapeer-Shiawassee Region V Planning and Development Commission, July 1977.
- 23.87 "Task 802-Public Participation Documentation," Southeast Arkansas Regional Planning Commission. To maintain a detailed record of the public participation and advisory committee meetings for the 208 files of the SARPC, ADPC and E Corps of Engineers' (Vicksburg District), and EPA Region VI.
- 23.88 "Public Participation," WP 2.01-2, Delaware Valley Regional Planning Commission, August 1976.
- 23.89 "Public Participation," Central Midlands Regional Planning Commission.
- 23.90 "Public Participation," Hawaii Department of Health, November 1, 1978, 61 pages, technical report.
- 23.91 "Public Participation in the Continuing Planning Process," Southwestern Illinois Metropolitan and Regional Planning Commission, July 1979, 47 pages.
- 23.92 "Public Participation and Planning Coordination: A Process Report," Appendix G, Greater Egypt Regional Planning and Development Commission, November 1978, 101 pages.
- 23.93 "Public Participation Summary," Metroplan, 1979.
- 23.94 "Public Participation Proposal," Delaware Valley Regional Planning Commission, March 1976.
- 23.95 "COWAMP/208 Public Participation Summary (October 1974 - August 1976)," Delaware Valley Regional Planning Commission.
- 23.96 "Public Participation Summary," Houston-Galveston Area Council, March 1978.
- 23.97 "Public Participation," Chapter 18, Tallahassee-Leon County Planning Department.

- 23.98 "Public Participation in the Nonpoint Source Planning Sediment and Erosion/208, 1976 Conference Proceedings," Nebraska Natural Resources Commission.
- 23.99 "Public Participation in Nonpoint Source Planning," Nebraska Natural Resources Commission, November workshops 1977.
- 23.100 "Public Participation Documentation," Indian Nations Council of Governments, C-E Tec/NHPQ, EPA Plan Element 17, April 1978. Contains summary of key 208 Committee meetings which led to recommendations to the INCOG Board for their approval. Also contains interview summaries, needs assessments, and issues list. This report will be available for review in the INCOG office. It is not available for distribution.
- 23.101 "Public Participation Summary," Region 2 Planning Commission, March 1978, May 1978 as amended.
- 23.102 "Chapter X - Public Participation," Chattanooga Area Regional Council of Governments, June 1978, 10 pages.
- 23.103 "Public Participation in the New Castle County Areawide Waste Management Program," New Castle County Areawide Waste Treatment Management Agency, November 1975.
- 23.104 "Publicly Owned Facilities," Region I (New England), March 1977.
- 23.105 "PP-1 Salt Lake County 208 Water Quality Program Public Participation - A Study Guide," Salt Lake Council of Governments, March 1976 (rewrite), 59 pages.
- 23.106 "Slide Show and Script," East-West Gateway Coordinating Committee, April 1976. An in-house project which was presented at meetings, schools, clubs and a national 208 conference, this 12-minute slide show uses approximately 90 slides and is accompanied by a script of a dialogue between two people. The script's content is a discussion of the problems with the water quality in the St. Louis area, the 208 program, and EWGCC's role in trying to solve the water problems through an areawide water quality study. The script is on tape and in written form. The slides for the show are a mixture of cartoons and photos obtained from various sources.
- 23.107 "Small Streams and Salmonoid: A Handbook for Water Quality Studies," Municipality of Metropolitan Seattle, 1977, 222 pages. Intended as a manual for use by secondary level science teachers in introducing water quality and fishery requirements in streams to students.
- 23.108 "Solid Waste Disposal and Its Impact on Water Quality in the Monmouth County 208 Area," State of New Jersey Department of Environmental Protection.
- 23.109 "Staff Notes on the Coalition's Proposal for Citizen Participation in 208 Planning," East-West Gateway Coordinating Committee, July 1975. EWGCC staff ideas on involving St. Louis area citizens in the 208 process are described. Functions of each committee, method of selection and organizational structure are provided.
- 23.110 "Summary of TMACOG 208 Public Forums/Series 2," Toledo Metropolitan Area Council of Governments, March 1976.

- 23.111 "Summary of Public Participation, Vols. I, II, III," Erie and Niagara Counties Regional Planning Boards. Vol. I, April 1978, 573 pages; Vol. II, April 1978, 668 pages; Vol. III, April 1978, 500 pages.
- 23.112 "Summary of Public Hearings and Approval Process," Region 2 Planning Commission, April 1978, June 1978 as amended.
- 23.113 "Summary of Public Hearings: Addendum," Erie and Niagara Regional Planning Board, June 1979, 470 pages.
- 23.114 "Summary of Public Involvement and Addendum, Water Quality Management Plan, Fox River Valley Wisconsin," Fox Valley Water Quality Planning Agency.
- 23.115 "Summary of Public Participation in the 1976-77 208 Program 1978," Municipality of Metropolitan Seattle, 400 pages. A synopsis of citizen committee formation and activities, general education/awareness efforts, community meetings, elected official participation and advisory council activities.
- 23.116 "Summary of TMACOG 208 Public Forums, Series 1," Toledo Metropolitan Area Council of Governments, March 1976.
- 23.117 "Supplement to Technical Report #7: Public Participation in Plan Review and Local Adoption," Central Midlands Regional Planning Commission, February 1979, 104 pages.
- 23.118 "Transcript and Written Testimony of the Public Hearing on July 27, 1978, Before the Governing Board of the Larimer-Weld Regional Council of Governments and the Colorado Water Quality Control Commission," Larimer-Weld Regional Council of Governments, July 1978, 195 pages, \$11.00.
- 23.119 "Vol. 2: Public Comments and Responses," Environmental Impact Statement and 208 Water Quality Management Plan, Cape Cod Planning and Economic Development Commission.
- 23.120 "Volume II. Public Involvement Program," Southwestern Illinois Planning Commission. Documents public participation activities successfully carried out during the initial planning programing, including a section documenting the review and approval process.
- 23.121 "Vol. II. Public Involvement," Southwest Illinois Planning Commission, May 1978. Implementable 208 planning.
- 23.122 "Waccamaw Regional Planning and Development Council 208 Work Plan," Waccamaw Regional Planning and Development Council, October 1975, 250 pages.
- 23.123 "Waccamaw Regional Planning and Development Council, Nonpoint Source Evaluation, Storm Model Calibration," Waccamaw Regional Planning and Development Council, Spring 1978, 325 pages.
- 23.124 "Water Clarity Investigation," Fox Valley Water Quality Planning Agency, April 1977, 30 pages. Topics include: results of public participation.
- 23.125 "Summary of Public Participation," Water Quality Plan Appendix K, Dane County Regional Planning Commission, 1979, 21 pages, \$1.00.

- 23.126 "Water Quality Problem Areas," Indian Nations Council of Governments, C-E Tec/NHPQ, EPA Plan Element 2, December 1977. A major thrust of section 208 planning is the development of wastewater control strategies to resolve existing water quality problems. The objective of this working paper is to present an overall assessment of existing water quality problem areas and to identify potential and possible causes. This assessment will provide interests with an insight into the nature and extent of water quality problems in the INCOG 208 Study Area and will provide a background for subsequent decision making.
- 23.127 "208 Water Quality Management: Areawide Plan, Summary Report," Southwestern Illinois Planning Commission. Describes the plan and the various activities and process involved in its development. Major plan recommendations are discussed.
- 23.128 "208 Water Quality Program Moves Ahead," East-West Gateway Coordinating Committee, October 1976. A one-page sheet briefly describing the methodology to be used in carrying out the 208 water quality project. Citizen participation activities to be accomplished are indicated. Citizen committees to be set up to work with the 208 staff are listed and described.
- 23.129 "208 Water Quality Glossary," East-West Gateway Coordinating Committee, January 1976. A list of key words in the area of water quality, prepared by the Water Quality public information specialists at EWGCC.
- 23.130 "Waterwise Newsletter," Triangle J Council of Governments. A series of public education type newsletters. March 1975 (No. 1); July 1975 (No. 2); October 1975 (No. 3); February 1976 (No. 4); May 1976 (No. 5); August 1976 (No. 6); and February 1977 (No. 7).
- 23.131 "208 Water Quality Management Plan," Knoxville/Knox County Metropolitan Planning Commission, 8 volumes, June 1976. Includes: introduction, environmental setting, nonpoint source assessment (final report and two appendices), water quality analysis (final report and appendices), management system, public participation, summary of recommendations, land development controls.
- 23.132 "Water Quality Recommendations and Public Investment Guidelines," Toledo Metropolitan Area Council of Governments, December 1976.
- 23.133 "208 Water Quality Program Public Participation Study Guide," South-eastern Utah Association of Governments.
- 23.134 "We're Recruiting Members to the Clean Water Team," Tampa Bay Council of Governments, brochure, July 1978.
- 23.135 "Will We Leave Our Children Clean Water?" Land-of-Sky Regional Council, 1978. One sheet, 3-fold brochure.
- 23.136 "Element 16 - Workshop II Report," East-West Gateway Coordinating Council, February 1977. Describes and discusses the second series of workshops held in February 1977, which provided opportunity for public involvement in the 208 planning process.

23.137 "Element 25 - Workshop III Report," East-West Gateway Coordinating Committee, December 1977. The third St. Louis area 208 workshops were designed to receive participants' comments on costs of alternative nonpoint source alternatives and designated management agencies and their responsibilities. These comments will be incorporated into the final 208 plan. Included in the appendices is a list of participants by county, general discussion points by county, and tabulated results of preference and evaluation forms.

XXIV. POINT SOURCES

- 24.1 "Alternative Techniques for Controlling Point Source Water Pollution in the Lakes Region," Lakes Region Planning Commission, July 1977.
- 24.2 "Appendix H: Analysis of Point Source Control Measures, Phase II and III Report," Michigan Area Council of Governments, 1978.
- 24.3 "Areawide and Subarea Treatment Alternatives," First Tennessee-Virginia Development District, March 1978, 37 pages. This report summarizes and compares the point source and residual waste treatment alternatives which have been analyzed and identifies the most promising alternative.
- 24.4 "Assessment of Industrial Point Pollution Sources and Controls," Report #1-3, West Alabama Regional Planning and Development Council, August 1976 - July 1977.
- 24.5 "Attachment J, Arizona's Point Source Management Program," Arizona Office of the Governor, November 1, 1978.
- 24.6 "Control Strategies, Costs and Impacts for Point Sources," Houston-Galveston Area Council, July 1977.

- 24.7 "Control of Water Pollution from Point Sources," Lakes Region Planning Commission, December 1977.
- 24.8 "Characterize Potential Point Sources," Lakes Region Planning Commission, October 1976.
- 24.9 "Characterize Existing and Planned Point Sources," Lakes Region Planning Commission, October 1976.
- 24.10 "Continuous and Intermittent Point Source Wasteload Projections," Central Texas Council of Governments, Killeen-Temple 208 Program, October 1977, 52 pages.
- 24.11 "Diffuse Source Control Legislation (A.B.572)," Nevada Department of Conservation and Natural Resources, March 21, 1979, 6 pages. Legislative mandate for the implementation of diffuse source water pollution control program pursuant to the recommendation of the Water Quality Management Plan.
- 24.12 "Draft Environmental Assessment/ Draft Environmental Impact Statement - Point Source Metro Phoenix Alternatives," Maricopa Association of Governments, Dames and Moore, November 1978.
- 24.13 "Equivalent Heavy Metals Loading Factors; Present Point Source Heavy Metals Loading Rates in the Bay Region 208 Planning Area," Association of Bay Area Governments, February 1977, \$1.00.
- 24.14 "Evaluation and Selection of Areawide and Subarea Plans," First Tennessee-Virginia Development District, April 1978, 24 pages. A summarization of the evaluation process detailing the selected areawide plan for point source and residual waste treatment.

- 24.15 "Final Assessment of Point Source Problems and Basic Methods of Waste Management," Ventura Regional County Sanitation District.
- 24.16 "Final Point Source Alternative," East-West Gateway Coordinating Committee, December 1977, four volumes. The final point source alternatives have been defined by cost and effectiveness analysis in this report. The alternative description, engineering specifications, source areas, and cost for point source controls are listed.
- 24.17 "Final Report on Environmental Assessment," (point source products), Mid-America Regional Council.
- 24.18 "Identification of Management Agencies for Point Source Treatment and Financial Arrangements," Land-of-Sky Regional Council, Public Research and Management, Inc., February 1978, 55 pages.
- 24.19 "Identify and Screen Alternative Point Source Controls," Lakes Region Planning Commission, September 1976.
- 24.20 "Impact of Point Sources on Receiving Water," Volusia County Council of Governments, technical report.
- 24.21 "Industrial Point Sources," Section E, Chapter 2, South Dakota Department of Environmental Protection.
- 24.22 "Inventory of Industrial and Municipal Point Source Discharges," Ark-Texas Council of Governments, August 1977, 146 pages.
- 24.23 "Initial Industrial Source Planning," Berkshire County Regional Planning Commission, July 1976.
- 24.24 "Inventory of Point Sources," State of New Jersey Department of Environmental Protection.
- 24.25 "Memorandum on Review and Selection of Water Quality Model," (point source products), Mid-America Regional Council.
- 24.26 "Memorandum on Calibration of Water Quality Model," (Point source products), Mid-America Regional Council.
- 24.27 "Memorandum on Evaluation of Present Treatment and Deficiencies," (point source products), Mid-America Regional Council.
- 24.28 "Memorandum on Criteria for Selection of Areawide Plan," (point source products), Mid-America Regional Council.
- 24.29 "Methodology to Assess Impact of Point Source Discharges on Water Quality," Southwestern Pennsylvania Regional Planning Commission.
- 24.30 "Municipal Point Sources," Section E, Chapter 1, South Dakota Department of Environmental Protection.
- 24.31 "Municipal Point Wastewater Source Problems/Analysis," Erie Niagara Counties Regional Planning Commission, December 1977, 118 pages.
- 24.32 "Municipal Point Wastewater Source Problems/Analysis," Erie and Niagara Counties Regional Planning Commission, January 1979, 119 pages.
- 24.33 "Municipal Point Source Analysis-Urban Triangle Area of the Larimer-Weld Region," Larimer-Weld Regional Council of Governments, March 1978, 32 pages, \$2.50.
- 24.34 "Chapter IV - Municipal Point Source Areawide Plan," Chattanooga Area Regional Council of Governments, March 1978, 18 pages.

- 24.35 "Municipal Waste Treatment Needs and Point Source Alternatives," South Carolina Appalachian Council of Governments, June 1978.
- 24.36 "Phase II Municipal and Industrial Point Source Report," East-West Gateway Coordinating Committee, March 1977. All municipal, institutional, commercial, private, and industrial facility discharges are located. Point source wastewater and treated effluent loadings are developed to determine the effect on existing point sources on receiving waters. Land use and population projections are used for analyzing anticipated future point source discharges. Preliminary alternative point source control plans are developed.
- 24.37 "Municipal and Industrial Non-structural Control Measures," East-West Gateway Coordinating Committee, June 1977. Nonstructural control measures related to municipal and industrial point sources to be studied in greater detail are identified. Topics covered include rural wastewater treatment systems, industrial pretreatment standards rate structures, phosphates, water conservation, garbage grinders and public information.
- 24.38 "Municipal, Industrial, and Agricultural Point Sources," Kansas Department of Health and Environment.
- 24.39 "Municipal and Industrial Control Measures," East-West Gateway Coordinating Committee, June 1977. Structural Control Measures for dealing with point source pollution are presented. Each of the systems remaining for further study and analysis are identified and explained. Advantages and disadvantages of the alternative systems are presented.
- 24.40 "Narrative Discussion of Point Source Work Element, Municipal and Industrial Discharges," South Alabama Regional Planning Commission, October 1977.
- 24.41 "Point Source Inventory and Analysis," Appendix C Water Quality Plan, Dane County Regional Planning Commission, 1978, 96 pages, \$3.00.
- 24.42 "Point Sources," Greater Egypt Regional Planning and Development Commission, March 1978. Topics include compilation of impacts of point sources in the planning area.
- 24.43 "Point Source Cost Effective Analysis," Region VI Planning and Development Commission.
- 24.44 "Point Source Control Options," West Michigan Regional Planning Commission.
- 24.45 "Point and Nonpoint Source Management Agency Designation (MAD) Forms," Work Element 220 thru 265, Appendix B, West Florida Regional Planning Commission, February 1978.
- 24.46 "Point Source Inventory," Region 2 Planning Commission, Chester Betz Engineers and Water Resources Engineers, September 1976, May 1978, as amended.
- 24.47 "Point Source Management Systems," Delaware Valley Regional Planning Commission, Chester Betz Engineers, May 1977.

- 24.48 Unnumbered Products, Toledo Metropolitan Area Council of Governments. Appendix: A-Point Source Inventory; B-Stream Segment Planning Areas: Record of Water Quality; C-Land Resource Information Systems (LRIS); D-Maumee River Report; E-Institutional Analysis: (1) Federal Programs Impacting Regional Water Quality Management; (2) State Agencies Impacting Regional Water Quality Management; (3) Past and Present Intergovernmental Cooperation in the TMACOG Region; (4) Legal Critical Factors Analysis; (5) Financial Critical Factor Analysis; (6) Existing Institutional Framework in the TMACOG Region: A Profile of 15 Agencies; F-Land Use-Water Quality Analysis; G-The Region as Natural Process; H-The Region as Human Process; I-Internal Working Documents; J-Related Studies. Executive Summary, Baseline Report, July 1976.
- 24.49 "Point Source Inventory Report," Genesee-Lapeer-Shiawassee Region V Planning and Development Commission, June 1977.
- 24.50 "Task 202 - Point Source Pollution Inventory and Problem Identification," Southeast Arkansas Regional Planning Commission. To identify municipal, industrial and agricultural point sources within pertinent information describing the quantity and quality of the effluent and type of treatment and potential problem areas by stream segments.
- 24.51 "Point Source Dischargers," Tri-County Regional Planning Commission, January 1977, Revised June 1977.
- 24.52 "Point Source Inventory," Central Arizona Association of Governments.
- 24.53 "Point Source and Domestic Sewage Analysis," Central Arizona Association of Governments, (208/532-42-45-46-48).
- 24.54 "Point Source Problem Identification," Association of Central Oklahoma Governments, March 30, 1977.
- 24.55 "Point Source Analysis Inventory, Water Demands and Problem Area Identification and Map Supplement," Houston-Galveston Area Council, July 1977.
- 24.56 "Volume IV. Point Source Control," Southwestern Illinois Planning Commission. Documents point source research and analysis activities during initial planning program which support plan recommendation; addresses municipal, private and industrial point source, and residual waste disposal.
- 24.57 "Point Source Report," Arkhoma Regional Planning Commission. Existing point sources, projected waste loads, and control alternatives, including cost and impact analysis. (An addendum to the point source report updating cost information was completed in December 1978.) \$20.00.
- 24.58 "Vol. II: Point Source, Nonpoint Source, Institutional Management Subplans," Pueblo Regional Planning Commission, June 1977.
- 24.59 "Point and Nonpoint Source State-wide Review," Section E, South Dakota Department of Environmental Protection.
- 24.60 "1975 Point Source Discharge Data for Bay Region 208 Planning Area," (superseded by tech memo no. 15 and 18), Association of Bay Area Governments, March 1977, \$1.00.

- 24.61 "Point Source Control," Volume IV, Southwestern Illinois Planning Commission. Documents point source research and analysis activities during initial planning program which support plan recommendations--address municipal, private and industrial point source, and residual waste disposal.
- 24.62 "Point Source Inventory," Northwestern Indiana Regional Planning Commission, November 1976.
- 24.63 "Point Sources," Kansas Department of Health and Environment, fact sheet.

- 25.126 "Stream Classification (with map) Delineation of Service Areas - Status of 201 Planning," Atlantic County Planning Division, September 1978.
- XXVI. SALTWATER INTRUSION
- 26.1 "Salt Intrusion Into Groundwater," Association of Bay Area Governments, June 1977, \$1.00.
- 26.2 "Existing and Potential Seawater Intrusion Problems, Oxnard Plain of Ventura County," Ventura Regional County Sanitation District.
- 26.3 "History of Seawater Intrusion on the Oxnard Plain," Ventura Regional County Sanitation District.
- 26.4 "Assessment of Seawater Intrusion for Projected Land Use Alternatives," Ventura Regional County Sanitation District.
- 26.5 "Alternative Seawater Intrusion Control Methods and Impact Analysis, Oxnard Plain of Ventura County," Ventura Regional County Sanitation District.
- 26.6 "Preliminary Evaluation Phase - Pawtuxet River Basin," Rhode Island Statewide Planning Program.
- XXVII. SEDIMENTATION AND EROSION
- 27.1 "Summary of Data Analysis on Sediments and Benthic Invertebrates from Certain Massachusetts Rivers," Boston Metropolitan Area Planning Commission, September 1977.
- 27.2 "Preliminary Sedimentation at Deer Island," Boston Metropolitan Area Planning Council, February 1977.

- 27.3 "Construction, Agriculture and Sedimentation," Boston Metropolitan Area Planning Commission, June 1977.
- 27.4 "Handbook on Erosion and Sedimentation Control," Montachusett Regional Planning Commission, Cooperative Extension Service, University of Massachusetts, 1976, 73 pages.
- 27.5 "Pollutant Accumulation and Sedimentation Problems/Analysis," Erie and Niagara Regional Planning Board, January 1979, 63 pages.
- 27.6 "Pollutant Accumulation and Sedimentation Problems/Analysis," Erie and Niagara Counties Regional Planning Board, December 1977, 50 pages.
- 27.7 "Report on Facilities Planning Update, Urban Runoff and Storm Drainage, Sedimentation and Erosion, and Sludge Disposal," Southern Kennebec Valley Regional Planning Commission, September 1976, 22 pages.
- 27.8 "Sediment and Erosion Survey of Cumberland County," Greater Portland Council of Governments, January 1978.
- 27.9 "Report on Nonpoint Source Pollution," Greater Portland Council of Governments, January 1978. Topics include land use loading functions, septic tanks, modeling, sediments, stormwater runoff.
- 27.10 "SCS - Sediment Erosion Report," Baltimore Regional Planning Council.
- 27.11 "Sediment Oxygen Demand," Northeastern Illinois Planning, January 1978.
- 27.12 "Two Methods for Reducing Sediment Oxygen Demand in Sediment Deposits in Lower Fox River," Fox Valley Water Quality Planning Agency, October 1977, 20 pages. Topics include feasibility study of river rehabilitation, effort of dredging on sediment oxidation.
- 27.13 "Sediment Source Commercial and Industrial Areas and Delivery Rate Study," Fox Valley Water Quality Planning Agency, February 1978, 80 pages. Topics include literature review, comparison of methods for testing water-yield and sediment-yield.
- 27.14 "State Control in Sedimentation in Indiana," Indiana Heartland Coordinating Commission, August 1977, 18 pages.
- 27.15 "Windham Soils Report," Southern Rockingham Regional Planning District Commission, June 1975, 35 pages.
- 27.16 "Farmer's Attitudes Concerning Soil Erosion and Its Control," Illinois Environmental Protection Agency, June 1977.
- 27.17 "Erosion and Sediment Delivery," Region I (New England), February 1977.
- 27.18 "Sediments and Benthic Invertebrates from the Ipswich, Charles, Assabet, Sudbury and Neponset," Region I (New England).
- 27.19 "Erosion Sedimental and Runoff Non-point Source," Region I (New England), December 1976.
- 27.20 "Assessing Historic Meteorological Data and Dylining Erosion Index Periods and Distribution for Non-point Source Loading Evolution (An Interim Output Report)," South Carolina Department of Health and Environmental Control, May 15, 1978.

- 27.21 "Scope of Soil Erosion Problems in Atlantic County," Atlantic County Planning Division, May 1977.
- 27.22 "Sediment Yields Resulting from Land Use Activities in Routt County," Northwest Colorado Council of Governments.
- 27.23 "Sediment and Pollution from Cropland," Kansas Department of Health and Environment, fact sheet.
- 27.24 "Construction Erosion," Kansas Department of Health and Environment, fact sheet.
- 27.25 "Construction Erosion," Kansas Department of Health and Environment, technical report.
- 27.26 "Construction Erosion," Kansas Department of Health and Environment, management report.
- 27.27 "Las Vegas Wash - Interim Report 2," Clark County 208, September 1977. Provides engineering-scientific analyses of the botanical, hydrologic and erosion-sedimentation phenomena of Las Vegas Wash. The report addresses the technical problems defined in Interim Report No. 1.
- 27.28 "Wastewater and Wetlandscape," Southwest Florida Regional Planning Commission, prepared by the Center for Wetlands, University of Florida, July through December 1976, \$7.40 per copy, without appendix, maps.
- 27.29 "Rural Runoff Task, Erosion and Sedimentation, A Preliminary and Detailed Evaluation," Rhode Island Statewide Planning Program.
- 27.30 "Erosion and Sedimentation-Development of Alternatives," Rhode Island Statewide Planning Program.
- 27.31 "Soil Erosion and Sediment in Missouri," Missouri Department of Natural Resources, guide sheet, 4 pages.
- 27.32 "Impact of Continued Soil Erosion," Missouri Department of Natural Resources, guide sheet, 2 pages.
- 27.33 "Soil Erosion Control Practices," Missouri Department of Natural Resources, guide sheet, 4 pages.
- 27.34 "Discussion of SDCL-8A, Soil Erosion and Sediment Damage Control Act," Section E, Chapter 3, South Dakota Department of Environmental Protection.
- 27.35 "Erosion and Sedimentation Problems as They Relate to Vermont Backroad Construction and Maintenance," Vermont Department of Environmental Water Resources, 1978, 23 pages. Assessment of backroads erosion in Vermont, including discussion of evaluation process, roles of district highway engineers and town road commissioners, state agency concerns, existing data and recommendations.
- 27.36 "The Vermont Backroad Handbook: Erosion Control," Vermont Department of Environmental Water Resources, 1978. Includes procedures for construction and major alteration: construction plans, erosion control practices and devices, termination of work before project completion, and maintenance. Vegetative erosion control methods: steps in establishing vegetation, seeding, incorporating seed into soil, mulching the seed bed, tracking, grading, topsoiling, fertilization, and liming; and structural erosion controls: benching, diversions, diversion ditches, slop drains, check dams, filter berms, stilling ponds, rip-rap and stone fill, and sub-surface drains.

- 27.37 "A State Water Quality Plan for Controlling Erosion from Backroads," Vermont Department of Environmental Water Resources, 1979, 7 pages. Draft of 208 backroads plan. Includes assessment of backroads erosion problem, recommendations of consultants, and an interagency agreement between the Agency of Environmental Conservation and the Agency of Transportation for establishing a backroads erosion control strategy.
- 27.38 "Guides for Controlling Soil Erosion and Stream Pollution on Logging Jobs in Southern Vermont," Vermont Department of Environmental Water Resources, 1978, 23 pages. Pocket-sized booklet for loggers and landowners containing "Best Management Practices" in the form of non-mandatory erosion control guidelines. Also included are sections on Vermont laws and regulations affecting logging operations and sources of technical assistance.
- 27.39 "Draft Interim Report - Erosion and Sediment Control," New Hampshire Water Supply and Pollution Control Commission, October 1978.
- 27.40 "Predicting Rainfall Erosion Losses from Cropland East of the Rocky Mountains," Handbook No. 282, Rappahannock Area Development Commission, May 1965.
- 27.41 "Virginia Erosion and Sediment Control Handbook," Rappahannock Area Development Commission, April 1974.
- 27.42 "Sediment Criteria for the Protection and Maintenance of Aquatic Life," Delaware Valley Regional Planning Commission, Aquatic Ecology Association, April 1977.
- 27.43 "Erosion and Sediment Control Alternatives," AMBAG Policy Paper #9, Association of Monterey Bay Area Governments, 1977.
- 27.44 "Erosion and Sediment Control Alternatives," AMBAG Technical Report, Association of Monterey Bay Area Governments, 1977.
- 27.45 "AMBAG Erosion and Sediment Information Sources," Appendix A to Technical Report, Association of Monterey Bay Area Governments, 1978.
- 27.46 "Erosion Control in Relation to Watershed Management," Macon-Bibb County Planning and Zoning Commission, Journal of Irrigation and Drainage Division, 1968.
- 27.47 "Calculation of Nonpoint Source Sediment Loading," Southwestern Pennsylvania Regional Planning Commission.
- 27.48 "Erosion and Sediment Yield Study," Sixth District Council of Governments, by Soil Conservation Service.
- 27.49 "Guide to Urban Sediment Control," Ohio-Kentucky-Indiana Regional Council of Governments, 1978.
- 27.50 "Model Soil Erosion and Sedimentation Control Ordinance," Southwestern Illinois Metropolitan and Regional Planning Commission, October 1978, 48 pages.
- 27.51 "Suspended Sediment From Truck Traffic on Forest Roads - Meadow and Coal Creeks," Washington Department of Ecology, March 1979, 33 pages.
- 27.52 "Suspended Sediment Transport and Forest Road Construction - Wildhorse Creek, Kalama River Basin," Washington Department of Ecology, March 1979, 40 pages.

- 27.53 "Forest Road Construction and Suspended Sediment, Campbell Creek - Skagit River Basin," State of Washington Department of Ecology, March 1979, 30 pages.
- 27.54 "Erosion and Sediment Control Guide for Guam," Guam Environmental Protection Agency, May 1977, 137 pages. A guide designed for contractors and developers.
- 27.55 "A Sediment Reduction Program for the U.S. Virgin Islands," Virgin Islands Department of Natural Resources, Dr. O.K. Buros, January 1979, 115 pages.

XXVIII. SEPTIC SYSTEMS

- 28.1 "Septic Tank and Cesspool Operation and Maintenance," Old Colony Planning Council, 1977. Briefly explains what a septic system is, why it fails, and how to prevent failure (one-page flyer).
- 28.2 "Septic Systems and Groundwater Quality: A Literature Survey," New Castle County Areawide Waste Treatment Management Planning Agency, June 1978.
- 28.3 "Analysis of the Impact of Septic Systems on the Surface of Groundwater in Acton, Mass.," Boston Metropolitan Area Planning Council, June 1977.
- 28.4 "Septic Systems: How They Work and How to Keep Them Working," Southeastern Regional Planning and Economic Development Commission, April 1977, 13 pages.
- 28.5 "Investigation of Septic Leachate Discharges into Winona Lake, Lake Winnepesaukee and Ossipee Lake," Lakes Region Planning Commission, October 1977.
- 28.6 "Septic Tank Study," Fox Valley Water Quality Planning Agency, February 1978, 50 pages. Topics include inventory of unsewered homes within watershed of Winnebago Lake; estimates of pollution from this source.
- 28.7 "Coliform Bacteria Loadings and Dynamics," Coastal Sussex Water Quality Program, November 1977. Topics include septic systems, modeling.
- 28.8 "Regional Septage Disposal Alternatives," Boston Metropolitan Area Planning Council, December 1977.
- 28.9 "Analysis and Estimation of Discharges from Waterfront Septic Tanks, Tidal Marshes, and Recreational Boating," Coastal Sussex Water Quality Program, May 1977.
- 28.10 "Part VI - Appendix A: Sewerless Methods of Household Waste Disposal," West Michigan Shoreline Regional Development Commission, Summer 1977, 35 pages.
- 28.11 "Septic Tank Study," Blue Ribbons of the Big Sky Country.
- 28.12 "Septage Management in the Southern Rockingham Region," Southern Rockingham Regional Planning District Commission, October 1976, 40 pages.
- 28.13 "The Impact of Unsewered Development on Water Quality," Genesee-Lapeer-Shiawassee Region 5 Planning and Development Commission, April 1978. Topics include septic tanks.
- 28.14 "Septic Tank-Leach Field Systems," Southern Rockingham Regional Planning District Commission, 1976.
- 28.15 "A Homeowner's Guide to Septic Tanks," Southwest Florida Regional Planning Commission, \$1.00.

- 28.16 "Local Options for Controlling Pollution from Septic Tanks and Stormwater Runoff," Central Massachusetts Regional Planning Commission, March 1977.
- 28.17 "Septic Tank Practices; A Guide to the Conservation and Re-use of Household Wastewaters," Montachusett-Nashua Areawide Water Quality Management Plan, Peter Warshall, 1977, 76 pages.
- 28.18 "Septage Disposal Within Berkshire County 208 Area," Berkshire County Regional Planning Commission, July 1976.
- 28.19 "On-Site Sewage Disposal and Septage Handling in Central Mass.," Central Massachusetts Regional Planning Commission, November 1977.
- 28.20 "Septic Systems - A Case Study," New Castle County Areawide Waste Treatment Management Planning Commission, August 1977.
- 28.21 "Early Action Study of Effect of Septic Tanks on Areawide Water Quality," Comprehensive Planning Organization of San Diego Region, November 1977, 28 pages. The study finds that septic tanks do not constitute a significant areawide water quality control problem in the San Diego Region because of their small contribution of water and salts to groundwater basins. Recommendations are made for changes to San Diego County administrative practices including a public information program on the periodic maintenance of individual systems to prolong their useful life.
- 28.22 "Septic Tank Management Legislation," State of New Jersey Department of Environmental Protection.
- 28.23 "Individual Wastewater Project Task A Report: Overview of Septic Tank Usage and Problems," Triangle J Council of Governments, June 1978, 73 pages.
- 28.24 "General Education Pamphlet: Getting to Know Your Septic System," Triangle J Council of Governments, October 1979.
- 28.25 "Septage Management," Region I (New England), October 15, 1976.
- 28.26 "Septage Disposal," Region I (New England), July 16, 1976.
- 28.27 "A Statement Overview of Septage Management in Vermont," Region I (New England).
- 28.28 "Strategies for Septage Management," Region I (New England), August 8, 1977.
- 28.29 "Septage and Sewage Treatment Plant Sludge Disposal," Region I (New England), December 1976.
- 28.30 "Septic Systems; How They Work and How to Keep Them Working," Region I (New England), April 1977.
- 28.31 "The Failing Septic System," Wisconsin Department of Natural Resources. A look at septic system problems in Wisconsin and what both the government and homeowners can do to solve them.
- 28.32 "Septic System Management Legislation," Chapter 5, State of New Jersey Department of Environmental Protection.
- 28.33 "Land Capability for Suitability for Septic Tank Installation and Erosion Hazard Rating, Flathead Drainage Montana," Flathead 208 Project Planning Agency, September 1976, 63 pages.

- 28.34 "Thermal Dischargers," Northwestern Indiana Regional Planning Commission, September 1976.
- 28.35 "Develop Options for the Control and Reduction of Pollution from Septic Systems/Development Alternative Basinwide Subplans for Septic Tank Systems," Northwestern Indiana Regional Planning Commission, October 1977.
- 28.36 "Review of City of Wilmington Interceptor System," New Castle County Areawide Waste Treatment Management Commission, June 1976.
- 28.37 "Septic Tank Systems - The Problem and Possible Solution," Association of Bay Area Governments, February 1977, update May 1977, \$1.00.
- 28.38 "Septic Tanks," Section E, Chapter 8, South Dakota Department of Environmental Protection.
- 28.39 "Septic Tank Systems Management," Lane Council of Governments, draft, September 1977.
- 28.40 "Septic Systems - How They Work and How to Keep Them Working in Vermont," Vermont Department of Environmental Water Resources, 1978, 17 pages. A public information booklet describing and illustrating basic principles of septic system operation and maintenance. Covers household sewage, the septic system, the septic tank, the leaching system, locating septic systems, identifying septic system failure, predicting and preventing system failure, septic tank pumping, repairs, and assistance.
- 28.41 "Septage Management Strategies for Vermont," Vermont Department of Environmental Water Resources, 1978. Prepared in four parts: (1) A Statewide Overview of Septage Management in Vermont, 41 pages. (2) Technical Alternatives for Septage Treatment and Disposal in Vermont, 93 pages. (3) Legal and Institutional Perspective on Septage Management in Vermont, 43 pages. (4) Septage Management in Vermont: Case Studies and a Statewide Strategy, 55 pages.
- 28.42 "Septage, What Vermont Should Do About It," Vermont Department of Environmental Water Resources, 1978, 22 pages. A summary report, for the general public, of the 208 Project, "Septage Management Strategies for Vermont. Printed in booklet form, the topics include homeowner septage problems, the septage hauler, safe disposal of septage, responsibilities of local and state governments and recommendations to decision-makers.
- 28.43 "A State Water Quality Plan for Septage Management," Vermont Department of Environmental Water Resources, 1978, 9 pages. Final 208 plan for septage management in Vermont. Evaluates state septage management problems, reviews septage studies contracted by the 208 program, includes an evaluation of options considered and the proposed 208 management plan.
- 28.44 "Identify Areas with Possible Septic Tank Failures," Region I (New England), June 1976.
- 28.45 "Renovation of Septic Tank Effluent Through the Soil," Region I (New England), December 1976.
- 28.46 "Field Survey of State Approved Septic Systems," New Hampshire Water Supply and Pollution Control Commission, December 1977.

- 28.47 "Field Survey of Septic Systems Installed Prior to 1967," New Hampshire Water Supply and Pollution Control Commission, January 1979.
- 28.48 "Septage Handling in New Hampshire," New Hampshire Water Supply and Pollution Control Commission, January 1979.
- 28.49 "Septic Systems - A Case Study," New Castle County Areawide Waste Treatment Management Agency, August 1977.
- 28.50 "Septic Systems and Groundwater Quality: A Literature Survey," New Castle County Areawide Waste Treatment Management Agency, June 1978.
- 28.51 "Task 2.3: Identify Areas With Possible Septic Tank Failures," Cape Cod Planning and Economic Development Commission, 1977.
- 28.52 "Regulatory Techniques by Water Mass Towns May Prevent Pollution of Their Ponds From Septic," Region I (New England), March 3, 1977.
- 28.53 "Interim Output: Acceptable Septic System Density Levels," Sussex County Water Quality Management Project.
- 28.54 "Interim Output: Septic Failure Rates for 16 Locations," Sussex County Water Quality Management Project.
- 28.55 "Early Action Program: Septic Tank Systems," Comprehensive Planning Organization of San Diego County, A description of the efforts of self-regenerating types of water softeners on the quality of sewage effluent case on a sample study of the Tierrasanta area of San Diego City, and recommendations for regulatory and other programs in areas where wastewater reclamation is being considered.
- 28.56 "Septage Disposal," Delaware Valley Regional Planning Commission, Chester Betz Engineers, December 1977.
- 28.57 "Septic Tank Maintenance and Permit Program," Delaware Valley Regional Planning Commission, Chester Betz Engineers, December 1977.
- 28.58 "Nutrient Movement Through Soils from Septic Systems," South Central Michigan Planning Council, April 10, 1978, 21 pages.
- 28.59 "Technical Handbook for Septic Drainfield Installation," South Central Michigan Planning Council, May 19, 1978, 27 pages.
- 28.60 "Septic System Pollution Control Alternatives," AMBAG Policy Paper #8, Association of Monterey Bay Area Governments, 1977.
- 28.61 "Soil Suitability Related to the Performance of Subsurface Disposal Systems," Region I (New England), December 1976.
- 28.62 "Missouri Homeowners Guide to Septic Tank Use," Missouri Department of Natural Resources, 14 pages.
- 28.63 "Manual of Septic System Maintenance," Southeastern Regional Planning and Economic Development Commission, Albert Babaur and Steve Reckhow, September 1979. Includes health practices and regulations in one community.
- 28.64 "Environmental Impacts of Septic Systems," New Castle County Areawide Waste Treatment Management Agency, July 12, 1978.
- 28.65 "Septic System Problems on the Urban Fringe," New Castle County Areawide Waste Treatment Management Agency, October 1978.

- 28.66 "Septic System Problems on the Urban Fringe," Water Resources Agency for New Castle County, D.R. Goehring and F.R. Carr, October 1978.
 - 28.67 "Environmental Impacts of Septic Systems," Water Resources Agency for New Castle County, Darryl R. Goehring, July 12, 1978.
 - 28.68 "Citizen's Guide to Water Pollution Control Permits for Septic Tanks and Public Sewer Connections," Guam Environmental Protection Agency, June 1979, 10 pages.
- XXIX. SEWERS
- 29.1 "Major Sewage Treatment Plans in the Washington Metropolitan Area," Washington Council of Governments, January 1978. An inventory of the major sewage treatment plants in the region, including information on effluent limitations, treatment methods, and operation and maintenance costs.
 - 29.2 "Final Report to the Northern Jefferson County Sewer Districts: A Reference Guide for New Public Sewer District," East-West Gateway Coordinating Council, Dale P. Swobeda, August 31, 1979, 125 pages.
 - 29.3 "Sewage Treatment in Unincorporated Areas: Focus on Regional Sewer Districts," Indiana Heartland Coordinating Council.
 - 29.4 "The Who, What, When, Where, Why and How of WOW (Watch Our Wastewater)," Maricopa Association of Governments, December 1978. Topics include sewer lines and treatment plants.
 - 29.5 "Sewage Loan and Flow Factors," Metroplan, 1978.
 - 29.6 "Guidelines for Assistance Alternative Sewage Treatment Systems," Southwestern Illinois Metropolitan and Regional Planning Commission, June 1979, 18 pages.
 - 29.7 "Pollution Control Systems Report," Element 20, 21: Task Report G, East-West Gateway Coordinating Council, July 1977. A description of public and private service areas and the needed sewer service actions are detailed.
 - 29.8 "Home Sewage Disposal," Pennsylvania State University.
 - 29.9 "Water and Sewer Services," Sixth District Council of Governments, prepared by Wilbur, Smith and Associates, 1973.
 - 29.10 "Comprehensive Plan - Water and Sanitary Sewer Systems," Macon-Bibb County Planning and Zoning Commission, 1970.
 - 29.11 "Brush Creek Technical Report," East-West Gateway Coordinating Council, December 1976. This report, researched on request, deals with alternative sewage management arrangements for the Gray Summit area.
 - 29.12 "Study of Malodorous Compounds in the Area of the Southside Sewage Treatment Plant," Association of Central Oklahoma Governments, April 20, 1977.
 - 29.13 "Nonpoint Source Structural Control Measures," Element 21: Task Memo, East-West Gateway Coordinating Council, June 1977. A discussion of the control of urban runoff from combined sewer areas and the level of treatment required are presented.
 - 29.14 "Summary Report Water and Sewer Planning Workshops," Toledo Metropolitan Area Council of Governments, March 1976.

- 29.15 "Growth Stimulation Study, An Analysis of Sewerage System Development and Residential Construction," Delaware Valley Regional Planning Commission, Chester Betz Engineers, May 1977.
- 29.16 "Sewerage Line Costs and Sewage Treatment Lagoon Costs," Five County Association of Governments.
- 29.17 "Draft Sewerage Regulations," Rappahannock Area Development Commission, March 1975.
- 29.18 "Draft Sewerage Regulation," Rappahannock Area Development Commission, Commonwealth of Virginia.
- 29.19 "Report, Town of Bowling Green, Virginia, Sanitary Sewerage Facilities," Rappahannock Area Development Commission, May 1974.
- 29.20 "Water and Sewerage Study for King George County," Rappahannock Area Development Commission.
- 29.21 "WQ-5 Field Sampling and Analysis of Water Quality in the Sewage Canal," Salt Lake Council of Governments, May 1976 (reprint), 81 pages.
- 29.22 "Sewer and Water Facilities in the Northern Middlesex Area Short Range Priority Program," Northern Middlesex Area Commission, June 1972.
- 29.23 "Sewer/Water Preferred Long Range Plan," Northern Middlesex Area Commission, January 1972.
- 29.24 "Regional Utilities, Vol. 2 - Alternative Plans for Sewer and Water Facilities," Northern Middlesex Area Commission, July 1969.
- 29.25 "Regional Utilities, Preliminary Report on Sewerage and Pollution Abatement and Water Supply Systems," Northern Middlesex Area Commission, Part 1 Renaissance Study, November 1968.
- 29.26 "Guidelines and Procedures Manual for Interjurisdiction Sewer Rate Setting, New Castle County, Delaware," New Castle County Areawide Waste Treatment Management Agency, July 1978.
- 29.27 "Report on Guidelines and Procedures for Interjurisdictional Sewer Rate Setting," New Castle County Areawide Waste Treatment Management Agency, July 1978.
- 29.28 "Sewer System Evaluation for the City of Newark Interceptor System," New Castle County Areawide Waste Treatment Management Agency, July 1976.
- 29.29 "Rules and Regulations Relating to the Use of the Public Sewer System," New Castle County Areawide Waste Treatment Management Agency, draft August 1975.
- 29.30 "Water and Sewer Facility Plan for Pueblo County, Colorado," Pueblo Regional Planning Commission, Oblinger-Smith Corporation for the Colorado Division of Planning, 1972.
- 29.31 "Physical System Process Design for Upgrading the Pueblo Sewage Treatment Plant," Pueblo Regional Planning Commission, Foreman, J., October 24, 1976.

- 29.32 "Model Sewage Disposal Ordinances for Vermont," Vermont Department of Environmental Resources, 1979, 38 pages. Model regulations aimed at preventing health and environmental hazards from improper wastewater treatment and disposal; covers administration, permit procedures, and application, soil and site evaluation, system design, leach field installation, maintenance and site modifications.
- 29.33 "Are There Alternatives to Sewers for Vermont Towns?" Vermont Department of Environmental Water Resources, 1977, 148 pages. Proceedings of a conference examining a wide range of alternatives to sewer systems. Topics include septic tanks; health and management concerns; septage disposal; alternative systems for single family homes, subdivisions and clusters; environmental and economic impacts; institutional arrangements; case studies; and a panel discussion.
- 29.34 "Johnson County Sewer Districts: An Example of the County Sewer District Approach to Water Quality Management," Mid-America Regional Council, September 1977.
- 29.35 "Guidelines and Procedures Manual for Interjurisdictional Sewer Rate Setting, New Castle County, Delaware," Water Resources Agency for New Castle County, June 1978.
- 29.36 "Report of Guidelines and Procedures for Interjurisdictional Sewer Rate Setting," Water Resources Agency for New Castle County, Touche Ross and Company, July 1978.
- 29.37 "Characterization of Sewage Waste for Land Disposal Near Postland, Oregon," Metropolitan Service District (Columbia Regional Association of Governments).
- 29.38 "Report on Combined Sewer Overflow Loads," Mid-America Regional Council, nonpoint source product.
- 29.39 "Water Quality Aspects of Combined Sewer Overflows," Columbia Regional Association of Governments.
- 29.40 "Sewer Service Areas 1975-2000," Region I (New England), April 5, 1976.
- 29.41 "Wastewater Flows and Sewerage Facilities," Ocean County Planning Board, January 1978, 70 pages. Inventories point source discharges, industrial wastewaters and reviews residual waste and regional wastewater management. Provides projections for wasteloads and flows for residential, commercial and industrial users. Draft report.
- 29.42 "Sewage Disposal Alternatives/A Look at the Problem of Failing Septic Tank Systems and Alternative Methods of Sewage Disposal," Municipality of Metropolitan Seattle, 1977, 94 pages. Detailed discussion of on-site sewage disposal options, existing and potential problems and recommended actions.
- 29.43 "Sewer System Evaluation for the City of Newark Interceptor System," New Castle County Areawide Waste Treatment Management Planning Commission, July 1976.
- 29.44 "Study of Sewerage Needs, Evaluation of Alternatives for Ashby, Massachusetts," Montachusett Regional Planning Commission, 1977, Anderson-Nichols, 58 pages.
- 29.45 "Study of Sewerage Needs, Evaluation of Alternatives for Groton, Massachusetts," Montachusett Regional Planning Commission, 1977, Anderson-Nichols, 60 pages.

- 29.46 "Study of Sewerage Needs, Evaluation of Alternatives for Shirley, Massachusetts," Montachusett-Nashua Areawide Water Quality Management Plan, 1977, Anderson-Nichols, 42 pages.
- 29.47 "Study of Sewerage Needs, Evaluation of Alternatives for Sterling, Massachusetts," Montachusett Regional Planning Commission, 1977, Anderson-Nichols, 51 pages.
- 29.48 "Study of Sewerage Needs, Evaluation of Alternatives for Townsend, Massachusetts," Montachusett Regional Planning Commission, 1977, Anderson-Nichols, 47 pages.
- 29.49 "Environmental Assessment Statement for Cherry Valley Sewer District, Leicester Mass.," Central Massachusetts Regional Planning Commission, August 1977.
- 29.50 "Pollution Control Systems Report," Element 20, 21: Task Report g, East-West Gateway Coordinating Committee, July, 1977. A description of public and private service areas and the needed sewer service actions are detailed. Point and nonpoint source control strategies, representing best management practices, are defined.
- 29.51 "208 Workbook Project on Sewage Treatment Alternatives," Region I (New England), August 1, 1977.
- 29.52 "Alternatives to Sewers for Vermont's Towns," Region I (New England), November 3, 1977.
- 29.53 "Water Quality Aspects of Sub-surface Sewage," Region I (New England).
- 29.54 "Alternative for Sewage Disposal for Facilities Plan," Region I (New England), December 1976. Water quality standards, effluent limitations, zoning by-laws, peak load capacities; area - Cherry Valley.
- 29.55 "Analysis of Wastewaters: Deary Brothers and Dudley Sewage Treatment Plant," Central Massachusetts Regional Planning Commission, August 1977.
- 29.56 "Coburg Sewerage Facilities Plan," Lane Council of Governments, July 1977.
- 29.57 "Comprehensive Sewerage Facility Review," Lane Council of Governments, April 1978.
- 29.58 "Determination of Sewerage Needs and Recommendation Solution Avon Massachusetts," Region I (New England), November 1, 1976.
- 29.59 "Determining the Magnitude and Extent of a Need for a Public Sewer System," Region I (New England), May 1977.
- 29.60 "Digest of Sewerage Enabling Acts of the State of California," California Water Resources Control Board, \$1.90.
- 29.61 "Environmental Assessment of Proposed Sewerage Facilities, Town of Avon," Region I (New England), November 1, 1976.
- 29.62 "Lowell-Dexter Area Sewerage Facilities Plan," Lane Council of Governments, July 1977.
- 29.63 "Proposed Rules and Regulations Governing the Construction, Operation, and Maintenance of Sewage Effluent," Five County Association of Governments.

- 29.64 "Provisional Series 3 Projections Through 1990, by Sewerage Unit," Association of Bay Area Governments, March 1977, \$1.00. Municipal/industrial dischargers management plan/technical memo.
- 29.65 "Technical Memorandum: Determining the Magnitude and Extent of a Need for a Public Sewage System," Old Colony Planning Council, 1977. Determines how extensive the areas of failure of "on-lot systems" are and future sewerage needs; and demonstrates a procedure to determine if a public sewerage system is the most cost-effective, environmentally-sound solution to the water quality problems caused by the failing systems.
- 29.66 "Water Resources Staff Paper #2, Certified Sewage Treatment Plant Operators," Miami Valley Regional Planning Commission.
- 29.67 "Rutland Sewer Use Ordinance," Central Massachusetts Regional Planning Commission, June 1977.
- 29.68 "Status of Municipal Sewage Treatment Facilities in the Lower Delaware 208 Study Area," State of New Jersey Department of Environmental Protection.
- 29.69 "Opinion Regarding the Right of a Municipality to Control or Use the Water Which Makes up its Sewerage Effluent," Five County Association of Governments.
- 29.70 "Methodology for Conducting Evaluation of Environmental Impact of Municipal Sewerage Alternatives," Southwestern Pennsylvania Regional Planning Commission.
- 29.71 "Assessment of Municipal Sewerage Needs," Kansas Department of Health and Environment, 1978.
- 29.72 "Inventory of Combined Sewer Systems," First Tennessee-Virginia Development District August 1977, 15 pages.
- 29.73 "Combined and Separate Sanitary Sewer Overflow Sources of Pollution, Background Information and BMP Approach," Delaware Valley Regional Planning Commission, Chester Betz Engineers, May 1977.
- 29.74 "Report on Management Plan for Combined Sewer Overflows," Mid-America Regional Council.
- 29.75 "Report on Control Alternatives for Combined Sewer Overflows, Their Costs and Cost Effectiveness," Mid-America Regional Council.
- 29.76 "Report on Water Pollution Significance of Combined Sewer Overflows," Mid-America Regional Council.
- 29.77 "Report on Inventory of Combined Sewer Systems," Mid-America Regional Council.
- 29.78 "Report on Characterization of Selected Combined Sewer Overflows," Mid-America Regional Council.
- 29.79 "Development of Control and Reduction Options and Subplans for Combined Sewers," Northwestern Indiana Regional Planning Commission, May 1977.
- 29.80 "Initial Combined Sewer Planning," Berkshire County Regional Planning Commission, August 1976.
- 29.81 "Combined Sewer Overflow Problems/Analysis, Report 8, Addendum," Erie and Niagara Counties Regional Planning Board, December 1977, 154 pages.

- 29.82 "Combined Sewer Overflows Problems/Analysis," Erie and Niagara Counties Regional Planning Board, January 1979, 198 pages.
- 29.83 "Combined Sewers," Berkshire County Regional Planning Commission, November 1976.
- 29.84 "Combined Sewer Inventory Report," Montachusett Regional Planning Commission, 83 pages.
- 29.85 "Memorandum on Procedures for Determining Combined Sewer Overflow Loadings," Mid-America Regional Council.
- 29.86 "Model Ordinance for On-Site Sewerage Disposal," Southwestern Illinois Metropolitan and Regional Planning Commission, September 1978, 45 pages.
- 29.87 "On-Site Sewage Treatment Practice and Septage," Toledo Metropolitan Area Council of Governments, February 1976.
- 29.88 "On-Site Sewage Disposal Systems for Slowly Permeable Soils," Vermont Department of Environmental Water Resources, 1979, 66 pages. Evaluation of the effectiveness of on-site wastewater disposal systems serving single family residences on slowly permeable soils. A questionnaire followed by a site and soil evaluation of 340 residences was performed in order to determine factors contributing to the proper functioning and mal-functioning of soil absorption systems. In addition, 40 of the surveyed systems were monitored (i.e., percolation tests, excavation effluent sampling, and periodic inspections). General and specific information regarding septic system function relative to size of system components, age, history of operation, water consumption, site and soil conditions are discussed.
- 29.89 "Onsite Sewage Disposal," Flathead 208 Project Planning Commission, 67 pages.
- 29.90 "On-Site Sewage Disposal Systems for Slowly," Region I (New England).
- 29.91 "Rural Sewage Treatment in Vermont," Vermont Department of Environmental Water Resources, 1978, 89 pages. A two-book series: Book I, A Guide to the Alternatives, explains basics of sewage treatment, Vermont sewage treatment laws, and available treatment methods. 116 pages. Book II, A Planning Manual is a guide to the study of community sewage problems and preventive methods.
- 29.92 "Rural Sewage in the 208 Area," Appendix B-3, Greater Egypt Regional Planning and Development Commission, November 1978, 40 pages.
- 29.93 "Interim Report No. 3," Clark County 208, December 1977. Evaluates the adequacy of sewer systems in the rural communities of Clark County.

- 31.19 "Sludge Management Alternatives Existing and Proposed," Region I (New England).
- 31.20 "Sludge - A Waste Too Valuable to Waste," Wisconsin Department of Natural Resources. Things local officials, farmers and those involved in sludge management should consider in their programs.
- 31.21 "Sludge Disposal Practices," Toledo Metropolitan Area Council of Governments, February 1976.

31.22 "Sludge Management," Maricopa Association of Governments, Phoenix Urban Study, Thompson and Runyan for the Corps of Engineers, working paper, March 1978. The purpose of this paper is to identify sludge management components as they apply to existing and anticipated conditions in the metro area. This paper also refines treatment and disposal options, assess the feasibility of regional sludge treatment, develops, sludge management alternatives and identifies a preferred sludge management alternative.

31.23 "Sludge Treatment and Disposal," Delaware Valley Regional Planning Commission, Chester Betz Engineers, June 1976.

31.24 "Wastewater Sludge Disposal in South Central Michigan," South Central Michigan Planning Council, January 1977.

XXXII. SOCIO-ECONOMIC IMPACT

32.1 "Assessment of the Environmental and Socio-Economic Effects of Each Alternative," First Tennessee-Virginia Development District, May 1978, 31 pages.

32.2 "Detailed Social and Economic Characteristics," Rappahannock Area Development Commission, (1)-C48.

32.3 "Environmental, Social and Economic Impact Assessment," Tallahassee-Leon County Planning Department.

32.4 "Socio-Economic Inventory, Data Base, and Projections," Region 2 Planning Commission, April 1977, May 1978 as amended.

32.5 "Ecological, Social and Economic Environmental Impact Assessment," South Central Michigan Planning Council, October 1977, 123 pages, maps, attachments.

32.6 "Environmental, Social and Economic Impacts," Central Midlands Regional Planning Commission.

32.7 "Task 103 - Base Studies, Subtasks (a) and (b) - Socio-Economic Projections and Land Use Analysis," Southeast Arkansas Regional Planning Commission. To define existing and projected population and land use for Jefferson County.

32.8 "Socio-Economic Evaluation of Alternative Functional Wastewater Management Plans, Ridley Creek, Crum Creek," Delaware Valley Regional Planning Commission, Louis Berger and Associates, Inc., September 1977.

32.9 "Socio-Economic Evaluation of Alternative Functional Wastewater Management Plans, Pottsville Planning Area," Delaware Valley Regional Planning Commission, Louis Berger and Associates, Inc., November 1977.

32.10 "Socio-Economic Evaluation of Alternative Functional Wastewater Management Plan, Chester Creek Planning Area," Delaware Valley Regional Planning Commission, Louis Berger and Associates, Inc., November 1977.

32.11 "Interfaces Between Environmental Socio-Economic and Point Source Modules in AEF Analysis," Delaware Valley Regional Planning Commission, Chester Betz Engineers, August 1975.

32.12 "Environmental, Social and Economic Assessment," Comprehensive Planning Organization of San Diego County. A comprehensive analysis of the impacts of the Areawide Plan, its various elements and the alternatives to it.

32.13 "Vol. 3: The Socio-Economic Report," Regional Intergovernmental Report.

- 32.14 "Social and Economic Resources," Environmental Assessment Process - Position Paper #4, New Castle County Areawide Waste Treatment Management Agency, May 1977.
- 32.15 "Socio-Economic Projections," Association of Central Oklahoma Governments, July 27, 1977.
- 32.16 "Socio-Economic Data Report," Arkhoma Regional Planning Commission, \$4.00. Current analysis and projections of land use, population and economic conditions.
- 32.17 "Areawide Waste Treatment Management Plan Environmental/Socio-Economic Assessment," #506, Area Planning Board of Palm Beach County.
- 32.18 "Environmental/Socio-Economic Projections," #502, Area Planning Board of Palm Beach County.
- 32.19 "Socio-Demographic Projections for the Montana Statewide 208 Area," Montana Department of Health Environmental Sciences.
- 32.20 "Final Report on Socio-Economic and Environmental Effects of Alternative Wastewater Management Plans," Mid-America Regional Council.
- 32.21 "Interim Report on Socio-Economic and Environmental Effects of Alternative Wastewater Management Plans," Mid-America Regional Council.
- 32.22 "Socio-Economic Data," Ark-Texas Council of Governments, September 1977, 41 pages.
- 32.23 "Socio-Economic Analysis Methodology," State of New Jersey Department of Environmental Protection.
- 32.24 "Socio-Economic Studies," Appendix 8, Vol. A, B, C, Hampton Roads Water Quality Agency.
- 32.25 "Develop a Baseline Projection of Relevant Environmental, Social and Economic Factors," Northwestern Indiana Regional Planning Commission, April 1977.
- 32.26 "Socio-Economic Profile," Water Quality Plan, Appendix A, Dane County Regional Planning Commission, 1979, 26 pages, \$1.00.
- 32.27 "Baseline Socio-Economic Projections," Southern Tier Regional Planning and Development Board, April 1977, 92 pages. Presents detailed population projections for the 208 municipalities through the year 2000 and presents projections in terms of their relationship to previously accepted population projections.
- 32.28 "Preliminary Assessment of Environmental and Socio-Economic Impacts of Present Water Quality," Lakes Region Planning Commission, April 1977.
- 32.29 "Future Environmental and Socio-Economic Conditions in the Lakes Region," Lakes Region Planning Commission, July 1977.
- 32.30 "Environmental Settings Report," Genesee-Lapeer-Shiawassee Region 5 Planning and Development Commission, April 1978. Topics include socio-economic impact of 208 plan.
- 32.31 "Environmental Assessment of Corpus Christi 208 Plan," Coastal Bend Council of Governments, April 1978. Topics include the environmental, social and economic impact of the 208 plan.
- 32.32 "Environmental Analysis and Baseline Projection of Physical, Biological, Socio-Economic and Cultural Conditions," Southeastern Council of Governments, May 1977, 50 pages, \$3.00.

- 32.33 Rogue Valley Council of Governments, August 1976, 220 pages. Topics include socio-economic assessment of water quality program; literature survey.
- 32.34 "Social and Economic Resources," New Castle County Areawide Waste Treatment Management Agency, May 1977.
- 32.35 "Socio-Economic and Water Data Base Report - Killeen-Temple 208 Program," Central Texas Council of Governments, June 1977. Vol. 1 - Narrative, 158 pages. Vol. 2 - Appendices, 174 pages.
- 32.36 "Socio-Economic Data Base," Lower Rio Grande Valley Development Council. Topics include population, economics, land use constraints to development.
- 32.37 "Socio-Economic Inventory and Projections," East Central Michigan Planning and Development, February 1977, 246 pages.
- 32.38 "Socio-Economic Study," Fox Valley Water Quality Planning Agency, November 1977, 200 pages. Topics include analysis of socio-economic impact on the Green Bay SMSA and Appleton-Oshkosh SMSA of wastewater planning.
- 32.39 "Population Forecasts, Monmouth County 208 Study Area," Chapter 4, State of New Jersey Department of Environmental Protection.
- 32.40 "Population Forecasts, Northeast 208 Study Area," Task 7.2.1, Chapter 4, State of New Jersey Department of Environmental Protection, January 1978.
- 32.41 "Human Resources and Population Growth," Southwest Florida Regional Planning Commission. Includes historical summary, population growth, population characteristics.
- 32.42 "Nevada Population, Economic and Land Use Projections by Hydrographic Region," Nevada Department of Conservation and Natural Resources, April 15, 1977, 138 pages.
- 32.43 "Population/Socio-Economic Analysis Present and Future," Erie and Niagara Counties Regional Planning Board, October 1978, 100 pages.
- 32.44 "The Use of Population Forecasts: A Brief Review," Atlanta Regional Commission, September 1977.
- 32.45 "Preliminary Population Projections," Berkshire County Regional Planning Commission, February 1976.
- 32.46 "Population/Socio-Economic Analysis: Present and Future," Erie and Niagara Counties Regional Planning Board, March 1978, 100 pages.
- 32.47 "Population Projections in the OCPC 208 Area," Old Colony Planning Council, 1977. Examines population projections in terms of the growth potential indicators such as future water consumption, wastewater treatment needs, and land use pressures.
- 32.48 "Population Projections and Acres by Drainage Area," Ohio-Kentucky-Indiana Regional Council of Governments, June 1975.
- 32.49 "Population Projections," Southeastern Regional Planning and Economic Development Commission, December 1975, 14 pages.
- 32.50 "Population Projections," Chariton Valley Regional Services Agency.
- 32.51 "Population Estimates and Projections for Water Quality Study," Environmental Protection Agency Plan Element 3, Indian Nations Council of Governments, 1977. This report contains estimates of population projections by drainage basin and by city/town to the year 2000. The methodology is described.

- 32.52 "Population, Employment and Land Use Report," Genesee-Lapeer-Shiawassee Region 5 Planning and Development Commission, July 1977.
- 32.53 "Population, Employment and Land Use Projections for Coastal Sussex County," Coastal Sussex Water Quality Program, October 1977.
- 32.54 "Population, Economy and Land Use Data Base," South Alabama Regional Planning Commission, March 1977.
- 32.55 "Plan of Study Area Population Projections," Genesee-Lapeer-Shiawassee Region 5 Planning and Development Commission, June 1977. Topics include projected population growth, township land use.
- 32.56 "Future Population Projections and Growth Constraints," Mountainland Association of Governments, May 1976.
- 32.57 "Existing and Projected Population, Land Use, and Employment," Coastal Bend Council of Governments, November 1976, 67 pages.
- 32.58 "Existing and Projected Population, Employment and Land Use," Boston Metropolitan Area Planning Commission, April 1976.
- 32.59 "Draft Progress Report: Employment and Population Projections," New Castle County Areawide Waste Treatment Management Agency, March 1975.
- 32.60 "Draft Interim Output: Population, Employment and Wastewater Flow Projections," Washington Council of Governments, August 1977. A description of the population and employment forecasts for the region and how they may be used to project wastewater flows.
- 32.61 "A Report on the Characteristics and Attitudes of New Residents in the Coastal Sussex Water Quality Program Study Area," Coastal Sussex Water Quality Program, November 1977. Topics include population, housing, recreational activities, industrial growth.
- 32.62 "Report on Population and Employment Trends and Projections in the Montachusett Region," Montachusett Regional Planning Commission, 1977, 161 pages.
- 32.63 "Special Interim Report," Snohomish County Planning Department, May 1977, 25 pages. Topics include population and employment, land use, waste load projections, sewer services areas.
- 32.64 "Summary of Population Projections for Summit, Utah and Wasatch Counties 1975-95," Mountainland Association of Governments, April 1976.
- 32.65 "Summit County Sub-Basin Growth Constraints and Projections, 1975-95 for Population and Land Use," Mountainland Association of Governments, May 1976.
- 32.66 "Utah County Sub-Basin Growth Constraints and Projections 1975-1995 for Population and Land Use," Mountainland Association of Governments, February 1975.
- 32.67 "Wasatch County Sub-Basin Growth Constraints and Projections 1975-95 for Population and Land Use," Mountainland Association of Governments, May 1976.

- 32.159 "Bozeman Growth Study," Blue Ribbons of the Big Sky Country.
- 32.160 "1978 Demographic Report," District No. 4 Council of Governments, September 1978.
- 32.161 "Demographic Trends and Projections," Southern Kennebec Valley Regional Planning Commission, January 1976.

- 32.162 "Background, Objectives, and Population, Housing, Employment and Land Use Forecasts," Vol. I, Southern California Association of Governments.
- 32.163 "Cultural and Aesthetic Resources," New Castle County Areawide Waste Treatment Management Planning Agency, May 1977.
- 32.164 "A Local Perspective of Regional Growth - Local Planning Agencies Review of the Series 2 Regional Growth Projections," Association of Bay Area Governments, November 1974.
- 32.165 "Regional Growth Forecasts," Comprehensive Planning Organization of San Diego County. An areawide agreement by all cities and counties on the amount and distribution of current and future population growth.
- 32.166 "Environmental Impact Assessment, Water Quality Management Plan (208), Non Designated Area of Nevada," Nevada Department of Conservation and Natural Resources, November 1978, 123 pages. Socio-economic impacts resulting from implementation of water quality management plan.
- 32.167 "Small Areas Forecast: Policies, Forecasts, and Evaluation," Southeast Michigan Council of Governments, March 1978, 182 pages. This document contains the results from all aspects of the Small Area Forecast effort. The three principal areas discussed are: (1) The six alternative sets of public policies which might be followed in the region, (2) The forecasts of households, population, employment and land use at the small area level through the year 2000 which flow from the policies, and (3) Fiscal and environmental impact measures for each of the forecasts which permit evaluation of policy outcomes.
- 32.168 "Regional Development Policy - Vol. 1: Development Inventory," Indiana Heartland Coordinating Council, \$12.60. Natural resource base and economic base of the region.
- 32.169 "Part Two: Recommended Control Measures," West Michigan Shoreline Regional Planning Commission, May 1978. Topics include social, economic impacts of control measures.
- XXXIII. SOLID WASTE
- 33.1 "Alternatives Solid Waste Management System," Phase II Report, Working Paper 20, Pikes Peak Area Council of Governments, Nelson, Haley, Patterson and Quirk, Inc.
- 33.2 "Elements of a Coordinated Permit Approval Process for Solid Waste Management Sites and Facilities," Association of Bay Area Governments, July 1977, \$1.00.
- 33.3 "Existing Authorities for Hazardous Waste Management," Association of Bay Area Governments, April 1977, \$1.00.
- 33.4 "Hazardous Waste Management in the San Francisco Bay Area," Association of Bay Area Governments, July 1977, \$1.00.
- 33.5 "Identification of Possible Class I Sites Areas," Association of Bay Area Governments, July 1977, \$1.00.
- 33.6 "Issues in Current Permit Approval Systems for Solid Waste Management Facilities and Disposal Sites," Association of Bay Area Governments, April 1977, \$1.00.
- 33.7 "Issues for Federal and State Legislative and Administrative Action to Promote Source Reduction and Resource Recovery from Solid Waste," Association of Bay Area Governments, August 1977, \$1.00.

- 33.8 "Leachate Formation in Solid Waste Disposal Sites," Boston Metropolitan Area Planning Commission, June 1977.
- 33.9 "Northern Middlesex Area Commission Solid Waste Management Report," Northern Middlesex Area Commission, September 1975, draft.
- 33.10 "Northern Middlesex Area Solid Waste Disposal Plan. Vol. I, Report on Existing Situation," Northern Middlesex Area Commission, November 1969.
- 33.11 "Regional Overview of County Solid Waste Management Plans," Association of Bay Area Governments, May 1977, \$1.00.
- 33.12 "NMAC's Regional Program for Solid Waste Management," Northern Middlesex Area Commission, May 1971.
- 33.13 "Regional Program for Solid Waste Management," Northern Middlesex Area Commission, June 1971.
- 33.14 "Relation of Solid Waste Disposal to Water Quality," New Castle County Areawide Waste Treatment Management Agency, August 1975.
- 33.15 "Required Land Area for Wastewater and Solid Handling System Working Paper 8," Pikes Peak Area Council of Governments, Nelson, Haley, Patterson and Quirk, Inc.
- 33.16 "Residual Solids Management," Ohio-Kentucky-Indiana Regional Council of Governments, 1978.
- 33.17 "Residual Waste Control Needs for the INCOG 208 Area," Indian Nations Council of Governments, Tulsa City-County Health Department, June 1979.
- 33.18 "SR-6 Salt Lake Metropolitan Area - Solid Waste Management Planning," Report Vol. I-II, Salt Lake Council of Governments, August 1977 (reprint), 211 pages.
- 33.19 "Solid Waste Management," Northeast Michigan Council of Governments, February 1978.
- 33.20 "Solid Waste Disposal Sites," South Alabama Regional Planning Commission, January 1977.
- 33.21 "Solid Waste Disposal Nonpoint Source," Region I (New England), December 1976.
- 33.22 "Solid Waste Management Study - Pueblo County, Colorado," Pueblo Regional Planning Commission, January 1975.
- 33.23 "Solid Waste Site Survey and Report," Houston-Galveston Area Council, August 1976.
- 33.24 "Solid Waste," Genesee-Lapeer-Shiawassee Planning and Development Commission, April 1978. Topics include landfills.
- 33.26 "Solid Waste Report," Genesee-Lapeer-Shiawassee Region V Planning and Development Commission, July 1977. Appendix 1: Industrial Residual Disposal. Appendix 2: Municipal Sludge Disposal.
- 33.27 "Solid Waste Disposal," Toledo Metropolitan Area Council of Governments, February 1976.
- 33.28 "Solid Waste Management Plan," Central Florida Regional Planning Commission, DeSoto Company, July 1976, \$3.00.
- 33.29 "Solid Waste Study," Macon-Bibb County Planning and Zoning Commission, September 1974.

- 33.30 "Summary Report," Association of Bay Area Governments, Solid Waste Management and Resource Recovery.
- 33.31 "Task Report on Solid Waste," (first phase), Pikes Peak Area Council of Governments, Nelson, Haley, Patterson and Quirk, Inc., November 1974.
- 33.32 "SR-4 Use of Solid Waste as an Alternative Source of Energy," Salt Lake Council of Governments, April 1977 (reprint), 102 pages.
- 33.33 "Ventura County Solid Waste Management Plan," Ventura Regional County Sanitation District.
- 33.34 "Water Quality Management Plan for Solid Waste Disposal," North Carolina Department of Natural Resources and Community Development.
- 33.35 "Effects of Residential Development on Water Quality of Small Streams in the North River Area," Boston Metropolitan Area Planning Commission, January 1977.
- 33.36 "Participating Agencies Task 2-8 Reports: Residual Waste Control and Land Disposal Needs," Southern California Association of Governments.
- 33.37 "Residual Waste Study," State of Tennessee Department of Public Health.
- 33.38 "Residual Waste Control Needs," Chapter 12, Tallahassee-Leon County Planning Department.
- 33.39 "Phase III Final Alternative Analysis Report: Residual Waste Report," Element 22, East-West Gateway Coordinating Council, November 1977. This report identifies regional sludge processing centers for each county. A cost effective analysis determined the processing center's location and size.
- 33.40 "Residual Waste Nonstructural Control Measures," Element 22: Task Memo d, East-West Gateway Coordinating Council, June 1977. The large quantity and variety of residual wastes generated in the study area requires that various methods of disposal of the waste be considered.
- 33.41 "Phase II Residual Waste Report," Element 2, East-West Gateway Coordinating Council, March 1977. Results of a survey on residual waste conditioning disposal practices are described.
- 33.42 "Residual Waste Management," Toledo Metropolitan Area Council of Governments, December 1976.
- 33.43 "Residual Wastes and Water Quality in Region V, A Background Report," Genesee-Lapeer-Shiawassee Region V Planning and Development Commission, Chase-Mogdis, Inc., April 1978.
- 33.44 "Residual Wastes Alternatives," Task 405, Southeast Arkansas Regional Planning Commission. Alternatives for disposal of residual wastes.
- 33.45 "Residual Waste Control - Inventory and Problem Identification," Task 206, Southeast Arkansas. To identify potential pollution problems, including the impact on drinking water supplies, that could result from disposal of residual wastes.
- 33.46 "Description, Analysis and Comparison of Alternative Wastewater Residual Management, Institutions Residual Report No. 5," Delaware Valley Regional Planning Commission, Delaware River Basin Commission, July 1977.
- 33.47 "Alternative Methods for Handling Wastewater Residuals, Draft," Delaware Valley Regional Planning Commission, Delaware River Basin Commission, May 1977.

- 33.48 "Wastewater Residual Management: Preliminary Findings and Recommendations for Institutional Organization, Planning and Regulations," Delaware Valley Regional Planning Commission, Delaware River Basin Commission, September 1977.
- 33.49 "Residual Management: Legislation, Regulation, and Planning," Delaware Valley Regional Planning Commission, River Basin Commission, August 1977.
- 33.50 "Description, Analysis and Comparison of Alternative Wastewater Residual Management Institutions," Delaware Valley Regional Planning Commission, Chester Betz Engineers, July 1977.
- 33.51 "Residual Waste Management Plan," Alabama Water Improvement Commission.
- 33.52 "Existing Residuals Disposal System," Central Arizona Association of Governments.
- 33.53 "Residual Waste Management," Work Element 530, West Florida Regional Planning Commission, March 1978.
- 33.54 "Review of Residual Waste Generation Sources and Disposal Programs," New Castle County Area-wide Waste Treatment Management Agency, September 1976.
- 33.55 "Report on Areawide Residual Waste Management Alternatives," Mid-America Regional Council.
- 33.56 "Residuals Management: Background Summary," Southeast Michigan Council of Governments, February 1978.
- 33.57 "Residual Wastes Areawide Plan," Chattanooga Area Regional Council of Governments, May 1978, 31 pages.
- 33.58 "Industrial Residuals and Hazardous Waste Survey and Management Alternatives," Chattanooga Area Council of Governments, July 1977, 112 pages.
- 33.59 "Final Report on Residual Waste Management Program," Mid-America Regional Council.
- 33.60 "Report on Inventory of Residual Waste Management Practices," Mid-America Regional Council.
- 33.61 "Management of Residual Wastes," Kansas Department of Health and Environment.
- 33.62 "Residual Waste," Kansas Department of Health and Environment, fact sheet.
- 33.63 "Characteristics of Residual Waste," Kansas Department of Health and Environment.
- 33.64 "Phase II Residual Waste Report," Element 12, East-West Gateway Coordinating Committee, March 1977. Results of a survey on residual waste conditioning disposal practices are described. Future residual waste quantities are estimated for various point source alternatives, and a preliminary evaluation is made to determine the practical feasibility of selecting sludge processing techniques for each county within the study area. Residual waste alternatives are examined.
- 33.65 "Residual Waste Treatment," Kansas Department of Health and Environment.
- 33.66 "Residual Waste Management Practices," First Tennessee-Virginia Development District, July 1977, 11 pages. A summarization of available information on residual waste (sludge) management practices for wastewater treatment facilities in the study area.

- 33.67 "Residual Waste Problems/Analysis," Erie and Niagara Counties Regional Planning Board, October 1978, 239 pages.
- 33.68 "Review of Residual Waste Generation Sources and Disposal Programs," New Castle County Areawide Waste Treatment Management Planning Agency, September 1976.
- 33.69 "Residual and Solid Waste Disposal," Water Quality Plan, Appendix F, Dane County Regional Planning Commission, 1978, 56 pages, \$2.00.
- 33.70 "Residual Waste Management Plan; Municipal and Industrial Sludge Management for Los Angeles/Orange County Metropolitan Area," Vol. 7, Southern California Association of Governments.
- 33.71 "Residual Waste Nonstructural Control Measures," Element 22, Task Memo d, East-West Gateway Coordinating Committee, June 1977. The large quantity and variety of residual wastes generated in the study area requires that various methods of disposal of the wastes be considered. To develop an adequate plan, this memorandum identifies possible methods which would enable economic and nonstructural feasibility studies to be made.
- 33.72 "Residual Waste Problems/Analysis," Erie and Niagara Counties Regional Planning Board, December 1977, 232 pages.
- 33.73 "208 Residual Waste Control Needs," Nassau Suffolk Regional Planning Board.
- 33.74 "Solid Waste Report," Genesee-Lapeer-Shiawassee Region 5 Planning and Development Commission. Topics include future wasteload needs.

XXXIV. STANDARDS

- 34.1 "Assemble Water Quality Data and Review Standards," West Michigan Regional Planning Commission.
- 34.2 "Beneficial Uses, Standards and Objectives for Ground and Surface Waters," Comprehensive Planning Organization of San Diego County. A report prepared by the Regional Water Quality Control Board staff to update the objectives, standards and beneficial uses of ground and surface water as well as the waste loads in surface waters.
- 34.3 "Beneficial Uses - Water Quality Criteria - Instream Water Quality," Washoe Council of Governments, October 1977.
- 34.4 "Development Guidelines Manual Water Quality Aspects of Development," Southern Tier Central Regional Planning and Development Board, Wm. Larsen. Topics include criteria and standards, construction.
- 34.5 "Development of Criteria for Evaluation of Solutions," Chariton Valley Regional Services Agency.
- 34.6 "Existing Water Quality Data and Standards," Southeastern Council of Governments, May 1977, 258 pages, \$10.00.
- 34.7 "Existing State Water Quality Standards," East Central Florida Regional Planning Council.
- 34.8 "Existing Water Quality Standards Applicable to Bibb County Waters and Recommended Additions to Existing Standards," Macon-Bibb County Planning and Zoning Commission.
- 34.9 "Feasibility of Systematic Approach to Water Quality Management," Water Quality Standards, Illinois Environmental Protection Agency, October 1977.

- 34.10 "Final Water Quality Evaluation Criteria," Element 20-21, East-West Gateway Coordinating Council, May 1977. Indicates the definition of and the need for water quality objectives, criteria and standards and the roles and limitations of the Environmental Protection Agency, the State, and East-West Gateway Coordinating Council in establishing each of these.
- 34.11 "A Guide to Minnesota's Proposed Revision of Water Quality Standards Regulations," Minnesota Pollution Control Agency, July 1977, 25 pages. The Work Group looked specifically at the Water Pollution Control Regulation, Chapters 14 and 15, which regulate dischargers and specify the water quality criteria necessary for each use classification of intra- and interstate waters, and chapters 24 and 25, which indicate the use classification under which each body of water in Minnesota falls.
- 34.12 "Initial Results of Standard Parameters of Upper Raritan Groundwater Quality," State of New Jersey Department of Environmental Protection.
- 34.13 "Kansas Water Quality Standards," Kansas Department of Health and Environment.
- 34.14 "Memorandum on Water Quality Standards and Criteria," Mid-America Regional Council.
- 34.15 "Problems of Setting Standards and of Surveillance for Water Quality Control," California Water Resources Control Board, \$2.65.
- 34.16 "Procedures for Developing Recommended Standards Revisions," (WP 3.03-4), Delaware Valley Regional Planning Commission, March 1977.
- 34.17 "A Profile of Water Quality in the Cedar/Green River Basins," Municipality of Metropolitan Seattle, 1978, 250 pages. Full discussion on problem/cause relationships characteristic of the area, watershed prioritization and methodology and profiles of the 26 major drainage basins in the Cedar/Green system.
- 34.18 "Proposed State Water Quality Standards," Five County Association of Governments.
- 34.19 "Proposed Water Quality Standards," Environmental Protection Agency Plan Element 5, Indian Nations Council of Government, January 1978. This report contains recommended numerical water quality criteria to meet 1983 goals. These criteria will be used to develop wasteload allocations. A procedure for temporary variances is described.
- 34.20 "Proposed Changes to State Water Quality Standards," East Central Florida Regional Planning Council.
- 34.21 "Recommended Revisions to Water Quality Standards," (WP 3.03-5), Delaware Valley Regional Planning Commission, November 1977.
- 34.22 "Recommended Revisions and Additions to DER's Water Quality Standards," Delaware Valley Regional Planning Commission, Chester Betz Engineers, March 1977.
- 34.23 "Report to Indiana Stream Pollution Control Board Water Quality Task Force," Indiana Heartland Coordinating Commission, February 1978, 52 pages. Topics include water quality standards of 22 states; stream classification.
- 34.24 "Review Water Quality Standards," Northwestern Indiana Regional Planning Commission, September 1976.

- 34.25 "Standard Methods for the Examination of Water and Wastewater," Pueblo Regional Planning Commission, American Public Health Association, et al., 13th edition, Washington, D.C., American Public Health Association, 1971.
- 34.26 "State of Nevada, Diffuse Source Water Pollution Control Regulations," Nevada Department of Conservation and Natural Resources, 25 pages. Description of the sequence of actions necessary for the proper implementation of the program as contained in the 208 plan.
- 34.27 "State Standards and Regulations," Regional Planning Council.
- 34.28 "Strategy for Water Quality Standards Review," Illinois Environmental Protection Agency, June 1977. Contains staff paper on the philosophy and procedures for review of existing standards.
- 34.29 "Surface Water Quality Standards, State of South Dakota," Sixth District Council of Governments, revised November 1977.
- 34.30 "Water Quality Standards -Ecosystem Approach," Hawaii Department of Health, December 1, 1977, 230 pages. Description and mapping, pertinent standards and allowable uses - technical report.
- 34.31 "Water Quality Management Seminar," Hawaii Department of Health, July 1977, 228 pages. New standards for Hawaii.
- 34.32 "Water Quality Management 1978 Vol. 1 Water Quality Protection in Alaska," Alaska Department of Environmental Conservation, August 1978, 114 pages.
- 34.33 "Water Quality Standards and Stream Segment Classifications, Draft Summary, Report No. 3," South Alabama Regional Planning Commission, June 1977.
- 34.34 "Task 102 - Water Quality Standards," Southeast Arkansas Regional Planning Commission. To review water quality standards for all streams in the area and to determine where these do exist.
- 34.35 "Water Quality Standards Review, Virgin and Muddy Rivers," Clark County 208, March 1978. Identifies existing beneficial uses and ambient water quality conditions, water quality standards violations, recommends changes in water quality standards, and future monitoring needs.
- 34.36 "Water Quality Standards and Regulations in the Washington Metropolitan Area," Washington Council of Governments, December 1976. A review of the existing water quality standards in the region and staff recommendations on their adequacy.
- 34.37 "Water Quality, Assessment and Standards Executive Summary," Metroplan, prepared by URS/Forrest and Cotton, 1978.
- 34.38 "Water Quality Assessment and Standards," Metroplan, prepared by URS/Forrest and Cotton, 1978.
- 34.39 "Water Quality Standards Evaluation," West Michigan Regional Planning Commission.
- 34.40 "Water Quality Standards and Segment Classifications," Tallahassee-Leon County Planning Board.
- 34.41 "Water Quality Data and Standards," 401.31, Michigan Area Council of Governments, 1977.

- 34.42 "Water Quality Standards, Water Quality Assessment and Segment Classifications," Ventura Regional County Sanitation District.
- 34.43 "Water Quality Standards and Assessment," Southern California Association of Governments.
- 34.44 "Water Quality Criteria and Wastewater Management Planning," East-West Gateway Coordinating Council, March 1977. This graphically designed report briefly describes a water quality standard, the 5-step established process and two major indicators of pollutions that require standards, fecal coliform and phosphates.
- 34.45 "Task 102 - Water Quality Standards and Criteria," Southeast Arkansas Regional Planning Commission. To review water quality standards for all streams in the area and to determine where these do not exist.
- 34.46 "Water Quality Standards Summary," New Hampshire Water Supply and Pollution Control Commission, July 1977.
- 34.47 "Water Quality Standards," Weber River Water Quality Planning Council.
- 34.48 "Water Quality Standards and Criteria," Association of Central Oklahoma Governments, September 22, 1977, December 22, 1976 and March 8, 1976.
- 34.49 "Water Quality Standards for Fishable-Swimmable Water," Berkshire County Regional Planning Commission, May 1976.
- 34.50 "Water Quality Data and Standards," Northwestern Indiana Regional Planning Commission, July 1976.
- 34.51 "Water Quality Standards Review: A Status Report," Illinois Environmental Protection Agency, October 1978.
- 34.52 "The Water Quality Standards Issue," Indiana Heartland Coordinating Commission, December 1977, 71 pages.
- 34.53 "Water Quality Standards of Illinois, Indiana and Wisconsin," Northeastern Illinois Planning Commission, April 1977.
- XXXV. SURFACE WATER
- 35.1 "Local Options for Surface Water Management and Stream Preservation," Municipality of Metropolitan Seattle, 1978, 320 pages. Detailed discussion of drainage problem causes, relationships, solution techniques, including the nine functional elements important to a comprehensive drainage program (referred to as the "erector set"), results of interviews with local government relative to existing drainage programs, needed improvements based on a comparison of existing programs of the "erector set" concept and recommendations.
- 35.2 "Existing Surface Water Quality, Weber County," Weber River Water Quality Planning Council.
- 35.3 "Existing Surface Water Quality, Davis County," Weber River Water Quality Planning Council.
- 35.4 "Assessment of Surface Water Quality and Water Quality Programs in New Castle County Delaware," New Castle County Areawide Waste Treatment Management Agency, August 1975.
- 35.5 "Surface Water Quality and Influence of Sources, Analytical Procedures and Methods," Region I (New England).

- 35.6 "Surface Water Quality of Cape Cod," Vol. I and II, Region I (New England), August 27, 1976.
- 35.7 "Water Pollution Aspects of Street Surface Contaminants," Pueblo Regional Planning Commission, Office of Research and Monitoring, Washington, D.C. Environmental Protection Agency Document No. EPA-RA-72-081, November 1972.
- 35.8 "Biological Field and Laboratory Methods for Measuring the Quality of Surface Water and Effluents," Pueblo Regional Planning Commission, Lassiter, Ray, et al., Cincinnati, Ohio: Office of Research and Development, U.S. Environmental Protection Agency, April 1973.
- 35.9 "Surface Water Quality of Cape Cod," Cape Cod Planning and Economic Development Commission, 1976.
- 35.10 "Historical Surface Water Quality Data Analysis, Station-by-Station to March 1977," State of New Jersey Department of Environmental Protection, Chapter 3.
- 35.11 "Surface Water Quality Assessment," State of New Jersey Department of Environmental Protection.
- 35.12 "Summary Paper of the Surface Water Quality Assessment," State of New Jersey Department of Environmental Protection.
- 35.13 "Surface H₂O Management, Interim Report No. 2," Clark County 208, October 1977. Analyzes the pollutant loadings for their water quality impacts on Lake Mead; evaluates erosion and sedimentation problems; effects of urbanization on stormwater problems; and identifies existing flood control facilities in Clark County.
- 35.14 "Surface H₂O Management, Interim Report No. 3," Clark County 208, February 1978. Develops alternative surface water management plans.
- 35.15 "Surface Water Quality and Influence of Source," Region I (New England), April 30, 1976.
- 35.16 "Assessment of Surface Water Quality and Water Quality Programs in New Castle County, Delaware," New Castle County Areawide Waste Treatment Management Agency, August 1975.
- 35.17 "Compilation of Records of Surface Waters of the U.S., October 1950 to September 1960, Part 2-B, South Atlantic Slope and Eastern Gulf of New Mexico Basins, Ogeechee River to Pearl River," Macon-Bibb County Planning and Zoning Commission, U.S.G.S. Water Supply Paper, 1724, 1964.
- 35.18 "Quality of Surface Waters of the U.S. 1960 - Parts 1 and 2, North Atlantic Slope and South Atlantic Slope and Eastern Gulf of Mexico Basins," Macon-Bibb County Planning and Zoning Commission, U.S.G.S. Water Supply Paper, 1941, 1968, 418 pages.
- 35.19 "Surface Water Supply of the U.S. 1961-65 - Part 2, South Atlantic Slope and Eastern Gulf of Mexico Basins, Vol. 2, Basins from Ogeechee River to Carrabella River," Macon-Bibb County Planning and Zoning Commission, Water Supply Paper, 1905, 1970, 772 pages.
- 35.20 "Quality of Surface Waters of U.S. 1961-Parts 1 and 2, North Atlantic Slope Basins and South Atlantic Slope and Eastern Gulf of Mexico Basins," Macon-Bibb County Planning and Zoning Commission, U.S.G.S. Water Supply Papers, 1881, 1967, 412 pages.

35.21 "Surface Water Records of Georgia During the Drought of 1954, Part I, Streamflow," Macon-Bibb County Planning and Zoning Commission, Georgia Department of Mines, Mining and Geology Information Circular #17, 1955, 79 pages.

35.22 "Surface Water Management: Interim Report No. 1," Clark County 208, June 1977. Presents information on drainage basins in Clark County, and for selected storm events predicted runoff and pollutant loadings.

XXXVI. URBAN RUNOFF

36.1 "Criteria for Determining Water Quality Significance of Storm Water Runoff," First Tennessee-Virginia Development District, April 1977, 18 pages.

36.2 "Development and Methodology for Determining Stormwater Runoff Loadings," First Tennessee-Virginia Development District, March 1978, 19 pages.

36.3 "Stormwater Runoff Loads," First Tennessee-Virginia Development District, May 1978, 18 pages.

36.4 "Water Pollution Significance of Stormwater Runoff," First Tennessee-Virginia Development District, May 1978, 14 pages.

36.5 "Inventory and Analysis of Study Area Data on Stormwater Runoff," First Tennessee-Virginia Development District, April 1977, 24 pages. A comparison of the constituents of stormwater runoff from the study area and other locales, including information presently available on the quality and quantity of the area's stormwater runoff.

36.6 "Calibration of Stormwater Load Generation Model (STORM)," South Alabama Regional Planning Commission, April 1977.

36.7 "Quantitative Estimation of Urban Stormwater Runoff Loadings to Mobile Bay, Alabama," South Alabama Regional Planning Commission, October 1977.

36.8 "Urban Stormwater Data on Residual and Commercial Sampling Sites," South Alabama Regional Planning Commission, April 1977.

36.9 "Sanitary Water Quality Responses to Fecal Coliform Loadings Originating From Urban Stormwater Runoff," South Alabama Regional Planning Commission, January 1978.

36.10 "Field Data on Nonpoint, Urban Stormwater, Comprehensive and Routine Sampling Runs," South Alabama Regional Planning Commission, January 1977.

36.11 "Urban Storm Runoff Problems/Analysis," Erie and Niagara Counties Regional Planning Board, December 1977, 174 pages.

36.12 "Urban Storm Runoff Problems/Analysis," Erie and Niagara Counties Regional Planning Board, January 1979, 158 pages.

36.13 "Jones Falls Watershed Urban Stormwater Study-Work Plan," Baltimore Regional Planning Commission, May 1979.

36.14 "Water Quality Aspects of Urban Stormwater Runoff," Columbia Regional Association of Governments, tech supplement.

36.15 "Analysis of Urban Stormwater Quality from Seven Basins in the Portland Area, Oregon," Columbia Regional Association of Governments, tech supplement.

36.16 "Controlling Stormwater Runoff in Developing Areas," Metropolitan D.C. Council of Governments, July 1979, 100 pages.

- 36.17 "Assessment of Alternatives for Control of Urban Stormwater Pollutants," Washoe Council of Governments, May 1978.
- 36.18 "Alternative Programs for Reducing Urban Storm Runoff Pollution from the Reno-Sparks Area," Washoe Council of Governments, April 1978.
- 36.19 "Assessment of Alternatives for Control of Urban Stormwater Pollutants," Washoe Council of Governments, May 1978.
- 36.20 "Urban Stormwater Management," Washoe Council of Governments, August, 1978.
- 36.21 "Interim Report for Assessment of Stormwater Runoff Effects on the Black Warrior River," West Alabama Planning and Development Commission, May 1977.
- 36.21 "Potential Preventive Strategies for Stormwater Pollution Management in the Atlanta Region," Atlanta Regional Commission, July 1977.
- 36.22 "Impact of Stormwater Runoff on the Halifax River Estuary," Volusia County Council of Governments, technical report.
- 36.23 "Decatur," Illinois Environmental Protection Agency, February 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution and possible institutional arrangements.
- 36.24 "Kankakee," Illinois Environmental Protection Agency, March 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution, and possible institutional arrangements.
- 36.25 "Champaign-Urbana," Illinois Environmental Protection Agency, January 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution and possible institutional arrangements.
- 36.26 "Bloomington-Normal," Illinois Environmental Protection Agency, February 1978. Contains problems assessment, methods to control urban stormwater pollution, and possible institutional arrangements.
- 36.27 "Quad Cities," Illinois Environmental Protection Agency, January 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution, and possible institutional arrangements.
- 36.28 "Springfield," Illinois Environmental Protection Agency, March 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution, and possible institutional arrangements.
- 36.29 "Rockford," Illinois Environmental Protection Agency, February 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution and possible institutional arrangements.
- 36.30 "Peoria," Illinois Environmental Protection Agency, March, 1978. Contains the problem assessment, feasible methods to control urban stormwater pollution and possible institutional arrangements.
- 36.31 "Urban and Industrial Stormwater," Kansas Department of Health and Environment, fact sheet.
- 36.32 "Rural and Urban Stormwater Runoff," Kansas Department of Health and Environment.

- 36.33 "Stormwater Quality Characteristics," Kansas Department of Health and Environment.
- 36.34 "Stormwater Treatment Systems," Kansas Department of Health and Environment.
- 36.35 "Urban Stormwater Management," Kansas Department of Health and Environment.
- 36.36 "Analysis of Urban Stormwater Run-off and Combined Sewer Overflows in the Boston Metropolitan Area," Boston Metropolitan Area Planning Commission, March 1978.
- 36.37 "Stormwater Pollutant Generation Functions," East Central Florida Regional Planning Council.
- 36.38 "Stormwater Management Practices Manual," East Central Florida Regional Planning Council.
- 36.39 "Basic Stormwater Management and Pollution Abatement Ordinance," East Central Florida Regional Planning Council.
- 36.40 "Preventative and Corrective Measures for Stormwater Pollution," Northeastern Illinois Planning Commission, December 1977.
- 36.41 "208 Report Vol. III, Preventative Measures to Abate the Pollution of Stormwater Runoff as Part of an Areawide Water Quality Management Plan," Eastgate Development and Transportation Agency.
- 36.42 "Toward Clean Water: Alternatives for Action, Volume 1, Draft Environmental Impact Assessment, (1977), Chapter 6: Urban Runoff/Construction and Development," Old Colony Planning Commission. Discuss alternatives to controlling urban runoff in Brockton, controlling urban runoff in other urbanized areas, and adopting preventive measures for future development.
- 36.43 "Nonpoint Estimates Analysis for the City of Brockton, E.E.A.," Old Colony Planning Council, 1976. Deals with the estimates of stormwater related pollutant emissions from the City of Brockton and presents a review of a wide range of management options for the control of stormwater runoff.
- 36.44 "Section 208 Stormwater Measurement Program Results, E.E.A.," Old Colony Planning Council, 1977. Presents the results of several sampling programs aimed at developing basic inventory data necessary to assess: (a) selected aspects of the stormwater runoff pollution problems within the OCPC 208 study area (primarily within the City of Brockton) and (b) existing dry weather pollution problems with respect to nutrient, oxygen and bacterial loadings at 40 lake, stream, and pond locations throughout the 208 study area.
- 36.45 "Toward Clean Water: A Program for Action," Old Colony Planning Council, 1978. Discusses stormwater runoff within the recommended community actions (chapter 4), recommended regional action (chapter 11), and recommended state and federal action (chapters 15 and 16).

- 37.30 "Existing Practices for Hazardous Waste Management in the San Francisco Bay Area," Association of Bay Area Governments, June 1977, \$1.00. Solid waste management plan tech memo.
- 37.31 "Final Wasteload Allocations," Indian Nations Council of Governments, Environmental Protection Agency Plan Elements 2, 6, and 7, April 1978. The purpose of this working paper is to present the methodology and final results of the wasteload allocation process for the Indian Nations Council of Governments 208 Study Area as required by Federal regulations (1). The major steps in the wasteload allocation methodology are: identification of water quality standards and goals; collection of water quality data; identification of violations of stream standards and potential problem areas; selection of parameters/constituents to be allocated; development of allocation tools including mathematical models; development of alternative allocation scenarios; review of alternatives; selection of final wasteload allocations. This paper contains a discussion of these major steps, the inherent necessary assumptions and constraints, and the problem areas for future study. The report was subsequently revised based on meetings with the State of Oklahoma Pollution Control Task Force. Revisions are reflected in Chapter III of the final plan.

- 37.67 "Phase V - Preliminary Population and Flow Data," Phoenix Urban Study, Ferguson, Morris and Simpson/Stevens, Thompson and Runyan, for the U.S. Army Corps of Engineers, December 1976. This report covers the distribution of population totals and the projection of future wastewater flows and loads for the study area. It has been divided into three main sections. The first section identifies existing city boundaries and service areas. Section two describes the distribution of population totals, and divides the study area into forty-one wastewater planning areas. The third section reviews unit flows and loadings used in the study area.

- 37.95 "Waste Load Allocation Alternatives," Indian Nations Council of Governments, Environmental Protection Agency Plan Element 2, 6 and 7, March 1978. In order to determine the most cost-effective treatment alternatives to achieve specified water quality goals, it is necessary to determine the maximum allowable discharges from the various point and nonpoint wastewater sources. The level and cost of treatment can then be estimated from the allowable discharge and influent characteristics. To this end, Hydrosience, Inc., utilized two separate mathematic models to determine the allowable waste loads in future working papers. The outputs of these models were used to estimate treatment requirements. A discussion of this process is presented in Working Paper No. T-13, Documentation of Cost Estimating Procedures for Physical Wastewater Management Alternatives. The analysis of nonpoint source management problems/needs is presented in Assessment of Nonpoint Source Pollution for INCOG 208 Study Area by Tulsa City-County Health Department, February 1978. The purpose of this working paper is to present the individual alternatives waste load allocations and the estimated treatment requirements.

- 38.152 "Draft Legislative Proposal for the Formation of On-Site Wastewater Disposal Zones," Illinois Environmental Protection Agency, January 1978.

- 38.153 "Wastewater Treatment Community Profiles," Indian Nations Council of Governments, Environmental Protection Agency Plan Element 3, January 1978. A summary of conditions at existing municipal waste treatment plants is presented. A total of 38 community wastewater point sources have been identified and located from available data. In addition 47 non-municipal dischargers were identified. Data are presented on average daily effluent flow, effluent BOD, effluent total phosphorus and effluent TKN. A profile of each plant is given and summaries are provided.

- 39.150 "Management Report," Metroplan, 1979.

- 39.151 "Interim Output Report: Existing and Projected Service Areas," Michigan Area Council of Governments, 1977.
- 39.152 "Federal Water Quality Planning Regulations, Phase IV Report," Appendix L, Michigan Area Council of Governments, 1978.
- 39.153 "Task 2.8 Wastewater Management Solutions," Cape Cod Planning and Economic Development Commission, 1977.
- 39.154 "Implementation Summary," North Carolina Department of Natural Resources and Community Development, 25 pages.
- 39.155 "208 Phase I Results," North Carolina Department of Natural Resources and Community Development, 70 pages.
- 39.156 "Preliminary Report - 208 Water Quality Management in the NEFCO Area," Northeast Ohio Four County Organization, November 1977.
- 39.157 "Preliminary Report on Water Quality in the Schuylkill River," Delaware Valley Regional Planning Commission, Chester Betz Engineers, August 1976.
- 39.158 "Preliminary Evaluation of the Impact of Marinas on Water Quality," Rhode Island Statewide Planning Program.
- 39.159 "Progress Report, Phase IV Management Program," Weber River Water Quality Planning Council.
- 39.160 "Preliminary Water Quality Assessment," Weber River Water Quality Planning Council.
- 39.161 "208 Water Quality Program Moves Ahead," East-West Gateway Coordinating Council, October 1976. A one-page sheet briefly describing the methodology to be used in carrying out the 208 water quality project.
- 39.162 "Element 5 - Phase I Workshop Materials," East-West Gateway Coordinating Council, May 1976.
- 39.163 "208 Water Quality Glossary," East-West Gateway Coordinating Council, January 1976. A list of key words in the area of water quality prepared by the Water Quality Public Information specialists at East-West Gateway Coordinating Council.
- 39.164 "Statement of Coordination Prepared by EWGCC and Southwestern Illinois Regional and Metropolitan Planning Commission (SIMAPC)," East-West Gateway Coordinating Council, December 1974. This document defines the differing roles of EWGCC and SIMAPC; where EWGCC was designated as the 208 agency for the Missouri portion of its region.
- 39.165 "Dirty Words," East-West Gateway Coordinating Council, January 1976 to March 1977. Developed by EWGCC in coordination with the Southwestern Illinois Metropolitan and Regional Planning Commission (the designated 208 agency for the Illinois side of the St. Louis metropolitan region).
- 39.166 "Slide Show and Script," East-West Gateway Coordinating Council, April 1976. An inhouse project which was presented at meetings, schools, clubs and a national 208 conference, this 12-minute slide show uses approximately 90 slides and is accompanied by a script of a dialogue between two people.

- 39.167 "EWGCC 208 Request for Proposal," East-West Gateway Coordinating Council, August 1975. Indicates what is to be required from consultants working with EWGCC on the 208 Wastewater Treatment Management Study.
- 39.168 "The Challenge and Opportunity of Water Quality Management Planning," East-West Gateway Coordinating Council, January 1976. Poses questions and gives answers concerning Section 208 of the Federal Water Pollution Control Act as amended.
- 39.169 "Detailed Work Plan - Executive Summary - 208 Wastewater Management," East-West Gateway Coordinating Council. Outlines the specific work to be done in each phase of the program. Provides background and indicates the overall organization of the phases in the 208 study.
- 39.170 "EWGCC Designating Application," East-West Gateway Coordinating Council, December 1974. Application to the Governor of Missouri describing, proposing and giving reasons for establishing the Missouri portion of the St. Louis area as a 208 region and for designating EWGCC as the designated 208 agency.
- 39.171 "Phase III Summary Report," Element 24, East-West Gateway Coordinating Council, November 1977. This report was used as a workshop material for the Phase III Workshop held in November 1977.
- 39.172 "Preliminary Problem Analysis," Element 20, 21: Task Memo b, East-West Gateway Coordinating Council, June 1977. Explains the purpose, methodology and results of testing the impact of future conditions on water quality within the St. Louis 208 area.
- 39.173 "208 Quarterly Report," East-West Gateway Coordinating Council. Each of these reports is a general description of work completed, problems, changes and accomplishments of EWGCC wastewater management study during each quarter of a year.
- 39.174 "Background Materials, 208 Quality Management Plans," Element 3, East-West Gateway Coordinating Council, September 1976. Discusses background information that was generated to describe the 208 study area and the Phase I steps necessary to undertake subsequent tasks in the water quality management project.
- 39.175 "Regional Water Quality Profile," East-West Gateway Coordinating Council. Contains a brief review of current and estimated future water pollution problems for the 208 study area. For each county, structural and nonstructural controls for these problems are discussed.
- 39.176 "EWGCC 208 Planning Agency Program Profile," East-West Gateway Coordinating Council, October 1976. Gives a brief description, study overview and schedule dates for reports on priority water quality problems.
- 39.177 "W.Q. Profiles," Element 15, East-West Gateway Coordinating Council, February 1977. Assembled to assist the 208 regional workshop participants in understanding and evaluating the 208 program.
- 39.178 "Activity 302 Report/Establish Subareas and Base Mapping for the '208' Study Area," Chattanooga Area Regional Council of Governments, 4 pages.

- 39.179 "Personal Interviews for the Chattanooga Area Regional Council of Governments/Southeast Tennessee Development District 208," Chattanooga Area Regional Council of Governments, January 20, 1977, 6 pages plus 11 page questionnaire.
- 39.180 "208 Management Studies: Summary of Interviews Completed in Accordance with Work Task 702.1," Chattanooga Area Regional Council of Governments, April 29, 1977, 9 pages.
- 39.181 "208 Background Paper/Project Memorandum," Chattanooga Area Regional Council of Governments, December 16, 1976, 6 pages.
- 39.182 "Chapter XI - Summary of the Proposed Plan for the CARCOG/SEDD 208 Study Area," Chattanooga Area Regional Council of Governments, June 1978, 17 pages.
- 39.183 "Management Introduction and Summary," Central Midlands Regional Planning Commission.
- 39.184 "Executive Summary," North Carolina Department of Natural Resources and Community Development, 25 pages.
- 39.185 "208 Executive Summary," Mid-Cumberland Council of Governments and Development District.
